

Managed IT Proposal

Discover why Flotek is the smarter Managed IT Support for your business

Who is Flotek

As a growing technology company based in Cardiff, Flotek strives to ensure customers are embracing the opportunities and efficiencies brought by the latest and greatest technology.

With regional sales and support locations across the UK, our ambitious growth is focused around our crucial values and fundamental rules, with every product and service delivered with expertise, passion and heart.

Discover why Flotek is the smarter Cloud partner for your business.

Our reason why...

Ensuring our customers stay continuously connected through secure and cutting-edge technology solutions.

Dedicated Team

With regional offices in the South West UK - our team are on hand to help you stay connected & secure across all our technologies.

Employee Led

Every employee shares ownership across our entire group, fostering a culture of collective investment and shared success.

Tech Partners

Working and collaborating with the worlds market leading manufacturers to keep ahead of our competition.

Internet

An Internet Service Provider offering reliable connectivity with the option of an on-net 5G backup for uninterrupted service.

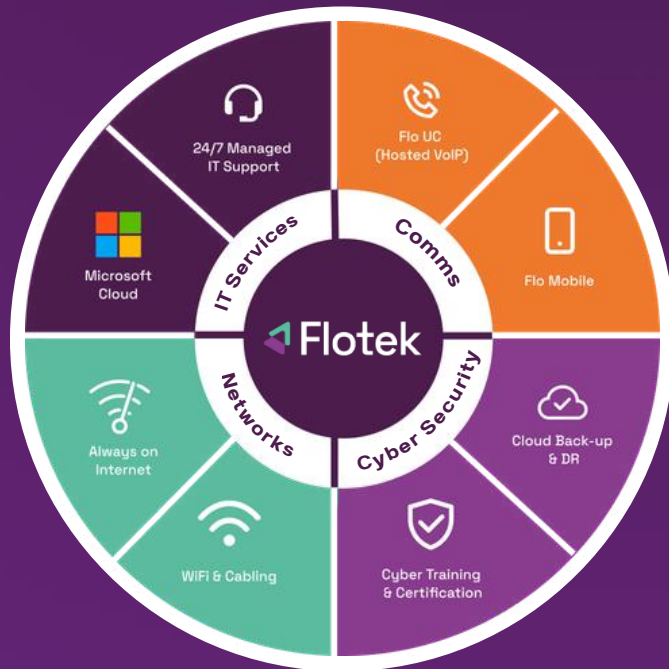

Microsoft Cloud Partner

Driving customers towards cloud solutions using Azure, focusing on modern work practices and robust security measures.

What We Do

Bringing Technology Together.

At last, an IT & Comms service provider taking SMEs to the Cloud with confidence, clarity and clout.

Thanks to our range of innovative, cost-effective, tried & tested solutions that ensure your tech, team and data are always on, always secure and always together, wherever they are.

Our Promise

Always On.

Wherever your team is at, wherever you do business; staying connected with unfaltering internet back-up to boot is mission-critical for businesses whatever their size.

Always By Your Side.

Innovative, cost-effective, tried & tested solutions, not to mention our friendly and experienced team always on-hand to ensure you're right where you need to be.

Always Secure.

Flotek's got cyber sussed, with the highest security baked-in to all our products and best practice strategies putting the right defences in place for when it happens.

Always Giving Back.

From rewarding our loyal customers, to promoting well-being and supporting charitable causes, every product and service we offer is delivered with expertise, passion and heart.

CyberGuard

Powered by  HUNTRESS

2.3M+ Endpoints Managed

24/7 Protection

100K+ Secure Customers

Advanced Cyber Security For Your Business

CyberGuard, powered by Huntress delivers a powerful suite of managed detection and response (EDR) capabilities - backed by a team of 24/7 threat hunters - to protect your business from today's determined cybercriminals.

Founded by former NSA Cyber Operators. Backed by ThreatOp researchers. Meet the team that's powering Huntress and fighting back against hackers.

Our 24/7 Security Operations Center vigilantly monitors your systems, ensuring prompt action on any unusual security alerts. Experience peace of mind as we swiftly handle and isolate these concerns. Stay informed at all times with access to all security alerts, ongoing incidents, and investigations through our easy-to-use portal.

Managed EDR (End Points/Devices)

Actively defend against ongoing attacks with advanced endpoint detection and response, ensuring immediate response and mitigation of threats as they happen.

MDR for Microsoft 365

Ensure robust protection for your Microsoft 365 environments and safeguard employee identities with advanced defence strategies and tools.

24/7 SOC

The Huntress SOC offers expert human-led cybersecurity, actively investigating, analysing, and addressing threats beyond automated tools.

Security Awareness Training & Phishing

Enable your teams to identify and avoid phishing attacks, malware and more with auto enrolled training and human designed simulations.

Worth over £1200 per year

Get Certified!

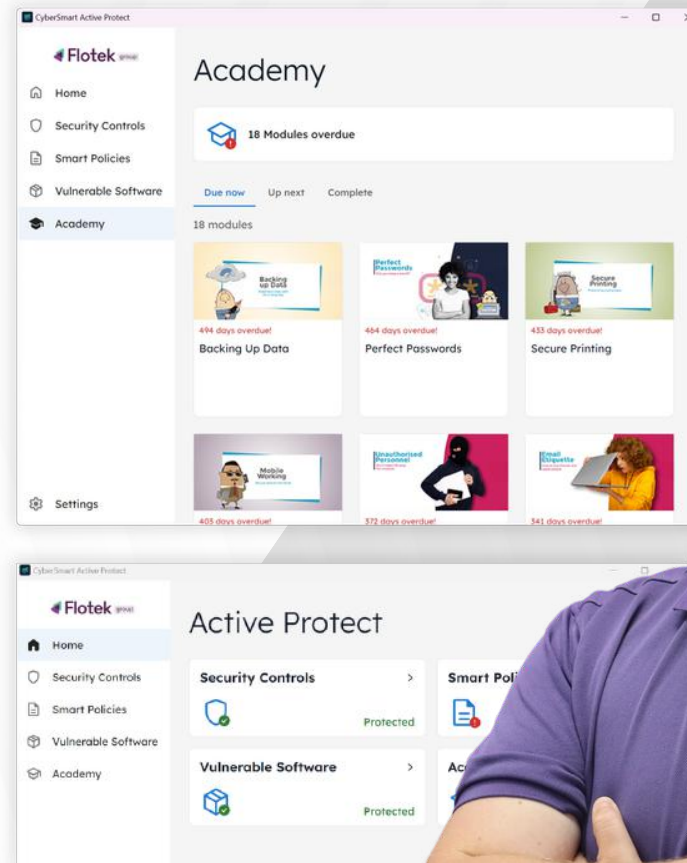

Over HALF of all SME's are Hacked every year, most with little to no cyber protection!

A Government-backed scheme delivering everything an organisation needs for cyberattack protection.

Certification reduces cyber risk by up to 98.5% and shows you're serious about cyber security.

Our Active Protect security bundle offers full protection without the fuss all year round.
