## Letsbuyhealthcare.com

IF YOU don't have health insurance and fail to qualify for a medical card, an innovative new website has been launched to allow you to book

private consultations or procedures at a range of hospitals and healthcare providers. Letsbuyhealthcare.com puts you in full

control when it comes to choosing private medical treatments. It is set to revolutionise how patients self-fund their treatments. See pages 14&15.

On a public waiting list?

Need access to private healthcare  
but have no medical insurance?

The Booking Website  
for Private Healthcare

## Letsbuyhealthcare

**LETSBUYHEALTHCARE** is a booking website for people to access pay-as-you-go private healthcare.

Users can book individual treatments directly with private hospitals, GPs and medical consultants. Letsbuyhealthcare is for people without private health insurance or access to a medical card who will now be able to access private care online when they need it in a simple, timely manner.

So, rather than relying on the public health system, which often means waiting, there is now another way for those who wish to take more personal control of their treatment timeline.

The website ([letsbuyhealthcare.com](http://letsbuyhealthcare.com)) provides information such as waiting times, how it works, what you need and prices for healthcare treatments - making it simple for those who wish to book and self-pay for private health

## How it Works

### SEARCH

Find a treatment  
you need

### CHOOSE

Pick your medical  
provider

### BOOK

Book your medical  
provider

So, it puts you in control: your healthcare is in your hands.

Letsbuyhealthcare. It's not the same as private health insurance but it's private health in sure hands.
