ABOUT US

LOPEC INDUSTRIES IS A GUJARAT-BASED MANUFACTURING COMPANY ENGAGED IN THE PRODUCTION OF PREMIUM QUALITY CATTLE FEED PRODUCTS. ESTABLISHED IN 2025, THE COMPANY IS HEADED BY MR. MUKESH ANTIYA, WHO BRINGS MORE THAN 20 YEARS OF INDUSTRY EXPERIENCE AND HOLDS AN M.SC. IN CHEMISTRY.

WE ARE DEDICATED TO DELIVERING RELIABLE AND INNOVATIVE FEED SOLUTIONS THAT SUPPORT THE LIVESTOCK INDUSTRY WITH CONSISTENT QUALITY AND CUSTOMER SATISFACTION.

OPERATING THROUGH TWO MANUFACTURING UNITS SPREAD ACROSS APPROXIMATELY 1000 SQUARE METERS, LOPEC INDUSTRIES UTILIZES QUALITY RAW MATERIALS AND MODERN PRODUCTION PROCESSES TO ENSURE DEPENDABLE PRODUCTS FOR CUSTOMERS. OUR MANUFACTURING SETUP IS SUPPORTED BY DEDICATED TESTING AND RESEARCH FACILITIES THAT HELP MAINTAIN HIGH STANDARDS THROUGHOUT THE PRODUCTION CYCLE.

WE OFFER CUSTOMIZED PRODUCTION AND PACKAGING SOLUTIONS ACCORDING TO CLIENT REQUIREMENTS. WITH A MONTHLY PRODUCTION CAPACITY OF 100 TONS AND A TEAM OF EXPERIENCED PROFESSIONALS, WE CONTINUE TO SERVE CATTLE FEED SUPPLIERS ACROSS INDIA.

OUR COMMITMENT TO QUALITY, INNOVATION, AND LONG-TERM CUSTOMER RELATIONSHIPS HAS HELPED US ESTABLISH OURSELVES AS A TRUSTED NAME IN THE INDUSTRY. WE STRIVE TO PROVIDE PRODUCTS THAT DELIVER VALUE, RELIABILITY, AND CONSISTENT PERFORMANCE.

OUR PRODUCTS

Logarlic Powder

**High intensity Allicin
Fortified with Polyphenols.
Each Kg contains Allicin
from Garlic extract - NLT
15% Fortified with
Polyphenols Stabilizers and
Excipients.**

• **Benefits & Advantages**

- Natural Anti-Coccidial, Anti-Protozoal and Anti-Fungal agent
- Boosts the Natural Immune cell response
- Acts as a natural Toxin adsorbent thus preventing toxin absorption from Intestine
- Recommended for supportive therapy for Faster recovery post disease
- Anti-Bacterial effect may reduce use of Antibiotic growth promoters
- Anti-viral effect results in better Antibody titre in Serum post vaccination
- Anti-Stress effect makes sure that production of animal is unhampered during stress condition

Lo Turmeric Powder

**High Intensity
Curcumin Fortified
with Polyphenols. Each
kg contains Curcumin
extract – NLT 6%
Fortified with
Polyphenols.**

• **Benefits & Advantages**

- Natural Anti-Inflammatory action
- Boosts the natural immune cell response
- Acts as a natural Toxin adsorbent
- Increases Feed intake in Birds
- Anti-Bacterial effect may reduce use of Antibiotic growth promoters
- Anti-Viral effect results in better Antibody titre post vaccination
- Anti-Stress effect during stress conditions

OUR PRODUCTS

Lo Drop Yucca Liquid

Yucca Liquid is a 100% natural ingredient made from the Yucca schidigera plant, included in the premix of fish and shrimp feeds, helping to control and reduce ammonia and other gases that affect the health of production ponds.

• Benefits & Advantages

- Reduces ammonia levels; increasing productivity and efficiency
- Improves water quality in ponds by creating a cleaner environment
- Most cost-effective product to improve environment and increase yield
- Binds ammonia molecules and nitrites, transforming them into harmless nitrogen compounds
- Anti-Bacterial effect may reduce use of Antibiotic growth promoters

OUR PRODUCTS

Loyucca Powder

Yucca Powder is a 100% natural ingredient made from the Yucca schidigera plant, included in the premix of fish and shrimp feeds, helping to control and reduce ammonia and other gases that affect the health of production ponds.

• Benefits & Advantages

- Reduces the concentrations of ammonia, nitrites, hydrogen sulphides and other harmful gases
- No danger of reactions since it is fully stabilized
- Raw materials of vegetable origin with no chemical ingredients
- Improves water quality by increasing flocculation and promoting sedimentation of suspendable solids
- Made with highest technology and quality control
- Not harmful to the health of humans, plants and animals

OUR PRODUCTS

Lomax

Growth promoter is a phytobiotic feed Premix containing a synergistic combination of Essential Oils such as Oregano, Clove, Cinnamon & Eucalyptus and Short Chain Fatty acids with Antimicrobial, Coccidiostatic and Antioxidant properties that promote performance and productivity.

• **Benefits & Advantages**

- Aids in positive intestinal microflora modulation & better gut health
- Promotes intestinal integrity & enhances immunity
- Stimulates endogenous enzyme secretion & digestion
- Has excellent antimicrobial action, which helps in reduced risk of enteric diseases
- Acts as an antioxidant & acidifier
- Significantly improves performance & production parameters

OUR PRODUCTS

Lo Drop Garlic Oil

**Water Soluble
Garlic Extract.
Each 100 ml
contains 10 gm
Allicin.**

• Benefits & Advantages

- Broad spectrum anti-bacterial, antiviral, antifungal & bactericidal effect
- Increases appetite and feed intake
- Stimulates the immune system
- Improves animal meat flavor and lowers cholesterol
- Achieves better absorption of feed
- No side effects without residue and resistance

OUR PRODUCTS

Lo Drop Yucca Oil

Yucca Oil is a 100% natural ingredient made from the Yucca schidigera plant, helping to control and reduce ammonia and other gases that affect the health of production.

• Benefits & Advantages

- Reduces ammonia levels; increasing productivity and efficiency
- Improves water quality by creating a cleaner environment
- Most cost-effective product to improve environment and increase yield
- Improves animal meat flavor and lowers cholesterol
- Binds ammonia molecules and nitrites, transforming them into harmless nitrogen compounds
- Accelerates degradation of organic matter

OUR PRODUCTS

Lo Drop Haldi Oil

**Water Soluble
Curcumin Oil as
Natural Growth
Promoter. A
synergistic blend of
Curcumin, Turmerone
& Polyphenols.**

• Benefits & Advantages

- Immunity Enhancer
- Feed Attractant
- Improves Feed Colour & Feed Keeping Quality
- Digestibility Enhancer
- Anti-inflammatory properties
- Antifungal, Antibacterial, Anti-Viral properties

OUR PRODUCTS

Lo Guard

Loguard is a disinfectant possessing wide spectrum virucidal, Bactericidal and fungicidal activity. The effectiveness is enhanced by its excellent detergent properties, so that clean disease-free surfaces can be achieved.

• **Benefits & Advantages**

- Broad spectrum of antimicrobial activity
- Nontoxic, nonirritating and noncorrosive at user dilution
- Readily soluble in tap water - easy for application
- Effective against numerous microorganisms affecting animals: viruses, bacteria, fungi, molds, yeasts and mycoplasmas
- Blend of inorganic peroxygen compounds, salts, buffers, descalants, detergents and stabilizers
- Oxidizes sulfur bonds in proteins and enzymes disrupting cell membrane function
- Can be applied manually or through all types of cleaning equipment

OUR PRODUCTS

Losweetos

Losweetos is a high intensity sweet taste enhancer for Animal feed application. It's a Sweetening palatant or Flavouring premixture. Approximately 550 times sweeter than sugar i.e., 1Kg of Losweetos is equal to 550 Kg of Sugar.

• Benefits & Advantages

- Increases feed intake in animals
- Helps mask unpleasant tastes from medications
- Improves overall feed efficiency
- Cost-effective alternative to sugar
- A synergistic complex of high intensity sweetener, taste enhancing & taste potentiating agents
- Free of Animal By-products
- Excellent Sugar like long lasting taste without bitter or metallic after taste
- Masks bitter tastes associated with high levels of medications and minerals

OUR PRODUCTS

Locare

Locare is a Natural Nanobiotechnology based Mineral Nutrients for Diatom Bloom. It contains Silicon (in water soluble silicic acid form) as a Major ingredient and Fe, Mn, Ca, Mg, Zn, Cu, B, S, Mo, etc. as Micronutrients.

• Benefits & Advantages

- Helps mask unpleasant tastes from medications
- Helps exclude pathogenic species like vibrio and cyanobacteria
- Reduces ammonia and other toxic gases in aquaculture ponds
- Increases dissolved oxygen level through efficient photosynthesis
- Creates more consistent oxygen levels and stable water chemistry
- Excellent Sugar like long lasting taste without bitter or metallic after taste
- Improves survival rate of Post Larvae during nursery stage
