How we work

221

223

1. Initial Consultation

- Our process begins with an initial visit where a specialist comes to your home to gather detailed information and take precise measurements. This step allows us to understand your needs and expectations, laying the foundation for a successful renovation that reflects your vision.

2. Detailed Estimate

- Transparency is key to building trust. After gathering all the details, we provide a comprehensive and easy-to-understand estimate tailored to your requirements. This quote breaks down all costs, ensuring there are no hidden fees or surprises along the way.

3. Project Planning

- Once the estimate is approved, our dedicated project manager takes the lead. They'll create a clear timeline, coordinate the necessary materials, and oversee every detail of the preparation phase. This ensures all elements are in place before we begin, minimizing delays and keeping the process smooth and efficient.

4. Execution

- Our skilled team brings years of experience and craftsmanship to every project. We adhere to the agreed-upon timeline and maintain open communication throughout the renovation. From high-quality materials to expert techniques, every step is handled with care and precision, ensuring the results exceed your expectations.

5. Final Inspection

- Your satisfaction is our top priority. Once the work is complete, we'll conduct a detailed walkthrough with you to review the project and address any final adjustments. We don't consider the job done until you're fully satisfied and proud of your transformed space.

Client Testimonials

At JMR Home Services, we believe that our clients' satisfaction is the true measure of our success. Testimonials are more than just words to us – they are reflections of the trust and confidence our clients place in us. Each project we complete tells a story, and hearing directly from our customers about how we've transformed their homes is invaluable. Your feedback not only motivates us to continue delivering excellence but also helps future clients feel confident in choosing JMR Home Services for their home improvement needs.

We had a great experience with JMR. The workmanship and attention to detail was exceptional. The different crews (flooring, dry wall, electrical, painting, wood working) took great pains to leave as little to no mess behind on a daily basis. Our project manager, Ronnie, was incredibly helpful with ideas and was very flexible and easy to work with. I highly recommend!

It gives me great pleasure to share my excellent experience with JMR Home Services in the recent renovation of my powder room and guest bathroom.

We chose JMR because of their friendly and knowledgeable estimate person Ronniey, and their excellent reviews and references. The Ronald Group was assigned to do a full renovation of our master bathroom. They did a terrific job! Ronald and Steven communicated very well with us, and worked long and hard to make sure our bathroom became exactly what we wanted and needed. Our only glitch was with Governor Glass, the company they hired to make and install our shower glass surround... they did a poor job installing the surround, and had to re-do it several times, delaying our completion by more than a month. The glass guys did not communicate well with us, "blew off" appointments, and were more the typical folks who give contractors a bad name. Apart from them, JMR was excellent and I recommend them highly to anyone looking for expert remodeling! Props to our team, the Ronald Group, for doing a fantastic job and being kind and funny as well!
