Complete and Balanced Food for Dogs and Cats

Feeding Friendships

# Finotrato

*Finotrato Family, the certainty to  
provide the best for your pet!*

The FINOTRATO family for cats and dogs is made up of high quality products in the Premium Plus, Super Premium and Ultra Premium segments. These products are made to meet the needs and exceed the expectations of the most demanding consumers.

The development of Finotrato pet food is based on three core principles:

• **FOOD SAFETY**

Due to our strict quality control of raw materials and processes, both in house and at our suppliers, we can confidently guarantee the safety of our pet food, giving our customers the peace of mind that their pets are in safe hands.

• **WELL-BEING**

The well-being is a result of the quality of the food, from its palatability and taste, all the way to its digestibility and the fecal consistency, thus providing excellent health and longevity.

• **ANIMAL NUTRITION**

Keeping up to date with the most modern international nutritional standards and requirements, these foods are developed to meet all the nutritional needs of cats and dogs.

# Finotrato

## Select

### PRODUCT INDICATION

Complete pet food for all breed adult dogs.

### INGREDIENTS

Chicken by-product meal, meat meal, ground whole grain corn, corn gluten meal, soybean meal, chicken fat, hydrolyzed chicken liver, methionine, salt, citric acid, antioxidant (BHA and BHT), propionic acid, vitamins (A, D3, E, B1, B2, B6, B12, K3, nicotinic acid, folic acid, biotin, calcium pantothenate and choline chloride), zinc sulfate, calcium iodate, sodium selenite, copper sulfate, iron sulfate, manganese monoxide, manganese sulfate, zinc oxide, sodium hexametaphosphate, mannan-oligosaccharides, bentonite and Yucca schidigera extract.

### GUARANTEED ANALYSIS

Moisture (max) 9%, Crude Protein (min) 22%, Crude Fat (min) 10%, Crude Fiber (max) 3%, Ash (max) 8.5%, Calcium (min) 0.8%, Phosphorus (min) 0.8%, Sodium (min) 3,000mg/kg, Omega-6 Fatty Acids (min) 12.5g/kg, Omega-3 Fatty Acids (min) 830mg/kg, Metabolizable Energy 3,700kcal/kg.

#### Yucca Extract

Less stool odor

Yucca schidigera actively reduces the odor of feces. Due to their high digestibility and correct balance of nutrients, an ideal fecal consistency is obtained.

#### Omega 3 & 6 + Zinc

Healthy skin and a shiny coat

Essential fatty acids such as omega 3 and 6 when used in combination with zinc provide healthy skin and a shiny coat.

#### Vitamin E & Selenium

Better health and longevity

Vitamin E and selenium are natural antioxidants that act against free radicals in the body, protecting cells and preventing degenerative processes, providing a healthier and longer life.

#### Prebiotics - MOS & GOS

Better intestinal health

The prebiotic action is performed by mannan-oligosaccharides that bind to possible pathogens and allergens, carrying them out of the organism. The action is also performed by the galacto-oligosaccharides from soybean that are used by the beneficial intestinal flora, promoting its growth, thus resulting in better intestinal health.

#### Sodium Hexametaphosphate

Oral hygiene - helps keep tartar under control

Sodium hexametaphosphate actively sticks to minerals that form tartar, preventing them from building up on teeth. Research has shown that the use of sodium hexametaphosphate in food reduced the formation of tartar by 50% to 80%.

## PRODUCT INDICATION

Complete pet food for all breed adult dogs or small and medium breed adult dogs.

## INGREDIENTS

Chicken by-product meal, meat and bone meal, ground whole grain corn, corn gluten meal, soybean meal, chicken fat, hydrolyzed chicken liver, methionine, salt, food colorant, citric acid, antioxidant (BHA and BHT), propionic acid, vitamins (A, D3, E, B1, B2, B6, B12, K3, nicotinic acid, folic acid, biotin, calcium pantothenate and choline chloride), zinc sulfate, calcium iodate, sodium selenite, copper sulfate, iron sulfate, manganese sulfate, zinc oxide, sodium hexametaphosphate, mannan-oligosaccharides, chondroitin sulfate, glucosamine sulfate, bentonite, zeolite and Yucca schidigera extract.

## GUARANTEED ANALYSIS

Moisture (max) 10%, Crude Protein (min) 23%, Crude Fat (min) 13%, Crude Fiber (max) 3%, Ash (max) 8.5%, Calcium (min) 0.8%, Phosphorus (min) 0.8%, Sodium (min) 3,000mg/kg, Omega-6 Fatty Acids (min) 15g/kg, Omega-3 Fatty Acids (min) 1,000mg/kg, Metabolizable Energy 3,800kcal/kg.

### Sodium Hexametaphosphate

Oral hygiene - helps keep tartar under control

Sodium hexametaphosphate actively sticks to minerals that form tartar, preventing them from building up on teeth. Research has shown that the use of sodium hexametaphosphate in food reduced the formation of tartar by 50% to 80%.

### Chondroitin & Glucosamine

Protected and healthy joints

Chondroitin and glucosamine are chondroprotectors that can delay and reduce cartilage degradation, in addition to helping maintain healthy and well hydrated joints.

### Vitamin E & Selenium

Better health and longevity

Vitamin E and selenium are natural antioxidants that act against free radicals in the body, protecting cells and preventing degenerative processes, providing a healthier and longer life.

### Omega 3 & 6 + Zinc

Healthy skin and a shiny coat

Essential fatty acids such as omega 3 and 6 when used in combination with zinc provide healthy skin and a shiny coat.

### Yucca Extract & Zeolite

Less stool odor

Yucca schidigera actively reduces the odor of feces, while zeolite improves its consistency. Due to their high digestibility and correct balance of nutrients, an ideal fecal consistency is obtained.

### Prebiotics - MOS & GOS

Better intestinal health

The prebiotic action is performed by mannan-oligosaccharides that bind to possible pathogens and allergens, carrying them out of the organism. The action is also performed by the galacto-oligosaccharides from soybean that are used by the beneficial intestinal flora, promoting its growth, thus resulting in better intestinal health.

## PRODUCT INDICATION

Complete pet food for small and medium breed adult dogs.

## INGREDIENTS

Chicken by-product meal, meat and bone meal, ground whole grain corn, corn gluten meal, soybean meal, chicken fat, hydrolyzed chicken liver, dehydrated vegetables (carrots, pea, sweet potato, beet, parsley, spinach, pumpkin and celery), methionine, salt, food colorant, citric acid, antioxidant (BHA and BHT), propionic acid, vitamins (A, D3, E, B1, B2, B6, B12, K3, nicotinic acid, folic acid, biotin, calcium pantothenate and choline chloride), zinc sulfate, calcium iodate, sodium selenite, copper sulfate, iron sulfate, manganese sulfate, zinc oxide, sodium hexametaphosphate, mannan-oligosaccharides, chondroitin sulfate, glucosamine sulfate, bentonite, zeolite and Yucca schidigera extract.

## GUARANTEED ANALYSIS

Moisture (max) 9%, Crude Protein (min) 23%, Crude Fat (min) 13%, Crude Fiber (max) 3%, Ash (max) 8.5%, Calcium (min) 0.8%, Phosphorus (min) 0.8%, Sodium (min) 3,000mg/kg, Omega-6 Fatty Acids (min) 15g/kg, Omega-3 Fatty Acids (min) 1,000mg/kg, Metabolizable Energy 3,800kcal/kg.

### Sodium Hexametaphosphate

Oral hygiene - helps keep tartar under control

Sodium hexametaphosphate actively sticks to minerals that form tartar, preventing them from building up on teeth. Research has shown that the use of sodium hexametaphosphate in food reduced the formation of tartar by 50% to 80%.

### Chondroitin & Glucosamine

Protected and healthy joints

Chondroitin and glucosamine are chondroprotectors that can delay and reduce cartilage degradation, in addition to helping maintain healthy and well hydrated joints.

### Vitamin E & Selenium

Better health and longevity

Vitamin E and selenium are natural antioxidants that act against free radicals in the body, protecting cells and preventing degenerative processes, providing a healthier and longer life.

### Omega 3 & 6 + Zinc

Healthy skin and a shiny coat

Essential fatty acids such as omega 3 and 6 when used in combination with zinc provide healthy skin and a shiny coat.

### Indoor Formula Yucca Extract & Zeolite

Less stool odor

Yucca schidigera actively reduces the odor of feces, while zeolite improves its consistency. Due to their high digestibility and correct balance of nutrients, an ideal fecal consistency is obtained which is perfect for dogs living indoors.

### Prebiotics - MOS & GOS

Better intestinal health

The prebiotic action is performed by mannan-oligosaccharides that bind to possible pathogens and allergens, carrying them out of the organism. The action is also performed by the galacto-oligosaccharides from soybean that are used by the beneficial intestinal flora, promoting its growth, thus resulting in better intestinal health.

### PRODUCT INDICATION

Complete pet food for small, medium and large breed adult dogs that are prone to overweight, during weight loss programs or neutered adult dogs.

### INGREDIENTS

Chicken by-product meal, meat meal, ground whole grain corn, corn gluten meal, soybean meal, chicken fat, hydrolyzed chicken liver, methionine, salt, potassium chloride, citric acid, antioxidant (BHA and BHT), propionic acid, vitamins (A, D3, E, B1, B2, B6, B12, K3, nicotinic acid, folic acid, biotin, calcium pantothenate and choline chloride), zinc sulfate, calcium iodate, sodium selenite, copper sulfate, iron sulfate, manganese monoxide, manganese sulfate, zinc oxide, sodium hexametaphosphate, mannan-oligosaccharides, chondroitin sulfate, glucosamine sulfate, L-Carnitine, bentonite, zeolite and Yucca schidigera extract.

### GUARANTEED ANALYSIS

Moisture (max) 9%, Crude Protein (min) 26%, Crude Fat (min) 8%, Crude Fiber (max) 6%, Ash (max) 10%, Calcium (min) 0.8%, Phosphorus (min) 0.8%, Sodium (min) 3,000mg/kg, L-Carnitine (min) 200mg/kg, Omega-6 Fatty Acids (min) 10g/kg, Omega-3 Fatty Acids (min) 650mg/kg, Metabolizable Energy 3,550kcal/kg.

#### Rich in Fibers

Enhanced satiety and greater intestinal health

The adequate amount and a correct balance between soluble and insoluble fibers promote a decrease in the caloric density of this food. Thus, an improvement in satiety and metabolism is achieved, assisting in the weight control program, as well as promoting the growth of a beneficial intestinal flora and a better health of the intestinal villi.

#### Chondroitin & Glucosamine

Protected and healthy joints

Chondroitin and glucosamine are chondroprotectors that can delay and reduce cartilage degradation, in addition to helping maintain healthy and well hydrated joints.

#### L-Carnitine

Helps burn fat

L-Carnitine is an important amino acid for energy production in the body, it is responsible for ensuring the transport of fatty acids into the cells and transforming them into energy needed for daily life, when supplemented, energy levels are increased and consequently fat is burned.

#### Omega 3 & 6 + Zinc

Healthy skin and a shiny coat

Essential fatty acids such as omega 3 and 6 when used in combination with zinc provide healthy skin and a shiny coat.

#### Sodium Hexametaphosphate

Oral hygiene - helps keep tartar under control

Sodium hexametaphosphate actively sticks to minerals that form tartar, preventing them from building up on teeth. Research has shown that the use of sodium hexametaphosphate in food reduced the formation of tartar by 50% to 80%.

#### Yucca Extract & Zeolite

Less stool odor

Yucca schidigera actively reduces the odor of feces, while zeolite improves its consistency. Due to their high digestibility and correct balance of nutrients, an ideal fecal consistency is obtained.

#### Prebiotics - MOS & GOS

Better intestinal health

The prebiotic action is performed by mannan-oligosaccharides that bind to possible pathogens and allergens, carrying them out of the organism. The action is also performed by the galacto-oligosaccharides from soybean that are used by the beneficial intestinal flora, promoting its growth, thus resulting in better intestinal health.

#### Neutered Dogs

Appropriate and adjusted formula

Neutering causes metabolic changes, causing dogs to become less active and use less energy, for this reason, it is so important to provide less caloric food, proper food management and physical exercise.

### PRODUCT INDICATION

Complete pet food for small and medium breed adult dogs with more than 7 years old and large breed adult dogs with more than 5 years old.

### INGREDIENTS

Chicken by-product meal, ground whole grain corn, soybean meal, corn gluten meal, chicken fat, methionine, hydrolyzed chicken liver, salt, citric acid, antioxidant (BHA and BHT), propionic acid, vitamins (A, D3, E, B1, B2, B6, B12, K3, nicotinic acid, folic acid, biotin, calcium pantothenate and choline chloride), zinc sulfate, calcium iodate, sodium selenite, copper sulfate, iron sulfate, manganese sulfate, zinc oxide, taurine, L-Carnitine, sodium hexametaphosphate, mannan-oligosaccharides, chondroitin sulfate, glucosamine sulfate, bentonite, zeolite and Yucca schidigera extract.

### GUARANTEED ANALYSIS

Moisture (max) 9%, Crude Protein (min) 25%, Crude Fat (min) 12%, Crude Fiber (max) 3%, Ash (max) 8.5%, Calcium (min) 0.8%, Phosphorus (min) 0.6%, Sodium (min) 2,000mg/kg, Taurine (min) 1,000mg/kg, L-Carnitine (min) 200mg/kg, Omega-6 Fatty Acids (min) 15g/kg, Omega-3 Fatty Acids (min) 1,000mg/kg, Metabolizable Energy 3,700kcal/kg.

#### Kidney Health

Less kidney overload

Adjusted levels of minerals in the food protect the kidneys by preventing overload and help the kidneys function properly.

#### Chondroitin & Glucosamine

Protected and healthy joints

Chondroitin and glucosamine are chondroprotectors that can delay and reduce cartilage degradation, in addition to helping maintain healthy and well hydrated joints.

#### Taurine and L-Carnitine

Heart health, improved eyesight, and energy use optimization

Taurine acts to strengthen the heart and improves visual acuity, while L-Carnitine is responsible for ensuring the transport of fatty acids into the cells, optimizing fat burning.

#### Omega 3 & 6 + Zinc

Healthy skin and a shiny coat

Essential fatty acids such as omega 3 and 6 when used in combination with zinc provide healthy skin and a shiny coat.

#### Sodium Hexametaphosphate

Oral hygiene - helps keep tartar under control

Sodium hexametaphosphate actively sticks to minerals that form tartar, preventing them from building up on teeth. Research has shown that the use of sodium hexametaphosphate in food reduced the formation of tartar by 50% to 80%.

## PRODUCT INDICATION

Complete pet food for adult dogs in high physical activity.

## INGREDIENTS

Chicken by-product meal, meat meal, ground whole grain corn, corn gluten meal, soybean meal, chicken fat, hydrolyzed chicken liver, methionine, salt, citric acid, antioxidant (BHA and BHT), propionic acid, vitamins (A, D3, E, B1, B2, B6, B12, K3, nicotinic acid, folic acid, biotin, calcium pantothenate and choline chloride), zinc sulfate, calcium iodate, sodium selenite, copper sulfate, iron sulfate, manganese monoxide, manganese sulfate, zinc oxide, sodium hexametaphosphate, mannan-oligosaccharides, chondroitin sulfate, glucosamine sulfate, L-Carnitine, bentonite, zeolite and Yucca schidigera extract.

## GUARANTEED ANALYSIS

Moisture (max) 9%, Crude Protein (min) 25%, Crude Fat (min) 15%, Crude Fiber (max) 3%, Ash (max) 8.5%, Calcium (min) 0.8%, Phosphorus (min) 0.8%, Sodium (min) 3,000mg/kg, BCAA (Branched-Chain Amino Acid, min) 3.9%, L-Carnitine (min) 200mg/kg, Omega-6 Fatty Acids (min) 15g/kg, Omega-3 Fatty Acids (min) 1,000mg/kg, Metabolizable Energy 3,900kcal/kg.

### BCAA & L-Carnitine

More energetic and more muscle protein synthesis

L-Carnitine favors a more efficient use of fatty acids in the energy production process, while BCAA maximizes muscle protein synthesis and protects against post-exercise muscle injury.

### Omega 3 & 6 + Zinc

Healthy skin and a shiny coat

Essential fatty acids such as omega 3 and 6 when used in combination with zinc provide healthy skin and a shiny coat.

### Chondroitin & Glucosamine

### DHA

Healthy skin and a well-balanced immune system

The anti-inflammatory properties of DHA help balance the immune system, resulting in healthier skin and better well-being for sensitive dogs.

### Chondroitin & Glucosamine

Protected and healthy joints

Chondroitin and glucosamine are chondroprotectors that can delay and reduce cartilage degradation, in addition to helping maintain healthy and well hydrated joints.

### Indoor Formula Yucca Extract & Zeolite

Less stool odor

Yucca schidigera actively reduces the odor of feces, while zeolite improves its consistency. Due to their high digestibility and correct balance of nutrients, an ideal fecal consistency is obtained which is perfect for dogs living indoors.

### Vitamin E & Selenium

Better health and longevity

Vitamin E and selenium are natural antioxidants that act against free radicals in the body, protecting cells and preventing degenerative processes, providing a healthier and longer life.

### Prebiotics & Special Fibers

Better intestinal health

The prebiotic used are mannan-oligosaccharides that bind to possible pathogens and allergens, removing them from the organism. Beet pulp, an excellent source of fibers, is used by the beneficial flora promoting its growth.

## PRODUCT INDICATION

Complete pet food for mini, small, medium, large and giant breed adult dogs.

## INGREDIENTS

Chicken by-product meal, meat meal, ground whole grain corn, corn gluten meal, dried beet pulp, dried algae, hydrolyzed chicken liver, chicken fat, hydrolyzed pork liver, methionine, salt, potassium chloride, citric acid, antioxidant (BHA and BHT), propionic acid, vitamins (A, D3, E, B1, B2, B6, B12, K3, nicotinic acid, folic acid, biotin, calcium pantothenate and choline chloride), zinc sulfate, calcium iodate, sodium selenite, copper sulfate, iron sulfate, manganese sulfate, zinc oxide, sodium hexametaphosphate, mannan-oligosaccharides, chondroitin sulfate, glucosamine sulfate, bentonite, zeolite and Yucca schidigera extract.

## GUARANTEED ANALYSIS

Moisture (max) 9%, Crude Protein (min) 25%, Crude Fat (min) 16%, Crude Fiber (max) 3%, Ash (max) 10%, Calcium (min) 0.8%, Phosphorus (min) 0.8%, Sodium (min) 3,000mg/kg, Omega-6 Fatty Acids (min) 18g/kg, Omega-3 Fatty Acids (min) 1,800mg/kg, DHA (Docosahexaenoic Acid, min) 400mg/kg, Metabolizable Energy 3,950kcal/kg.

### Sodium Hexametaphosphate

Oral hygiene - helps keep tartar under control

Sodium hexametaphosphate actively sticks to minerals that form tartar, preventing them from building up on teeth. Research has shown that the use of sodium hexametaphosphate in food reduced the formation of tartar by 50% to 80%.

### Omega 3 & 6 and DHA

Healthy skin, a shiny coat and a strong immune system

Fatty acids, such as DHA, improve the skin's health and increase the coat's shine, in addition to contributing to the body's natural defenses and cognitive development throughout the dog's life.

### Chondroitin & Glucosamine

Protected and healthy joints

Chondroitin and glucosamine are chondroprotectors that can delay and reduce cartilage degradation, in addition to helping maintain healthy and well hydrated joints.

### Yucca Extract & Zeolite

Less stool odor

Yucca schidigera actively reduces the odor of feces, while zeolite improves its consistency. Due to their high digestibility and correct balance of nutrients, an ideal fecal consistency is obtained.

### Vitamin E & Selenium

Better health and longevity

Vitamin E and selenium are natural antioxidants that act against free radicals in the body, protecting cells and preventing degenerative processes, providing a healthier and longer life.

### Prebiotics & Special Fibers

Better intestinal health

The prebiotic used are mannan-oligosaccharides that bind to possible pathogens and allergens, removing them from the organism. Beet pulp, an excellent source of fibers, is used by the beneficial flora promoting its growth.

### PRODUCT INDICATION

Complete food for small, medium and large breed adult dogs.

### INGREDIENTS

Chicken by-product meal, salmon meal, whole egg powder, ground whole sorghum, hydrolyzed chicken and pork liver, chicken fat, coconut meal, apple flour, linseed flour, dried beet pulp, dehydrated vegetables (carrots, pea, sweet potato, beet, parsley, pumpkin, celery and spinach), curcumin, autolyzed sugarcane yeast, dried algae, methionine, salt, potassium chloride, citric acid, propionic acid, vitamins (A, D3, E, B1, B2, B6, B12, K3, nicotinic acid, folic acid, biotin, calcium pantothenate and choline chloride), zinc sulfate, calcium iodate, sodium selenite, copper sulfate, iron sulfate, manganese sulfate, zinc oxide, natural antioxidant (tocopherol, rosemary extract and green tea extract), sodium hexametaphosphate, mannan-oligosaccharides, bentonite, zeolite, Yucca schidigera extract, chondroitin sulfate and glucosamine sulfate.

### GUARANTEED ANALYSIS

Moisture (max) 9%, Crude Protein (min) 24%, Crude Fat (min) 14%, Crude Fiber (max) 3.5%, Ash (max) 9.5%, Calcium (min) 0.8%, Phosphorus (min) 0.8%, Sodium (min) 3,000mg/kg, Omega-6 Fatty Acids (min) 15g/kg, Omega-3 Fatty Acids (min) 1,500mg/kg, DHA (Docosahexaenoic Acid, min) 400mg/kg, Metabolizable Energy 3,850kcal/kg.

#### Omega 3 & 6 and DHA

Healthy skin, a shiny coat and a strong immune system

Fatty acids, such as DHA, improve the skin's health and increase the coat's shine, in addition to contributing to the body's natural defenses and cognitive development throughout the dog's life.

#### Healthy gut, less odor and firmer stools

With added prebiotics, fibers, Yucca extract and zeolite

Enriched with prebiotics and fibers that promote intestinal health for better nutrient absorption. Also, the synergy of Yucca extract and zeolite improves fecal odor and consistency.

#### Proteins of high biological value

Maintenance of muscle structure

Selection of proteins with an excellent profile of amino acids, providing better use and helping to maintain muscle structure.

#### Natural antioxidants added

Curcumin, Vitamin E and Selenium

Curcumin is a potent antioxidant when used with vitamin E and selenium, this combination promotes the reduction of free radicals, increasing your dog's lifespan.

#### Low glycemic index ingredients

Regulation of glucose levels, more satiety

Made with a low glycemic index carbohydrate source, which regulates glucose levels in the bloodstream, as well as promoting more satiety over time.

#### Chondroitin & Glucosamine

Protected and healthy joints

Chondroitin and glucosamine are chondroprotectors that can delay and reduce cartilage degradation, in addition to helping maintain healthy and well hydrated joints.

## PRODUCT INDICATION

Complete food for adult cats of all breeds.

## INGREDIENTS

Chicken by-product meal, ground whole grain corn, soybean meal, corn gluten meal, chicken fat, hydrolyzed chicken liver, salt, potassium chloride, food colorant, citric acid, antioxidant (BHA and BHT), methionine, taurine, propionic acid, vitamins (A, D3, E, B1, B2, B6, B12, K3, nicotinic acid, folic acid, biotin, calcium pantothenate and choline chloride), iron sulfate, copper sulfate, manganese monoxide, zinc sulfate, calcium iodate, sodium selenite, manganese sulfate, zinc oxide, sodium bisulfate, ammonium chloride, sodium hexametaphosphate, mannan-oligosaccharides, bentonite, zeolite and Yucca schidigera extract.

\*Finotrato Cat Fish: Fishmeal

## GUARANTEED ANALYSIS

Moisture (max) 9%, Crude Protein (min) 30%, Crude Fat (min) 12%, Crude Fiber (max) 3%, Ash (max) 8.5%, Calcium (min) 0.8%, Phosphorus (min) 0.8%, Sodium (min) 2,500mg/kg, Potassium (min) 6,000mg/kg, Magnesium (max) 600mg/kg, Taurine (min) 1,000mg/kg, Methionine (min) 6,200mg/kg, Omega-6 Fatty Acids (min) 15g/kg, Omega-3 Fatty Acids (min) 1,000mg/kg, Metabolizable Energy 3,900kcal/kg.

### Sodium Hexametaphosphate

Oral hygiene - helps keep tartar under control

Sodium hexametaphosphate actively sticks to minerals that form tartar, preventing them from building up on teeth. Research has shown that the use of sodium hexametaphosphate in food reduced the formation of tartar by 50% to 80%.

### Omega 3 & 6 + Zinc

Healthy skin and a shiny coat

Essential fatty acids such as omega 3 and 6 when used in combination with zinc provide healthy skin and a shiny coat.

### Prebiotics - MOS & GOS

Better intestinal health

The prebiotic action is performed by mannan-oligosaccharides that bind to possible pathogens and allergens, carrying them out of the organism. The action is also performed by the galacto-oligosaccharides from soybean that are used by the beneficial intestinal flora, promoting its growth, thus resulting in better intestinal health.

#### Indoor Formula

### Yucca Extract & Zeolite

Less stool odor

Yucca schidigera actively reduces the odor of feces, while zeolite improves its consistency. Due to their high digestibility and correct balance of nutrients, an ideal fecal consistency is obtained, which is perfect for cats living indoors.

### Taurine & Methionine

Beneficial for the heart, eyesight, muscles and coat

Taurine is an essential amino acid for felines that works to strengthen the heart and eyesight. Methionine is required for several biological processes, including the synthesis of hormones, the body's antioxidant processes and muscle formation, further enhancing the animal's lifespan.

### Control of urinary pH

Helps in maintaining urinary tract health

It has been modified to have the correct balance of minerals and acidifying properties in order to maintain the ideal urinary pH, which is important to prevent the formation of uroliths in the urinary tract. Thus, maintaining the health of your cat's urinary tract.

#### Balanced formula

More protein, minerals and vitamins

With less fat and through proper food management, it is ensured the lowest calorie consumption. Additionally, the food must have adequate amounts of amino acids, minerals and vitamins. Thus, providing for all your cat's nutritional needs.

#### Taurine & Methionine

Beneficial for the heart, eyesight, muscles and coat

Taurine is an essential amino acid for felines that works to strengthen the heart and eyesight. Methionine is required for several biological processes, including the synthesis of hormones, the body's antioxidant processes and muscle formation, further enhancing the animal's lifespan.

#### L-Carnitine

Helps burn fat

L-Carnitine is an important amino acid for energy production in the body, it is responsible for ensuring the transport of fatty acids into the cells and transforming them into energy needed for daily life, when supplemented, energy levels are increased and consequently fat is burned.

#### Omega 3 & 6 + Zinc

Healthy skin and a shiny coat

Essential fatty acids such as omega 3 and 6 when used in combination with zinc provide healthy skin and a shiny coat.

#### Sodium Hexametaphosphate

Oral hygiene - helps keep tartar under control

#### Sodium Hexametaphosphate

Oral hygiene - helps keep tartar under control

Sodium hexametaphosphate actively sticks to minerals that form tartar, preventing them from building up on teeth. Research has shown that the use of sodium hexametaphosphate in food reduced the formation of tartar by 50% to 80%.

#### Omega 3 & 6 + Zinc

Healthy skin and a shiny coat

Essential fatty acids such as omega 3 and 6 when used in combination with zinc provide healthy skin and a shiny coat.

#### Taurine & Methionine

Beneficial for the heart, eyesight, muscles and coat

Taurine is an essential amino acid for felines that works to strengthen the heart and eyesight. Methionine is required for several biological processes, including the synthesis of hormones, the body's antioxidant processes and muscle formation, further enhancing the animal's lifespan.

#### Indoor Formula Yucca Extract & Zeolite

Less stool odor

Yucca schidigera actively reduces the odor of feces, while zeolite improves its consistency. Due to their high digestibility and correct balance of nutrients, an ideal fecal consistency is obtained, which is perfect for cats living indoors.

#### Control of urinary pH

Helps in maintaining urinary tract health

It has been modified to have the correct balance of minerals and acidifying properties in order to maintain the ideal urinary pH, which is important to prevent the formation of uroliths in the urinary tract. Thus, maintaining the health of your cat's urinary tract.

#### Prebiotics - MOS & GOS

Better intestinal health

The prebiotic action is performed by mannan-oligosaccharides that bind to possible pathogens and allergens, carrying them out of the organism. The action is also performed by the galacto-oligosaccharides from soybean that are used by the beneficial intestinal flora, promoting its growth, thus resulting in better intestinal health.

### PRODUCT INDICATION

Complete food for all breed neutered cats.

### INGREDIENTS

Salmon meal, chicken by-product meal, ground whole grain corn, soybean meal, corn gluten meal, autolysed sugarcane yeast, hydrolyzed chicken liver, chicken fat, salt, potassium chloride, citric acid, antioxidant (BHA and BHT), methionine, taurine, L-Carnitine, propionic acid, vitamins (A, D3, E, B1, B2, B6, B12, K3, nicotinic acid, folic acid, biotin, calcium pantothenate and choline chloride), iron sulfate, copper sulfate, zinc sulfate, calcium iodate, sodium selenite, manganese sulfate, zinc oxide, sodium bisulfate, ammonium chloride, sodium hexametaphosphate, mannan-oligosaccharides, bentonite, zeolite and Yucca schidigera extract.

### GUARANTEED ANALYSIS

Moisture (max) 9%, Crude Protein (min) 34%, Crude Fat (min) 10%, Crude Fiber (max) 3%, Ash (max) 8.5%, Calcium (min) 0.8%, Phosphorus (min) 0.8%, Sodium (min) 2,500mg/kg, Potassium (min) 6,000mg/kg, Magnesium (max) 600mg/kg, Taurine (min) 1,000mg/kg, Methionine (min) 6,200mg/kg, L-Carnitine (min) 200mg/kg, Omega-6 Fatty Acids (min) 15g/kg, Omega-3 Fatty Acids (min) 1,000mg/kg, Metabolizable Energy 3,800kcal/kg.

#### Balanced formula

More protein, minerals and vitamins

With less fat and through proper food management, it is ensured the lowest calorie consumption. Additionally, the food must have adequate amounts of amino acids, minerals and vitamins. Thus, providing for all your cat's nutritional needs.

#### Taurine & Methionine

Beneficial for the heart, eyesight, muscles and coat

Taurine is an essential amino acid for felines that works to strengthen the heart and eyesight. Methionine is required for several biological processes, including the synthesis of hormones, the body's antioxidant processes and muscle formation, further enhancing the animal's lifespan.

#### L-Carnitine

Helps burn fat

L-Carnitine is an important amino acid for energy production in the body, it is responsible for ensuring the transport of fatty acids into the cells and transforming them into energy needed for daily life, when supplemented, energy levels are increased and consequently fat is burned.

#### Omega 3 & 6 + Zinc

Healthy skin and a shiny coat

Essential fatty acids such as omega 3 and 6 when used in combination with zinc provide healthy skin and a shiny coat.

#### Sodium Hexametaphosphate

Oral hygiene - helps keep tartar under control

Sodium hexametaphosphate actively sticks to minerals that form tartar, preventing them from building up on teeth. Research has shown that the use of sodium hexametaphosphate in food reduced the formation of tartar by 50% to 80%.

Indoor Formula

#### Yucca Extract & Zeolite

## PRODUCT INDICATION

Complete food for adult cats of all breeds.

## INGREDIENTS

Chicken by-product meal, ground whole grain corn, corn gluten meal, autolyzed sugarcane yeast, dried beet pulp, cellulose, dried algae, hydrolyzed chicken liver, chicken fat, salt, potassium chloride, citric acid, antioxidant (BHA and BHT), methionine, taurine, propionic acid, vitamins (A, D3, E, B1, B2, B6, B12, K3, nicotinic acid, folic acid, biotin, calcium pantothenate and choline chloride), iron sulfate, copper sulfate, manganese monoxide, zinc sulfate, calcium iodate, sodium selenite, manganese sulfate, zinc oxide, sodium bisulfate, ammonium chloride, sodium hexametaphosphate, mannan-oligosaccharides, bentonite, zeolite and Yucca schidigera extract.

## GUARANTEED ANALYSIS

Moisture (max) 9%, Crude Protein (min) 33%, Crude Fat (min) 17%, Crude Fiber (max) 4%, Ash (max) 8.5%, Calcium (min) 0.8%, Phosphorus (min) 0.8%, Sodium (min) 2,500mg/kg, Potassium (min) 6,000mg/kg, Magnesium (max) 600mg/kg, Taurine (min) 1,500mg/kg, Methionine (min) 6,200mg/kg, Omega-6 Fatty Acids (min) 18g/kg, Omega-3 Fatty Acids (min) 1,600mg/kg, DHA (Docosahexaenoic Acid, min) 600mg/kg, Metabolizable Energy 4,050kcal/kg.

### Sodium Hexametaphosphate

Oral hygiene - helps keep tartar under control

Sodium hexametaphosphate actively sticks to minerals that form tartar, preventing them from building up on teeth. Research has shown that the use of sodium hexametaphosphate in food reduced the formation of tartar by 50% to 80%.

### Hairball management

Reduce the buildup of hair in the digestive tract

Its special formula contains fibers that naturally stimulate the intestinal tract, causing the ingested hair to be eliminated via the stool, reducing the formation of and subsequent regurgitation of hairballs.

### Indoor Formula Yucca Extract & Zeolite

Less stool odor

Yucca schidigera actively reduces the odor of feces, while zeolite improves its consistency. Due to their high digestibility and correct balance of nutrients, an ideal fecal consistency is obtained, which is perfect for cats living indoors.

### Control of urinary pH

Helps in maintaining urinary tract health

It has been modified to have the correct balance of minerals and acidifying properties in order to maintain the ideal urinary pH, which is important to prevent the formation of uroliths in the urinary tract. Thus, maintaining the health of your cat's urinary tract.

### Omega 3 & 6 and DHA

Healthy skin, a shiny coat and a strong immune system

Fatty acids, such as DHA, improve the skin's health and increase the coat's shine, in addition to contributing to the body's natural defenses and cognitive development throughout the cat's life.

### Prebiotics & Special Fibers

Better intestinal health

The prebiotic used are mannan-oligosaccharides that bind to possible pathogens and allergens, removing them from the organism. Beet pulp, an excellent source of fibers, is used by the beneficial flora promoting its growth.

## BIO-LITTER

The Ultra-Premium Finotrato Bio-Litter has been created to provide the best for your cat, as well as contributing to the preservation of the environment. Its ingredients are 100% biodegradable as are packaging of 2kg, 4kg and 25kg, and without causing any harm to the environment, decomposing itself faster compared to granules of mineral origin, such as clay and silica. In addition, by discarding the product in the toilet, you will not need to use plastic bags, further decreasing the product carbon footprint.

### INGREDIENTS

Processed vegetable products and Yucca extract.

### SPECIFICATIONS

Finotrato Bio-Litter is an Ultra-Premium biodegradable sanitary granule for cats. It is efficient and it has high absorption and practicality because it forms stronger clumps that are easy to be removed. It can be directly disposed off in the toilet because it is plant based. It also provides natural urine odor control in the environment.

As it is a 100% vegetable product, when placing it on the tray some animals may consume it in small quantities. However this occasional consumption does not pose any risk to the animal's health. To reduce the chance of this occurring, when using the product for the first time, make the change gradually.

### USAGE INSTRUCTIONS

1 - Place a 5 cm layer of the product in a deep litter box.

2 - After using the litter box, the sanitary granules will act by absorbing the moisture as well as urine and feces odors, forming clumps.

3 - You can scoop out the clumps. The more granules on the tray, the easier the removal will be, preventing the urine from reaching the bottom of the litter box.

4 - You can flush them directly in the toilet or you can throw them away in the garbage bin.

5 - Wash the litter periodically.

Pay attention: If you are not currently using this product, start the transition with 2 cm of Finotrato Bio-Litter at the bottom of the litter box and cover it with the previous cat litter. In the following week, increase to 4 cm and decrease the quantity of the previous cat litter. Do it gradually until your cat adapts to the new product.

#### MINIMIZES URINE AND STOOL ODORS

It contains Yucca extract in its composition, which actively reduces the smell of urine and feces.

#### HYGIENIC AND PRACTICAL

It forms easy-to-remove clumps, facilitating proper litter box hygiene.

#### HYPOALLERGENIC: SAFE AND NONTOXIC

Finotrato Bio-Litter does not contain fragrances and dyes in its composition.

#### HIGH ABSORPTION AND EFFICIENT

Its thin granules, of low density and high technology, guarantee maximum absorption.

# Ultra Premium

## CAT LITTER

2kg, 4kg, 10kg and 25kg

SUSTAINABLE PRODUCT

100%

BIODEGRADABLE

Its ingredients are 100% biodegradable, as are the 2kg, 4kg and 25kg packages. As it is made up of vegetable ingredients from renewable sources, Finotrato Bio-Litter sanitary granules can be safely disposed of in the toilet or in the common trash.
