

PRELIMINARY AGENDA

Day 1: Saturday, September 5th

Opening Remarks

Speaker

Facial Rejuvenation

How to approach the face and neck - Moderators: Rod Rohrich, Jennifer Walden

Demystifying the deep plane facelift	Rod Rohrich
Endoscopic deep-plane facelift / necklift - The "Scarless Lift"	Mark Mani
Endoscopic preperiosteal midface lift	Zekeriya Kul
Endoscopic brow lift	John Anastasatos
Identifying the Anatomic Basis of Neck Problems and Choosing Appropriate Strategies of Treatment	Tim Marten
Facelift surgery outcomes: Technique or surgeon dependent?	Vakis Kontoes
Panel Discussion	

Coffee Break

Video highlight - Facelift: Planning and Technique; (Moderator: Rod Rohrich)

Tim Marten

Adjunct Procedures - Moderators: Bob Basu, Jennifer Walden

Sculpting the face: The combination of deep plane face lifting & emerging biotechnology with Milli, Micro & Nano fat	Aris Sterodimas
Lip lift: Why and How?	Tim Marten
The refined 5-step upper eyelid surgery and the new refined 5-step lower eyelid surgery	Rod Rohrich
Synergy in rhinoplasty and comprehensive facial rejuvenation	Ashkan Ghavami
Algorithmic approach to management of permanent fillers and damaged SMAS	Samir Ghoraba
Panel Discussion	

Rhinoplasty

Structural vs Preservation - Moderators: Erhan Coşkun, Ash Ghavami

The 5 Favorable Preservation Rhinoplasty Indications	Rod Rohrich
Preservation rhinoplasty - hybrid approach	Ash Ghavami
Why rhinoplasty fails - The role of rib grafts and dead space closure	Rod Rohrich
Dorsal Y preservation with low septal strip	Erhan Coşkun
Video - Preservation Rhinoplasty	Rod Rohrich
Panel Discussion	

Lunch Break

Body Contouring

Excisional Moderators: Kye Higdon

Modern Lower Body Lift: Evolving Techniques for Optimal Contour and Safety	Babis Rammos
Extended abdominoplasty: What happens with the waist circumference?	Vagelis Keramidas
Massive weight loss for men: How to approach it?	Doug Steinbrech
Anatomy Guided Arm Lift and Thigh Lift: Balancing Form, Tension and Scar Placement	Babis Rammos
Panel Discussion	

Coffee Break

Non-excisional - Moderators: Ash Ghavami, Sotiris Foutsizoglou

Safe body /gluteal contouring, smooth, high definition, concepts	Ash Ghavami
Lipo 400: Redefining Circumferential Body Contouring	Andre Marshall
Male contouring	Doug Steinbrech
Rib contouring	Andre Marshall
Panel Discussion	
Video highlight - Comprehensive high definition liposuction and fat grafting (Moderator: Ash Ghavami)	Ahmad Saad

End of Day 1

Day 2: Sunday, September 6

Aesthetic Breast

Primary breast augmentation - Moderators: Brad Calobrace; Nolan Karp

TESMA — The True Extended SubMuscular Augmentation Technique: A 25-Year Review	Vassilis Stamatiou
Why I prefer sub fascial coverage	Tracy Pfeifer
Primary breast augmentation: A 40-year experience	David Hidalgo
Panel Discussion	

Pocket control

How I handle pocket control with advanced smooth implants	Demetris Stavrou
When do I use pocket control mesh in primary breast augmentation	Mindy Haws
Revision breast augmentation and pocket control	Steve Sigalove
Secondary breast augmentation	David Hidalgo
Panel Discussion	

Coffee Break

Video highlight - Revision Aesthetic breast surgery with smoothsilk surface implants, pocket exchange and placement of soft tissue support (Moderator: Nolan Karp)	Brad Calobrace
Approach to ptotic breast - Moderators: Tracy Pfeifer, Mindy Haws	
20-year experience of augmentation mastopexy	Emmanuel Daskalakis
Achieving Predictable Outcomes in the Post Weight Loss "Ozempic Breast"	Bob Basu
My approach to the augmentation mastopexy patient	Brad Calobrace
Breast support in augmentation mastopexy	Steve Sigalove
Panel Discussion	

Aesthetic Keynote Speaker - Innovations in Plastic Surgery of the Breast: My Half Century Journey

Pat Maxwell

Lunch Break

Reconstructive Keynote Speaker - Innovation and Collaboration in Plastic Surgery

Peter Neligan

Breast reconstruction

Alloplastic

A changing paradigm: Prospective comparison of PROMs and clinical effectiveness in prepectoral vs. subpectoral implant breast reconstruction	Justin Broyles
Advances in oncoplastic breast reconstruction	Albert Losken
Treatment of the radiated breast	Joe Disa
Higher standards: Direct to implant nipple sparing reconstruction in the ptotic breast	Danielle Leblanc

Implant-based breast reconstruction unwrapped	Josh Vorstenbosch
The use of mesh in implant-based breast reconstruction	Nolan Karp
Optimizing sensory recovery after implant-based breast reconstruction	Anne Peled
Sensory restoration in the modern ear. Implementing TNR in oncologic and affirming surgery	Joe Kjouri
Q&A	

Coffee Break

Autologous

Alternative free flaps for breast reconstruction-Thigh based flaps	Rene Largo vs. Carrie Chu
Utilization of the PAP flap for autologous breast reconstruction	Rene Largo
TUGs, DUGs or BUGs? The role of gracilis-based flaps in modern autologous breast reconstruction	Carrie Chu
Alternative free flaps for breast reconstruction-Lower back based flaps	Greenspun vs. Tae Chong
Love handles reclaimed: Lumbar artery perforator flaps in breast reconstruction	David Greenspun
Can you handle this? SGAP for breast reconstruction	Tae Chong
Microsurgical breast reconstruction and sensaion: An update	Arash Momeni
Robotic-assisted DIEP flaps: Early experienceat MSKCC	Robert Allen Jr.
Role of the Fat Augmented Latissimus Dorsi flap as an alternative for pure autologous breast reconstruction	Efterpi Demiri
Autologous tissue reconstruction in high BMI versus low BMI patients	Angela Cheng vs. Dave Mathes
Autologous tissue reconstruction in high BMI patients	Angela Cheng
Autologous tissue reconstruction in low BMI patients	David Mathes
Q&A	

Student/Resident Workshop

End of Day 2

Day 3: Monday, September 7th

Upper Extremity Reconstruction

Emergency free flaps to salvage the mangled hand	Kyle Eberlin
Combining tendon procedures and hyperselective neurectomies to treat the spastic arm	Austin Hembd
Multi-stage reconstruction of the mangled upper extremity. Lessons learned	Bauback Safa
Case presentations/discussion	Greyson, Pedro Cavadas
Q&A	

Lower Extremity Reconstruction

Strategies to manage difficult recipient vessels	Pedro Cavadas
Lower extremity nerve transfers	Sami Tufaha
Advances in lower extremity amputation care	Jason Souza
Case presentations/discussion	Kurlander, Beederman, KP
Q&A	

Coffee Break

Peripheral Nerve

Modern approaches in migraine surgery	Ziv Peled
RPNs vs. TMR in extremity amputation	Paul Cederna vs. Petros Konofaos
Surgical treatment of painful neuroma	Ivica Ducic
The latest in nerve transfers	Christine Radtke
Q&A	

Gender Affirming Surgery

Beyond Routine Vaginoplasty: Managing Anatomical and Clinical Variability	RB Langer
Structure, design and identity in facial feminization surgery	Justine Lee
Complex complications after phalloplasty: Surgical strategies for salvage versus total redo	Devin Coon
Q&A	

Lunch Break

Head and Neck Reconstruction

Head and neck war injury reconstruction	Amir Ibrahim
Microvascular reconstruction of the mandible	Peter Cordeiro
Advances in corneal neurotization	Greg Borschel
Restoring felling: The next frontier in head and neck reconstruction	Patrick Garvey
Single stage facial reanimation in early and late paralysis	Andrea Gravvanis
Q&A	

Innovations in Plastic Surgery

Innovation and Entrepreneurship updates from ASPS MTI program	Howie Levinson
AI in surgery	Sashank Reddy
Working outside the box-Medical Innovation	Ted Kung
Electrospinning and autologous cells for burn reconstruction	Josef Haik
Newer Nonopioid Pain Medication: A Brand New Classification	Samuel Lin

Coffee Break

Trunk Reconstruction

Abdominal wall reconstruction with innervated latissimus dorsi muscle flap	John Suck
Chest wall reconstruction. What is the latest?	Detlev Erdmann
Perineal reconstruction: Humans against The Machine	Alana Rebecca vs. Richard Baynosa
Cover your back: Advances in spinoplastic reconstruction	Sebastian Winocour
Modern surgical approaches in genitourethral reconstruction	Jamie Levine
Q&A	

Lymphedema

Immediate lymphatic reconstruction	Babak Mehrara
Vascularized lymph node transfer for treatment of lymphedema	Gema Pons
Ultra-high frequency ultrasound in lymphatic surgery: seeing is believing	Ara Salibian
No one-size fits-all: Mastering the full spectrum of lymphedema surgery	Christoph Hirsche
Buried dermal flap after axillary lymph node dissection: digging deeper into axillary lymph node dissection	Al Hasannein
Algorithm in primary lymphedema treatment	Dimitris Dionysiou
Q&A	

Closing Remarks

End of Conference
