

SANIPEXGROUP

TILES & SLABS FABRICATION

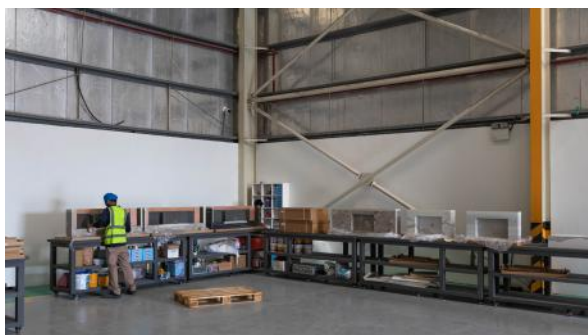

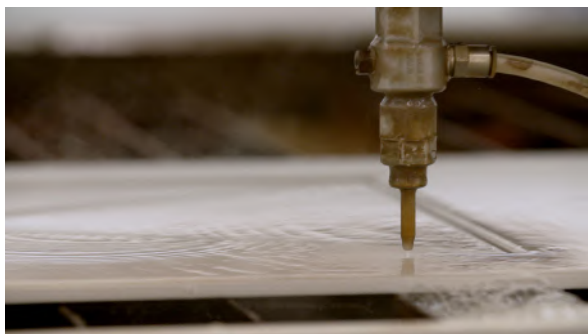

Our new Slab Fabrication Facility contains state of the art equipment including three, 5 Axis water jet cutting machines, a skirting and profiling machine and several multi-blade cutting devices.

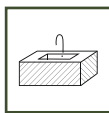

Additionally, it houses a full-service technical laboratory, installation workshop, research & development center for bathrooms and a dedicated customer showroom for manufactured slab products. Without a doubt, it is a unique facility in the market and takes the company's capabilities and potential future opportunities to an exciting new level.

The facility will allow SANIPEX GROUP to accelerate the development of its slab product portfolio, offering new finishes, product types, categories and styles along with the ability to design and engineer customized solutions. In addition, SANIPEX will be able to offer a variety of value-added cutting services for tiles such as skirting, grooving, profiling and resizing.
