Dinnerware | Takeaway Packaging | Cutlery | Drink & Dessert Cup

FOUNDED
IN 2010, WE
HAVE 15+
YEARS OF
MANUFACTURING
EXPERIENCE.

Sustainability is embedded in every step. Our products are made from annually renewable, often agricultural by-product materials, ensuring zero reliance on virgin forests. Fully certified to FSC, BRC, and OK Compost standards, every plate, bowl, and container decomposes naturally back into the earth, closing the loop on a truly circular life cycle. We don't just make tableware - we build a greener future for global dining.

Bio-Plastic PLA CUPS

Bio-based / Industrial compostable / For cold drinks

Plant-based and industrially compostable, PLA cups offer crystal clarity with a carbon footprint 60–70% lower than traditional PET. Designed for cold drinks ($\leq 40^{\circ}\text{C}$), they are ideal for iced coffee, smoothies, and bubble tea.

Customizable lids available: recycled plastic or compostable molded pulp.

PCR fiber | PE-free aqueous barrier | Repulpable | Customizable

Recycled Coating **PAPER CUPS**

Made from PCR paperboard with a PE-free aqueous barrier. Available in single-wall or double-wall. Supports full-surface custom printing (flexo/offset, up to 6 colors, food-safe inks). Designed for hot drinks (85–100 °C) and repulpable for fiber recovery.

Custom lids: PET or compostable pulp.

White Paper Cups-Sinngle or Double Wall Available.

Plant- based lining, certified industrially compostable (AS4736/EN13432).

BAMBOO PAPER CUPS-SINGLE WALL

Renewable bamboo fiber, plant- based lining, industrially compostable.

RIPPLE PAPER CUPS

Corrugated insulation, plant- based lining, industrially compostable

CRECYCLED PAPER CUPS&STRAWS

The Better Choice

- ◆ **No Sogginess, Lasts Longer:** Durable for over 3 hours, no mushy mess.
- ◆ **Comfortable Mouthfeel:** Flexible & smooth for every sip.
- ◆ **All Drinks Friendly:** Works for hot & cold beverages, zero glue.
- ◆ **Greener & Leaner:** Uses 20-30% less paper than standard straws.
- ◆ **Truly Recyclable:** Closes the loop with zero waste (unlike regular paper straws).

MVI'S TERMS & CONDITIONS

Sustainable tableware made from renewable materials, with OEM/ODM support and global logistics. Your partner for green dining solutions.

Order Minimums

- MOQ is determined on a per-product basis, tailored to the specific item, production process, and order configuration.

Order Processing

- All confirmed orders are processed within 24 hours of receipt, with a formal order confirmation issued for your records.

Delivery Terms

- We offer flexible delivery solutions, including DDP (Delivered Duty Paid) for key markets, to simplify your supply chain logistics.

Order Acceptance

- A purchase proposal is only considered binding once it has been confirmed in writing by mviecopack. No verbal agreements will be recognized.

Retention of Title

- All goods remain the property of mviecopack until full payment of the invoice has been received and cleared.

Product Tolerances

- The following industry-standard tolerances apply to all orders:
 - a. Quantity: $\pm 10\%$ on ordered volumes
 - b. Physical specifications (weight, dimensions, grammage): $\pm 5\%$ tolerance

Force Majeure

- Mviecopack is not liable for delays or failures to fulfill orders due to events beyond our reasonable control, including but not limited to strikes, lockouts, wars, natural disasters, power outages, and supply chain disruptions.

Claims & Defects

- Any quantity discrepancy must be reported within 14 days of goods arrival. In addition, MVIECOPACK shall bear full liability and supply replacement items as compensation for any manufacturing defects identified during your downstream retail operations.
