PRODUCT KEY

New 28" and 18" Holographic and Max Float balloons now made with 40% recycled material!

The highest quality latex balloons available in over 89 vibrant colors, 14 sizes, and 8 textures.

FEATURE CALLOUTS

High strength film that floats 4 times longer than traditional mylar.

Holographic film produces colorful balloons that shift with light to create a striking, iridescent effect. Available in three unique holographic styles.

Vibrant non-foil balloons with a brilliant shine, available in 21" rounds/hearts and a variety of unique shapes. High-altitude friendly and completely non-conductive.

The advantages of Mighty Bright® coupled with a crystal clear finish.

Two pre-attached balloons, each with its own inflation point, come together to form one big, eye-catching display. For many styles the bottom balloon can be air-filled, reducing helium use.

Our satin film finish offers a smooth, soft sheen for an elegant high-end look.

14" heat-sealed air-filled foil shapes.

An air-filled balloon with a built-in base. Self-sealing, refillable, and perfect for quick, hassle-free centerpieces and displays.

MAKE A **positive** IMPACT

At Betallic, we are dedicated to constant innovation. Whether it be original designs, captivating shapes, or new trends and colors, our goal is to lead the balloon industry into the future.

With that in mind, Betallic's 28" and 18" MAX Float and holographic foil balloons are now made with 40% recycled materials.

This represents a giant leap forward for our company, customers and industry.

Betallic is thrilled to significantly reduce the environmental impact of our balloons without sacrificing quality or float time. We invite you to join us as we make a positive impact on our industry to create a more sustainable future.
