PP RAIN PROTECTION

BENEFITS

- Yield Improvement; Fruit not damaged or swollen from rain
- Can be re-used season to season
- UV Protection, Warranted for 5 years

STANDARD FEATURES

- 3.1 oz/yd² weights available in all widths
- 10' and 12' widths
- 500 Linear Yard Put-up

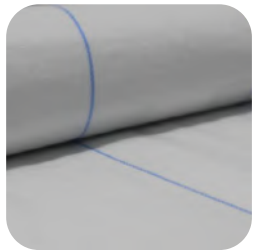

FROST PROTECTION

White woven polypropylene allows plants to breathe while protecting them from overnight temperature drops.

Keeps frost and snow away from plants, while allowing light, air, and water to pass through.

Durable enough for multiple season use and protect plants from insects.

Light enough that plants aren't damaged when covered.
