GET TO KNOW:
TURKS & CAICOS

ABOUT THE ISLANDS AND CAYS

The Turks and Caicos consists of 40 different islands and cays, only 9 of which are inhabited. The islands of the Turks and Caicos are almost as diverse as its people.

From the main tourist center of Providenciales to the quiet and tranquil islands of North and Middle Caicos to the historic Capital of Grand Turk; each one offers a different experience and a unique character but all offer year-round great climate, incredible beaches, and underwater activities.

The only true way to experience the Turks and Caicos Islands is to experience each island in the entire chain. This is probably why most of the visitors come back to the Turks and Caicos on a regular basis.
