WHITE PAPER

2022

V.02C 1230

LEGAL DISCLAIMER

Nothing in this White Paper is an offer to sell, or the solicitation of an offer to buy, any tokens. ArchieNeko is publishing this White Paper solely to receive feedback and comments from the public. If and when ArchieNeko offers for sale any tokens (or a Simple Agreement for Future Tokens), it will do so through definitive offering documents, including a disclosure document and risk factors. Those definitive documents also are expected to include an updated version of this White Paper, which may differ significantly from the current version. Nothing in this White Paper should be treated or read as a guarantee or promise of how ArchieNeko's business or the tokens will develop or of the utility or value of the tokens. This White Paper outlines current plans, which could change at its discretion, and the success of which will depend on many factors outside ArchieNeko's control, including market-based factors and factors within the data and cryptocurrency industries, among others. Any statements about future events are based solely on ArchieNeko's analysis of the issues described in this White Paper. That analysis may prove to be incorrect.

TABLE of CONTENTS

History

When we launched the original Archie Token on ERC20, our goal was to look after our holders as best we could. But with the volatility in the crypto market, we were unable to achieve this, and our chart has suffered.
We decided as a community to follow our original road map and launch our own layer 1 POS blockchain. This will not only mean we will be independent, but it will also help in supporting our upcoming metaverse (ArchieMeta).

Our aim is to step away from the current crypto ideology of making profit from holders' investments and move towards a revenue-based system. The way it stands at the moment holders can be hurt financially by hype, pump and dumps or whales.

The demand for services provided in Archie Metaverse will drive the value of Archie coin independent of the crypto market.

Naturally the question of what happens to the existing holders has come up a few times.

Our new layer 1 blockchain will have near-zero fees, low tokenomics and better use cases. Our current holders of Archie token ERC20, will be the first to migrate over to the new token on our very own blockchain. There will be absolutely no out of pocket cost to any of our holders during this transition. We will take a screenshot from etherscan on a set date and stop the trading of that token. We will then air drop their new token into their wallet at a dollar-for-dollar value, holders will not suffer financially during this transition.

4

Why invest in Archie Coin?

The story of Archie is real, the story of a cute, friendly, and fiercely loyal kitty. Our vision for Archie is to generate wealth for a decentralized community in a safe and secure environment, leveraging Defi protocols and to impact the globe for good, thereby cherishing the memory of our beloved Archie.

As I stated on the previous pages that our good intention was there but, the market conditions and decision to stay in defi market along with supporting and protecting private investors caused us to make some unfavorable decisions.

On our New Archie Coin ($ARC) in ARC Chain, we are just about trying to do the opposite.

YES

- ✓ Liquidity USDT
- ✓ KYC
- ✓ Audited
- ✓ Liquidity Locked
- ✓ Devs Wallet Locked
- ✓ Exchanges Listings
- ✓ Many Utilities
- ✓ 10 Billion Max Supply

arccoin (ARC)™

5

arccoin (ARC)™

STABLE COIN OF ARCHIE CHAIN

arccoin (ARC)™

STABLE COIN OF ARCHIE CHAIN

warcCOIN (WARC)™

In addition to the $WARC coin, ArchieChain introduces a native cryptocurrency - ArcCoin($ARC). This community-focused token serves as a primary governance token for the ArchieChain blockchain and comes with various use cases. It's worth noting that the entirety of the $ARC coins supply will be pre-mined upon the release of the main net. $ARC is used for fueling transactions, smart contracts, and dApps.

Total Supply: 10,000,000,000. (10 Billion)

7

ArcCoin($ARC) Design

1

Users can lock their ArcCoin($ARC) on the cross-chain protocol to receive $WARC on the ArchieChain blockchain

2

Users can use $WARC to deploy and interact with smart contracts, pay transaction fees, and participate in the governance of ArchieChain

3

Users can destroy $WARC and reclaim their native ArcCoin($ARC).

8

Benefits of
Archie Coin

- ✓ Near-Zero Fees
- ✓ Low Supply 10 Bill
- ✓ Staking Options
- ✓ Liquidity against USDT

- ✓ Will be Deployed on Multi-Chain ($WARC)
- ✓ Major Exchange Listings Q2 & 3 2023
- ✓ NFT Marketplace Native Coin Q3 2023
- ✓ Dev/Team Coins Delivered on schedule Only

- ✓ Native Token of ARC Chain
- ✓ Used as Gas on ARC
- ✓ To deploy Other Tokens
- ✓ Coin of ArchieMeta

arccoin (ARC)

9

Benefits of
Archie Coin

✓ Near-Zero Fees

ArchieChain (ARC) is a decentralized public blockchain that has high performance and EVM compatibilities.

Native coin of ArchieChain (ARC) will be $ARC , which will be pooled against USDT for stability. Wrapped $ARC will be known as $WARC.

Main Features of being on Archie Chain are:

✓ Decentralized Governance

✓ Near-Zero Gas fee

✓ POS – Green Technology

✓ EVM Compatible

✓ Fast Block Time

✓ Cross-Chain Compatibility

✓ Better awareness in the market since we share the "ARCHIE" name

And many more…

10

Benefits of
Archie Coin

✓ Low Supply 10 Bill

✓ Staking Options

ARC Coin ($ARC) will have a maximum supply of 10,000,000,000 (10 Billion) Minted prior to launch. That will be the maximum supply for ARC Coin.

The ArchieChain project will enable users to earn yields:

The management of the validator along with their selection, reward distribution, and staking are all performed by the smart contracts of the protocol. These contracts are deployed in the genesis block. In ArchieChain, there is only one type of smart contract.

Staking $ARC tokens on the ArchieChain blockchain will allow stakeholders to secure the native blockchain and receive $ARC rewards from transaction fees.

11

Benefits of
Archie Coin

✓ Liquidity against USDT

✓ Will be Deployed on Multi-Chain ($WARC)

It is very important to use the right pair of pool when we create our liquidity to benefit our holders' long term. We have decided to pair against USDT.

ARC Coin ($ARC) will have a maximum supply of 10,000,000,000 (10 Billion) Minted prior to launch. That will be the maximum supply for ARC Coin. We needed to accommodate the need of our holders on other chains, and we will have a wrapped ARC ($WARC) available. Users can lock their **ArcCoin(ARC)** on the cross-chain protocol to receive **$WARC** on the **ArchieChain** blockchain.

12

Benefits of
Archie Coin

✓ Major Exchange Listings Q2 & 3 2023

We have planned to use many exchanges to avail our coin to holders internationally. Our plan is to start listing them in minor exchanges and work our way to major exchanges as our volume picks up

✓ NFT Marketplace Native Coin Q3 2023

ArchiePlace, a fully functional market place to accommodate the need of our holders, will be launched on ARC Chain in Phase 3 (Q2 2023). ArchiePlace will be using $ARC as the native currency.

13

Benefits of
Archie Coin

✓ Dev/Team Coins Delivered on schedule Only

There are coins set aside for Team Members and Developer, and they will be delivered to them on a scheduled time only. They will never receive all coins at the same time but, on a pre-set timely fashion only. This is to prevent them from dumping their fair share of coins on holders and affect the chart.

Benefits of
Archie Coin

✓ Native Token of ARC Chain

In addition to the $WARC coin, ArchieChain introduces a native cryptocurrency - ArcCoin($ARC). This community-focused token serves as a primary governance token for the ArchieChain blockchain and comes with various use cases. It's worth noting that the entirety of the $ARC coins supply will be pre-mined upon the release of the main net. $ARC is used for fueling transactions, smart contracts, and dApps.

✓ Used as Gas on ARC

✓ To deploy Other Tokens
15

Benefits of
Archie Coin

✓ Coin of ArchieMeta

Archie Metaverse is a photo-realistic Metaverse beginning with the play to earn Archie Island which offers games and experiences in a photo-realistic virtual reality environment. Next will come e-commerce were actual products and services can be purchased in Archie Metaverse. And finally, a real estate component will be tied to actual properties in the real world represented in Archie Metaverse. The value of Archie Coin ($ARC) will be determined by the success of the Metaverse rather than buying and selling Archie Coin. As a result of Archie Coin gains value, so indirectly will the tokens listed on Archie Chain which will have liquidity tied to Wrapped Archie Coin (WARC)

ArcCoin ($ARC) or WarcCoin($WARC) will be the official currency of ArchieMeta. You must hold one of these to enter to ArchieMeta. More details in the ArchieMeta section.

making your dreams come true

ARCHIE CHAIN
STAKING SYSTEM/VALIDATOR

The ArchieChain project will enable users to earn yields:

Staking $ARC coins on the ArchieChain blockchain will allow stakeholders to secure the native blockchain and receive $ARC rewards from transaction fees.

There is a more in-depth guide on Github. If you have questions, contact us on social media.

Buy or trade for $ARC and send to your validator address

Download staking contracts from Github

Install dependencies

Add validator private key to .env file

Run ''yarn stake'' to stake your ARC

ARCHIE CHAIN
STAKING dApp SYSTEM

arccoin (ARC)™

The ArcCoin($ARC) or WarcCoin ($WARC) on Archie Chain (ARC) project will enable users to earn yields:

Staking $ARC/$WARC coins on the ARC Staking dApp will allow stakeholders to receive $ARC as yield.

✓ No Staking Fees

✓ Our own Safe dApp

✓ Near-Zero Gas Fees

✓ Generous APY (TBA)

ArchieChain (ARC) is a decentralized public blockchain that has high performance and EVM compatibilities. The purpose of the blockchain is to solve problems such as low performance and high transactions costs with a faster, more convenient, and lower-cost experience.

ArchieScan is a block explorer for ARC ArchieScan is a service on which any user can view ARC network statistics. The main task of the platform is to display information about the latest blocks and transactions of the network.

ArchieSwap is a cryptocurrency exchange which uses a decentralized network protocol.

arccoin (ARC)™

ArcCoin ($ARC) will be the native coin of ARC Network.

The entirety of the $ARC coins supply will be pre-mined upon the release of the main net. $ARC is used for fueling transactions, smart contracts, and dApps.

warccoin (WARC)™

Users can lock their ArcCoin($ARC) on the cross-chain protocol to receive $WARC on the ArchieChain blockchain.

Users can use $WARC to deploy and interact with smart contracts, pay transaction fees and participate in the governance of ArchieChain.

Users can destroy $WARC and reclaim their native ArcCoin($ARC).

archieAggregator™

Multi Chain DEFI Exchange that enables you to swap 10000+ assets between 18 Blockchains.

archie Alliance™
Complete DeFI Eco-System

ARCHIE
ECO SYSTEM

Fully functional marketplace for NFTs to launch with our low gas fee $ARC.

Security at the topmost priority. 3FA wallet with the ability to create up to 100 sub-wallets.

ArchieMeta NFTs are created with one thing in mind. Affordability with added benefits to Archie holders. ArchieMeta NFTs are based of 3D Avatar photo realistic models from different parts of the world.

Many non-utility NFTs have no real value other than the value a buyer or community believes it to have, based upon the rarity of its collectability or current hype surrounding the subject.

ArchieNekoNFT is connected to ArchieMeta and these NFTs are the workers or managers who run these projects and their earnings are paid to the NFT owners as a Passive Income via smart contract.

ISLAND OF ARCHIE

Island of Archie is a 13000 acres (20 Sq Miles) island system to represent our ArchieMeta. From the tranquil river estuary, breath-taking mountains and sun-drenched beaches, to the modern and futuristic architecture of its city structures.

archieMeta™

Archie Metaverse (Island of Archie), a photorealistic metaverse island built on its own unique Archie blockchain, a living experience that is designed to exist continuously and in real time, just as it does in the physical world.

BANK of ARCHIE™
AN ARCHIE META EXCHANGE

Bank of Archie is used to convert the $ARC (Arccoin) to whatever the cash or currency that you need to play the actual game with in the ArchieMeta.

arccoin (ARC)

archie Alliance™
Complete DeFI Eco-System

ARCHIE ECO SYSTEM

archie Play2Earn™
GAMES AND ENTERTAINMENT

Play-2-Earn Game section will be launching in Q2 2023 with the exception of Everest Gaming Centre in Q1 of 2023.

ENTERTAINMENT | GAMES

archie E-commerce™

ArchieMeta will have various real-world businesses whose real products/services will be mimicked in ArchieMeta. Visitors will be able to purchase these products/services and have them shipped to their actual homes or businesses. The types of products and services will be evaluated at a later time depending on how the market develops.

SHOPPING | OUTLETS

archie Realty™
Next generation living

In the 13,000 acres that make up ArchieMeta, there will be both Commercial Real Estate and Residential Real Estate. The commercial real estate, consisting of the various businesses in ArchieMeta, is private and will never be sold.

HOMES | RENTALS
