The Convention

The Annual MMA Women Managers' Convention is a celebration of the spirit of women; and the many diverse roles women play. Each year the theme for the convention has revolved around the evolving roles and needs of women. The event creates a platform for women across different walks of life, to come together, share their thoughts, opinions, insights and experiences. What binds these women is the urge to excel in their respective fields, be it as business leaders, entrepreneurs, thinkers, artists or policymakers. The focus of the convention is to inspire and guide women to grow in every area of life.

The Platform

In an era marked by rapid transformation and global interconnectedness, women continue to redefine excellence across sectors—corporate leadership, entrepreneurship, governance, science, personal branding, and sports. Whether breaking the glass ceiling in boardrooms, leading companies with resilience, or inspiring the nation with historic victories such as the Women's Cricket World Cup triumph, women have demonstrated that progress accelerates when opportunity meets purpose.

Aligned with the International Women's Day 2026 theme "Give to Gain," this year's Women Managers' Convention celebrates the power of generosity, mentorship, and collective growth. When individuals and institutions share knowledge, create opportunities, and advocate for inclusion, they set in motion a cycle of empowerment that benefits all.

At the heart of this journey is the importance of authentic leadership. Women often feel the need to conform or over-accommodate in professional environments, sometimes at the cost of their own inherent strengths. This Convention underscores the value of women being confidently and unapologetically themselves, recognising that authenticity, self-belief, and individuality are powerful enablers of leadership impact.

The Convention will spotlight stories of women who have not only excelled in their fields but have also uplifted communities, mentored talent, and shaped future leaders. It will explore how collaborative leadership, emotional intelligence, self-management, and purposeful giving can transform workplaces into inclusive ecosystems where women can thrive.

This year's Convention will feature thought-provoking conversations, practical learning sessions, and inspirational narratives, offering women managers the tools, confidence, and networks they need to expand their horizons and lead.

Special Session 1
