CODING WITH KIDS CAMPS

Days: Mon - Fri

Coding with Kids is a computer science academy that has been teaching coding enrichment camps and classes since 2013. We focus first on teaching coding skills and concepts and introducing students to different programming languages. We recognize that each child learns differently and we allow students to advance at their own pace.

CODING WITH KIDS CAMP DESCRIPTIONS

LITTLE CODERS: CREATIVITY WITH CODING:
Discover the world of coding and animation, in this engaging course designed for young learners! Our curriculum, tailored for early readers, focuses on developing computational thinking skills and foundational coding concepts.

PYTHON: INTRO:
Python is a very versatile and easy-to-learn starter language. Through the games they create, students will learn and practice core coding concepts and learn Pythonspecific concepts and syntax.

ROBLOX: INTRO TO GAME DEVELOPMENT:
Creating Roblox games is a fun way for campers to learn and practice programming! Each camper will be able to create different custom games with Lua code. They can then publish their game and share it with friends.

PYTHON CODING:
Learn one of the most versatile S.T.E.A.M. STEAM and beginner-friendly programming languages. Students will be introduced to core coding concepts such as variables, loops, functions, and conditionals. Then, they'll learn intermediate-level coding concepts like arrays, functions with parameters, and game physics!

ROBLOX: CODING:
You'll explore digital tools, experiment with styles like cartooning, anime, and realism, and tackle creative challenges. You'll create unique digital masterpieces and grow as an artist.

MINECRAFT MODDING:
Students will use a drag-and-drop coding environment to learn essential programming concepts like variables, conditionals, and loops. They'll apply these concepts to craft their own Minecraft mods (modifications) to transform their gaming experience, from creating custom game world maps to a magic wand and unique chat commands.

SCRATCH: INTRO TO GAME DEVELOPMENT:
This course introduces students to coding using Scratch, a fun drag-and-drop coding environment. They will learn coding fundamentals like Variables, Loops, and Conditionals while unleashing their creativity by designing characters, creating scenes, and adding sounds.

MINCRAFT MODDING: INTRO:
Learn programming, harness your creativity, and hack your Minecraft in-game experience through building your own custom mods! You'll have your own private Minecraft server to build your own world maps, create new items, and code non-playable characters and new game modes.

LITTLE CODERS: ROBOTICS:
In this course, students will have a blast while learning about robots and how they work. They will complete interactive projects and code their robots to perform tasks like turning the robot's lights on and off, playing music, moving, and detecting sound.

ROBOTICS: INTRO:
Students will learn the basics of programming a robot and learn how to use code along with hardware to open up so many more possibilities with technology. They will apply these concepts to program their robot to complete mission challenges, such as avoiding obstacles, light sensing and following a path.

SCRATCH GAME DEVELOPMENT:
This comprehensive full-day camp blends coding and creative game development. Students will use Scratch, a fun drag-and-drop coding environment, to learn fundamental coding concepts like variables, loops, and conditionals. Then, they will level up to intermediate coding concepts like events, functions, and game physics to build engaging platformer games, including a custom Mario game.

LITTLE CODERS:
Our Little Coders camp allows young children to develop their computational thinking skills, build their first programs, and have fun with new friends!

E.S.T.E.A.M. LEARNING LABS CAMPS

Age: 8 - 12   **Days:** Mon - Fri   **Time:** 9:00AM - 4:00PM

E.S.T.E.A.M Learning Labs focuses on Entrepreneurship, Science, Technology, Engineering, the Arts, Math, Music, Movement, and so much MORE! We provide hands-on learning by doing fun infused learning style that will keep your kids engaged and wanting to come back for more!

NAME	DATE	LOCATION	FEE	CODE
The Art of Comics	June 2-6	CMRC	$450	25-21001ELL-01
LEGO® Maker	June 9-13	Baca Center	$450	25-21001ELL-02
LEGO® Battle Bots	July 7-11	CMRC	$450	25-21001ELL-03

E.S.T.E.A.M. CAMP DESCRIPTIONS

THE ART OF COMICS: CREATE YOUR OWN ADVENTURE:
Students will explore the history and lore of traditional comic books. They will be guided on creating their heroes and telling their unique stories. This program will combine writing and drawing and will challenge the students to share their vision through words and images.

LEGO® MAKER: AMUSEMENT PARK:
Campers will design thrilling amusement park rides, exploring forces, motion, and energy transfer as they create attractions with LEGO® bricks.

LEGO® BATTLE BOTS:
Students will work in teams to design and build motorized battle robots. Through practice battles and time reconfiguring their robots, students will design robots capable of overcoming others.

LEGO® ROBOTICS: SMART MOVES:
This course is designed for advancing engineers eager to explore the intersection of robotics and transportation while deepening their understanding of robotics and coding.

DIGITAL ART STUDIO:
You'll explore digital tools, experiment with styles like cartooning, anime, and realism, and tackle creative challenges. You'll create unique digital masterpieces and grow as an artist.

THE KNIGHT SCHOOL SUMMER CHESS CAMP

Age: 5 - 13   **Days:** Mon - Fri

Chess Camp is a super-fun, high-energy chess experience in which kids celebrate a new chess tactic each day with silly videos, music-driven puzzlers for prizes, colorful silicone TactixBands, funny movies, and fast-paced party-bead tournaments! Laughter, fast clocks, and compelling teaching approaches make this camp the summertime highlight.

YOUTH TECH CAMPS

Location: Allen R. Baca Center

Youth Tech Inc. is an interactive computer camp that focuses on providing enrichment opportunities to students in the world of computers. With a caring environment at the core of camp values, Youth Tech strives to create a positive learning community that encourages creativity, fun and academic excellence.

YOUTH TECH CAMP DESCRIPTIONS

CODE STUDIO:
Students will create virtual apps and write their own programs that they can share with friends and family. This course makes learning to code fun and explores problem solving and programming logic.

GAMING AND CODING:
Students spend the morning taking an interactive look at coding and building virtual apps to share with friends. In the afternoon, students build simple video games combing the art of video game design and animation to create interactive characters that fly around the screen.

iGAME CREATORS:
This course combines the art of video game design and animation to create interactive characters that fly around the screen. Amaze your friends and family with your fun interactive games.

MOVIE MAKERS:
Students will film, direct and edit their own digital video creations. Students enrolled in this course amaze their peers with green screen and special effects work.

VIDEO GAME DESIGN AND DEVELOPMENT:
Students enrolled in this camp will learn the basics of video game design and produce several different interactive video games to share with their friends and family.

GAMERS PARADISE:
This class offers students a look at multiple areas of game design. Students will create multiple games that they can share with friends and family.

GRAPHIC DESIGN:
Work with photos and learn how to manipulate images using award winning image editing software to create the image that they envision.

ROBLOX STUDIO - PROGRAMING AND GAME DEVELOPMENT:
This course will guide students through concepts such as beginner physics, LUA programming, and game development. Students in this course will build and publish their multi-player game to share with friends and family!

ANIMATION:
In this class students will learn the basics of animation and digital design. Students will create fun interactive animations that they can share with the world.

THE GAMING ACADEMY:
During this course students will be immersed into the world of 2D and 3D game design. The course offers students a variety of hands on experience designing and building their very own games.

3D GAME DESIGN:
This awesome 3D video game design course offers the chance for students to create and immerse themselves in a 3D world. If you are looking to design professional 3D games that both look and feel just like the ones you play at home, then you don't want to miss this course.

LIFEGUARD CAMP

JUNIOR LIFEGUARDING CAMP

Age: 11 - 14   **Days:** Mon - Fri   **Location:** Micki Krebsbach Pool

American Red Cross Junior Lifeguarding is designed to guide youth to the American Red Cross Lifeguarding course by building a foundation of knowledge, attitudes, and skills for future lifeguards. Participants are not required to master or perfectly execute skills. They will learn techniques and build stamina during this program. The Junior Lifeguarding course does not certify participants in first aid, CPR or AED or as a lifeguard. Participants must be 11-14 years of age and successfully complete the in-water skills assessment.
