

Building Smarter, Safer, More Sustainable Buildings, Together.

Tackle Your Commercial Construction Project's With Turtle

Switchgear Expertise

With 100+ years of experience, our team has successfully managed major projects like the World Trade Center Reconstruction and Hudson Yards microgrid. Our unique approach combines technical expertise, comprehensive equipment packages, and dedicated project management to navigate the complexities of switchgear installation.

Commitment to Sustainability

Sustainability and advanced energy management are integral to our approach, ensuring projects are executed with cutting-edge technology. Our strong relationships with manufacturers of medium-voltage (MV) and low-voltage (LV) switchgear provide priority treatment for on-site deliveries.

Systematic Project Management & Coordination

We partner with multiple manufacturers to provide the best electrical construction products and services in the market. Our offerings include detailed bills of material, submittal drawings, technical approval conferences, full-time project management, and post-delivery start-up services for a streamlined process.

Smart, Sustainable Construction Solutions that Drive Value, Efficiency and Effectiveness

Our expert team is dedicated to helping you enhance your operations by:

Safe & Efficient Switchgear Solutions:

Ensure control and protection of electrical power systems through technical project management, drawing submittals, and post-delivery start-up services management.

Lighting Energy Efficiency & Effectiveness:

Customize lighting solutions to reduce energy costs, improve workplace conditions, and ensure compliance with local regulations.

Customized EV Charging Programs & Solutions:

Customized EV charging solutions integrate seamlessly with existing electrical infrastructures.

Cyber Security Solutions & Services:

Cyber security services to protect the enterprise and ensure federal mandate compliance.

Backup, Redundancy & Resiliency Solutions:

Comprehensive solutions to ensure continuous operations and protection against power disruption and data loss.

Our Related Offerings

Power Conditioning, Quality & Backup

Uninterruptible power supplies, power factor correction & automatic transfer switches

Components for Electrical & Mechanical Subsystems

Variable frequency drives, circuit breakers and fuses

Facility Power Distribution

Busway, transformers, panelboards, switchgear and floor-based power

Facility/Power Monitoring & Management

Integrated facility systems, facility management software, remote monitoring meters & software

Monitoring Consoles

Network operations center consoles

White Space Power Distribution

Low voltage busway, floor-standing/wall-mount /enclosure power distribution units (PDUs)

Airflow & Thermal Management Solutions

Rack and aisle-based containment solutions

Racks & Enclosures

IT equipment racks, enclosures and colocation cages

Wire & Cable Management

Cable tray and modular wiring systems

Indoor & Outdoor Lighting

High efficiency LED luminaires and lighting controls
