■ **TRE TORCE, UN UNICO CONCETTO: ERGONOMIA.**

Ci siamo concentrati sullo studio di un'impugnatura che con l'inclinazione di 26° permettesse di puntare il fascio con il minimo sforzo. Ma non ci siamo fermati a questo: spostando l'interruttore nella parte inferiore della testata abbiamo raggiunto il massimo della praticità e del comfort. Anche il sistema di ricarica è stato completamente rivisto e modificato. Un innovativo sistema di connessione magnetica permette la ricarica esterna. La batteria agli ioni di litio vi garantirà fino a 500 cicli di ricarica. Un'importante aggiunta è stata fatta per la sicurezza: nella parte posteriore della torcia è stata inserita una valvola di sovrappressione. Questa valvola garantisce che l'interno della torcia non vada mai in sovrappressione.

■ **THREE TORCHES, ONE CONCEPT: ERGONOMICS.**

We focused on the design of a grip with a 26° angle that would enable you to point its beam without any effort. But that is not all: by moving the switch under the head, we achieved the ultimate in functionality and ease of use. The charging system has also been completely revised and modified: an innovative magnetic induction system enables external charging. The lithium-ion battery will guarantee up to 500 charging cycles. We added an important safety feature: a pressure relief valve built into the back of the torch. This valve ensures that the inside of the torch will never overcharge.

■ **TROIS TORCHES, UN SEUL CONCEPT: L'ERGONOMIE.**

Nous nous sommes concentrés sur la conception d'une poignée qui, avec son inclinaison de 26°, permettrait d'orienter le faisceau avec un minimum d'effort. Mais nous ne nous sommes pas arrêtés là: en déplaçant l'interrupteur vers la partie inférieure de la tête, nous avons obtenu un maximum de praticité et de confort. Le système de charge a également été entièrement revu et modifié. Un système de connexion magnétique innovant permet une recharge externe. La batterie lithium-ion vous offrira jusqu'à 500 cycles de charge. Un ajout important a été fait pour la sécurité: une soupape de sécurité a été intégrée à l'arrière de la torche. Cette valve permet de s'assurer que l'intérieur de la torche n'est jamais en surpression.

COBRA

■ Studiata per chi ha l'esigenza di utilizzare la torcia in maniera tradizionale sfruttando sempre e solo la piena potenza. Azionando una volta l'**INTERRUTTORE** la torcia si accende al 100%. Al secondo tocco, la torcia si spegnerà. Tenendo l'interruttore premuto per circa 4 secondi si azionerà un flash a 10 Hz per segnalare situazioni di emergenza.

■ Designed for those who need to use their torch in a traditional manner, always on full power only. One **SWITCH** activation turns the torch on at 100% output power. A second touch turns the torch off. Keeping the switch pressed for about 4 seconds activates a 10 Hz emergency flash.

■ Conçue pour ceux qui ont besoin d'utiliser la torche de manière traditionnelle en exploitant toujours et uniquement la pleine puissance. En actionnant une fois l'**INTERRUPTEUR**, la torche s'allume à 100%. Au deuxième contact, la torche s'éteindra. En maintenant l'interrupteur enfoncé pendant environ 4 secondes, un flash à 10 Hz sera activé pour signaler les situations d'urgence.

COBRA PURE

■ Ricarica esterna con connessione magnetica
 ■ External charge with magnetic connection
 ■ Charge externe avec connexion magnétique

■ Progettata per gli apneisti più estremi, la versione PURE è stata programmata per accendersi e restare accesa tenendo l'**INTERRUTTORE** premuto. Si spegnerà al semplice rilascio dell'interruttore. Nessun altra opzione.

■ Designed for the most extreme freedivers, the PURE version is configured to remain on as long as the **SWITCH** is pressed. It turns off when you simply release the switch. No other options.

■ Conçue pour les apnéistes les plus extrêmes, la version PURE a été programmée pour s'allumer et rester allumée en maintenant l'**INTERRUPTEUR** enfoncé. Elle s'éteindra dès que l'interrupteur est relâché. Aucune autre option.

■ Valvola di sovrappressione
 ■ Pressure relief valve

BELLATRIX INFINITY ∞

■ FASCIO VARIABILE

Azionando con un semplice movimento di scorrimento la testa anteriore, è possibile variare il fascio luminoso in modo semplice e veloce.

- 1- FASCIO LARGO 70°: ideale per immersioni notturne;
- 2- FASCIO STRETTO 27°: ideale per illuminare relitti ed anfratti;
- 3- FASCIO 140°: svitando completamente e togliendo la testa anteriore, è possibile ottenere un fascio ideale per video riprese.

■ VARIABLE BEAM

By scrolling the torch head you can easily modify the light beam.

- 1- WIDE BEAM 70°: perfect for night dives;
- 2- NARROW BEAM 27°: perfect to light up wrecks and caves;
- 3- 140° BEAM: by removing completely the torch head you can obtain a perfect beam to capture videos.

■ FAISCEAU VARIABLE

En faisant simplement glisser la tête avant, le faisceau peut être modifié rapidement et facilement.

- 1- FAISCEAU LARGE DE 70° idéal pour la plongée de nuit;
- 2- FAISCEAU ÉTROIT 27°: idéal pour éclairer les épaves et les ravins;
- 3- FEU 140° : en dévissant complètement et en retirant la tête avant, il est possible d'obtenir un faisceau idéal pour le tournage de vidéos.

XCARE

Qualità senza compromessi

I prodotti XCare sono la soluzione indispensabile per la manutenzione della tua attrezzatura subacquea e per quella di ogni sport acquatico. La sua formula naturale e biodegradabile elimina i residui di sale, calcare, urina e cattivi odori, senza danneggiare il neoprene. Ripristina la flessibilità delle mute e ne prolunga la durata. Facile da usare e senza necessità di risciacquo. Proteggi la tua attrezzatura e gli oceani con un gesto semplice e responsabile.

La diluizione minima dell'1% non compromette la qualità dei risultati. Al contrario, dimostra l'efficacia e la potenza del nostro prodotto. Con ogni goccia, ti immergi in un'esperienza senza precedenti dove l'efficacia si combina con la qualità.

XCARE

Uncompromising quality

XCare products are the essential solution for maintaining your diving equipment and all water sports gear. Its natural, biodegradable formula removes salt, limescale, urine and unpleasant odours without damaging neoprene. It restores the flexibility of wetsuits and extends their life. It is easy to use and no rinsing is required. Protects your equipment and the oceans with a simple and responsible gesture. The minimum dilution of 1% does not compromise the quality of the results. On the contrary, it demonstrates the effectiveness and power of our product.

With every drop, you immerse yourself in an unprecedented experience where effectiveness is combined with quality.

XCARE

Une qualité sans compromis

Les produits XCare sont la solution indispensable pour l'entretien de votre équipement de plongée et de tout autre équipement de sports nautiques. Leur formule naturelle et biodégradable élimine les résidus de sel, de calcaire, d'urine et les mauvaises odeurs, sans endommager le néoprène. Elle restaure la souplesse des combinaisons et prolonge leur durée de vie. Facile à utiliser et sans rinçage. Protégez votre équipement et les océans d'un simple geste responsable.

La dilution minimale de 1% ne compromet pas la qualité des résultats. Au contraire, elle démontre l'efficacité et la puissance de notre produit. À chaque goutte, vous plongez dans une expérience sans précédent où l'efficacité se combine à la qualité.
