About Us

From over 70 years of business, Interpet has successfully established market leading in-house aquatic and pet brands, including Mikki, Aquagarden and Interpet publishing, as well as representing its parent company brands of Nylabone, Comfort Zone, Kaytee, K&H and Four Paws across Europe and around the world.

Founded in the UK in 1952 by Dr Neville Carrington, a British chemist who entered the business world through his love of fish keeping. Interpet started with the manufacture of aquarium products and has grown over the years through product innovation, brand development and acquisition to become the broader pet company it is today.

In 2004 Interpet was acquired by the US giant, Central Garden and Pet who recognised the opportunity to offer Interpet's innovative approach and products to the US market. Interpet's strong relationships in the UK and links across Europe also provided great potential to grow the distribution of Central's own US pet brands in new markets.

Today, Interpet develops, manufactures, and partners with selected vendors for the Mikki, PetLove, Aquagarden and Interpet publishing brands to offer a quality range of products and books for dogs, cats, birds and small animals, as well as water gardening. It is proud to be the headquarters for Central's export activity into Europe and the rest of the world with a team of salespeople on the ground in the UK and Europe selling the Nylabone, Kaytee and Four Paws brands alongside Interpet's own brands.

Through Innovation and expertise, we make **Caring for creatures at home,** more enjoyable and successful for everyone

For every reason to chew... there's a Nylabone

Since 1955, Nylabone has been making the world's best chew toys, dental solutions for dogs of every age, breed, shape, and size. Our chew toys and promote good canine dental hygiene, occupy and entertain, discourage destructive chewing, reduce stress, and strengthen the bond between pets and their people.

We know that every dog is different, and so are their needs. That is why we make a wide variety of chewing solutions in flavours, shapes, sizes, and textures for every kind of dog and chewing strength.

Products and advice for Grooming, Training and Caring for your pet at all stages of life

Back in 1980, the first Mikki product to hit the market was the famous Mikki Muzzle, this contemporary update on the traditional basket muzzle was loved by dog trainers as it allowed the feeding of treats whilst training – the first muzzle available on the market to do this. Four years later, Mikki launched its first ever range of grooming products – made by groomers, for groomers and since then, Mikki has led the way in developing quality products that really work. From the very beginning, Mikki has been a firm favourite among professionals, and we strive to make professional quality available for everyone. If you've got a pet, we've got a grooming tool for you!

As we've grown and listened to our customers and consumers, we've expanded our ranges to include everyday training and care solutions. Mikki knows that one size does not fit all and has tailored its ranges to meet the demands of a wide variety of breed shapes and sizes. Be it your dog pulling on his lead or your cat not taking her pills, we've got the solution for you

Aquagarden

beautifully simple water gardening

The Aquagarden range of quality outdoor pond and water gardening products is full of innovation and quality. All products are designed with a focus on making it as simple and easy as possible for users to install, maintain and get the most out of their pond.

The Aquagarden team are an incredibly enthusiastic, knowledgeable, and passionate team of water gardeners. Our aim is to arm our customers with the best tools for the job to make sure everyone can find success and enjoyment from bringing water into their garden.

With a wealth of experience in the hobby, pond keeping is a passion for us, which has driven innovation, creating some of the most unique technologies and products for ponds and water features.

All Aquagarden products are designed in the UK by a British development team and are thoroughly tested in-house at our U.K. offices. This way, we ensure that we know the complete performance of every product, so we can provide the highest quality equipment to all of you.

Energy saving pond pump for filters and waterfalls. Powerful, yet economical this low maintenance design pond pump is adjustable to suit any pond and season

Suitable for waterfalls and filters, the Energy Saver Pond Pump combines low maintenance with high performance, and using its digital motor technology consumes around thirty percent less energy than similarly priced pumps

- **Motor Protection System** - if the pump detects that the motor is clogged or jammed it will pause
- **Run Dry Protection System** - when water is added pump will safely restart.
- **Flexible Power Usage Control & Soft Start** - top, start, increase or decrease power and flow.
- **Soft Start** - when the pump is turned on, the flow will slowly increase to its pre-set position.
- 3 Year guarantee
