## PACKAGING DETAILS

1 Smart Garage Door Controller

# STEP-BY-STEP SET-UP GUIDE

## 1. SET UP

- a. Remove all items from their original box
  - b. (From the graph or picture above) Connect A and Com parallel to the door opener button on the wall. A is positive and Com is negative
  - d. L and N are connected to the power
  - e. Connect the green and black wires to the door sensor that came with the unit
- Make sure to test the controller afterward

## 2. FUNCTIONS

### a) Activate Device

- Go to the mobile app
- Access the control interface of the device to remotely open or close your gate
- You can also trigger the system alarm on the app in case of an emergency and manage the device's settings

### 3. MOBILE APP CONNECTION

#### a) Downloading the App

Download the application on the Google Play Store or Apple AppStore by searching “Tuya Smart” or by scanning the QR code below

#### b) Logging in and Registering

##### After Downloading the App

- Select the country from which you will be using the device, usually the app will prompt it automatically
- You will be redirected to register via email where a verification code will be sent and proceed to enter it on the app in the allotted time limit
- Once the verification code has been entered into the app, you will be asked to set your password
- You will then have full access to the Tuya Smart Platform

### 3. MOBILE APP CONNECTION

Should you be an existing user to the Tuya Smart Platform, log in using your email and password from the login page.

#### c) Resetting your Password

In case you have forgotten your password and need to reset it, please follow the steps below:

- On the Login Page, when prompted for your email & password, click “Forgot Password” button located below the “Login” button
- Select the country from which you will be using the device, usually the app will prompt it automatically

### 3. MOBILE APP CONNECTION

#### Verification Code

Verification code has been sent to: 86-15219500857,  
Resend(57s)

#### Set Password

Password must contain 6-20 letters and numbers

Done

- You will be prompted to enter the email where a verification code will be sent and proceed to enter it on the app in the allotted time limit
- Once the verification code has been entered into the app, you will be asked to set your new password
- You will then have full access to the Tuya Smart Platform

In the case that you would like to change your password from the app, please follow the steps below:

- Tap the 'Me' tab on the bottom right hand corner of your screen
- Click 'Change Login Password'
- You will be taken to the 'Account Verification' page and then tap 'Get Verification Code' button
- This will send a verification to your registered email
- Enter the code in the app
- Proceed to enter the new password

### 3. MOBILE APP CONNECTION

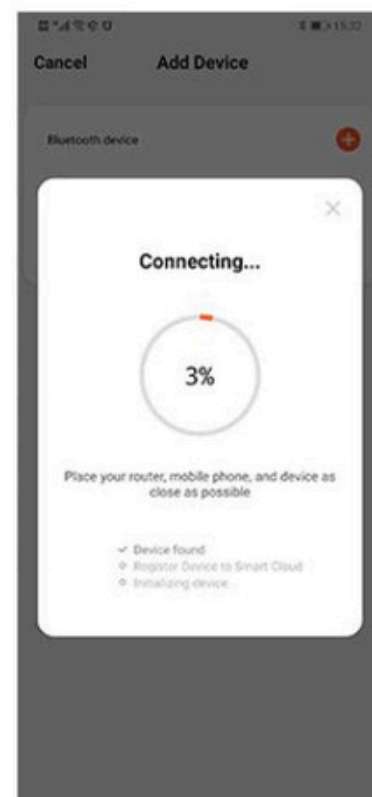

#### d) Adding Devices

To add devices on the app, please follow the instructions below. Your devices and phone must be connected to the same 2.4 GHz Wi-Fi network in order for this to work.

- To add a device, click the 'Add Device' or tap the 'Plus' button on the top-right corner of your screen and select 'Add Device'
- Enable Bluetooth and phone location to proceed
- The app will automatically detect a nearby device. Select it when it pops up on the screen

- Wait for the app to finish searching for the device
- Finish adding your device. Once this has been done successfully, you can go on to change the name of your device and control its functions

## Congratulations!

You have successfully set up your very own Smart Garage Door Controller.

Thank you for being a valued customer of The Connected Shop.
