# JOIN THE NEXT EVOLUTION IN SAFETY FOOTWEAR

Dual Compound Rubber is an innovative soling technology utilising two different layers of rubber where the soles are directly injected onto the uppers for a superior bond, thereby increasing the longevity of the product. This technology offers vastly improved durability as well as superior heat and water resistance, while the dual density soling unit provides enhanced shock absorbcency and comfort. This range of safety footwear is engineered to deliver even greater safety and performance in harsh environments, while reducing the replacement cycle of soling units containing Polyurethane.

**SUITABLE APPLICATIONS** - Oil & Gas | Tarmac & Asphalt | Construction | Mining | Engineering | Heavy Manufacturing | Smelting

YouTube f t G+

## EXTREMEWEAR RUBBER/RUBBER

### GABBRO B-7140 ♂

6-inch Safety Boot

Sizes: 4-14  
Colour: Black

- Dual Compound Rubber/ Rubber sole
- Steel toe cap
- Heat-resistant up to 300°C
- Full Grain Leather upper
- Double padded bellows tongue and collar for added comfort
- Anti-static
