the big takeaway is

**more**

# more

## than just a UCaaS provider

**At OneCloud, we're passionate about making communication seamless and effective for you.**

With our deep industry experience, we offer a comprehensive platform that includes not only UCaaS but also Contact Center as a Service (CCaaS), a versatile Alert Notification system, complete POTS replacement solutions, and Teams PSTN with Operator Connect certification. Plus, we provide OneCloud Mobile and SecureFax to ensure all your communication needs are covered.

**more**  
**than technology alone**

**We're dedicated to crafting custom solutions that are not only cost-effective but also perfectly aligned with your needs.** Our team is here to ensure you receive top-notch service and support every step of the way. When you choose OneCloud, you're choosing a partner committed to your success and satisfaction.

# pots replacement

**Reliable and cost-effective solution for mission-critical operations.** Transition traditional telephone services to advanced cloud-based systems, ensuring continuity of critical services such as elevator call boxes and fire alarms without the traditional telephony infrastructure.

- Reliability and future-proofing
- Cost efficiency
- Enhanced functionality
- Better performance
- Sustainability

**more** reliable

# onecloud pots replacement solution

## staying the course

Maintain existing POTS lines  
averaging each month for

**\$175/line**

## onecloud pots replacement

Comprehensive Cellular Solution  
for as little as:

**\$30/month**

## a complete overhaul

For upfront costs to implement  
incomplete systems, competitors  
charge as much as

**\$2,500+**

**more** savings

# alertblast

**emergency notifications | work interruptions**  
**appointment reminders | retail & marketing**

With just a few simple clicks, you can send personalized mass notifications, for emergency events that can save lives or notifying staff of routine events. Send to a few contacts or easily scale up to notify thousands.

- Efficient multi-channel communication
- Emergency preparedness
- Message consistency
- Flexible use
- Broad reach

**more**efficient

**AlertBlast**

**Urgent: Fire Emergency -  
Immediate Evacuation Required**

Attention: This is an emergency notification. A fire emergency is currently underway. Evacuate the building immediately and follow designated evacuation routes. Emergency services have been notified. Stay calm and prioritize your safety.

# why alertblast?

peace of mind  
time savings  
increased engagement  
scalable solution
