Hyper Gloss Solids	P41
Solids	P42-43

## A DOOR TO NATURE

Naturalism is a literary genre that started as a movement in late nineteenth century in literature, film, theatre, and art. It is a type of extreme realism. Naturalism in art refers to the depiction of realistic objects in a natural setting. Our 2022/23 collection aims to allow the creation and expression of Naturalism in your space.

# SNS Laminates

Urban living has placed many of us in environments that can be harmful to us without our knowing. Our quest towards achieving a more sustainable and safe space for all has put us on the journey to create spaces that are not only beautiful but also healthier and safer. We are the Safe Spaces People.

## **SNS HealthShield™**

Our founders understand the importance of safeguarding the health of the most vulnerable of us. To support our community in the fight against the spread of infectious diseases, our team developed the HealthShield™, our unique range of laminates.

This high-pressure laminates collection uses proprietary technology that enables the laminated surfaces to actively eradicate various microbes, without harming the human body. Backed by tests against leading international standards, SNS HealthShield™ is proven to reduce bacteria count and virus infectivity by more than 99.9% after 24 hours. This protection can last the lifetime of the laminates when properly maintained. Our collection is also certified to be extremely low in volatile organic compounds (VOCs) emissions that are harmful to developing organs, which makes it extremely suitable for use in spaces designed for young children such as childcare centres and baby rooms.

## **Our Supply Chain**

We are committed to protecting future generations by being eco-friendly. This means paying attention to every detail of our manufacturing and logistic processes, only selecting raw materials which come from certified recycled, renewable, or sustainable sources. SNS and all our manufacturing facilities are certified with ISO14001:2015, demonstrating our ongoing commitment to improve environmental performance. One of our initiatives is to pledge our commitment to plant a tree for every ten sheets of laminates sold, by partnering with trusted non-profit organizations with presence in areas vulnerable to unethical logging and deforestation.

## **A Leader**

Through all these efforts, we are one of the first in Singapore to be awarded the highest possible rating of 4 ticks (Leader) under the Singapore Green Building Product (SGBP) certification scheme.

Enhance the elegance and sophistication of a **tall space** by selecting from our **10ft Laminates** Collection. Standard size laminates have a maximum length of 2.4m which means if your ceiling or carpentry work is taller or longer than that, a joint is required. Get that polished spacious look with **reduced Joint lines** from this selection that allows carpentry work to be built up to 3.0m.

JAZZ GRECIAN MARBLE ALPHA  
SCD 603 T

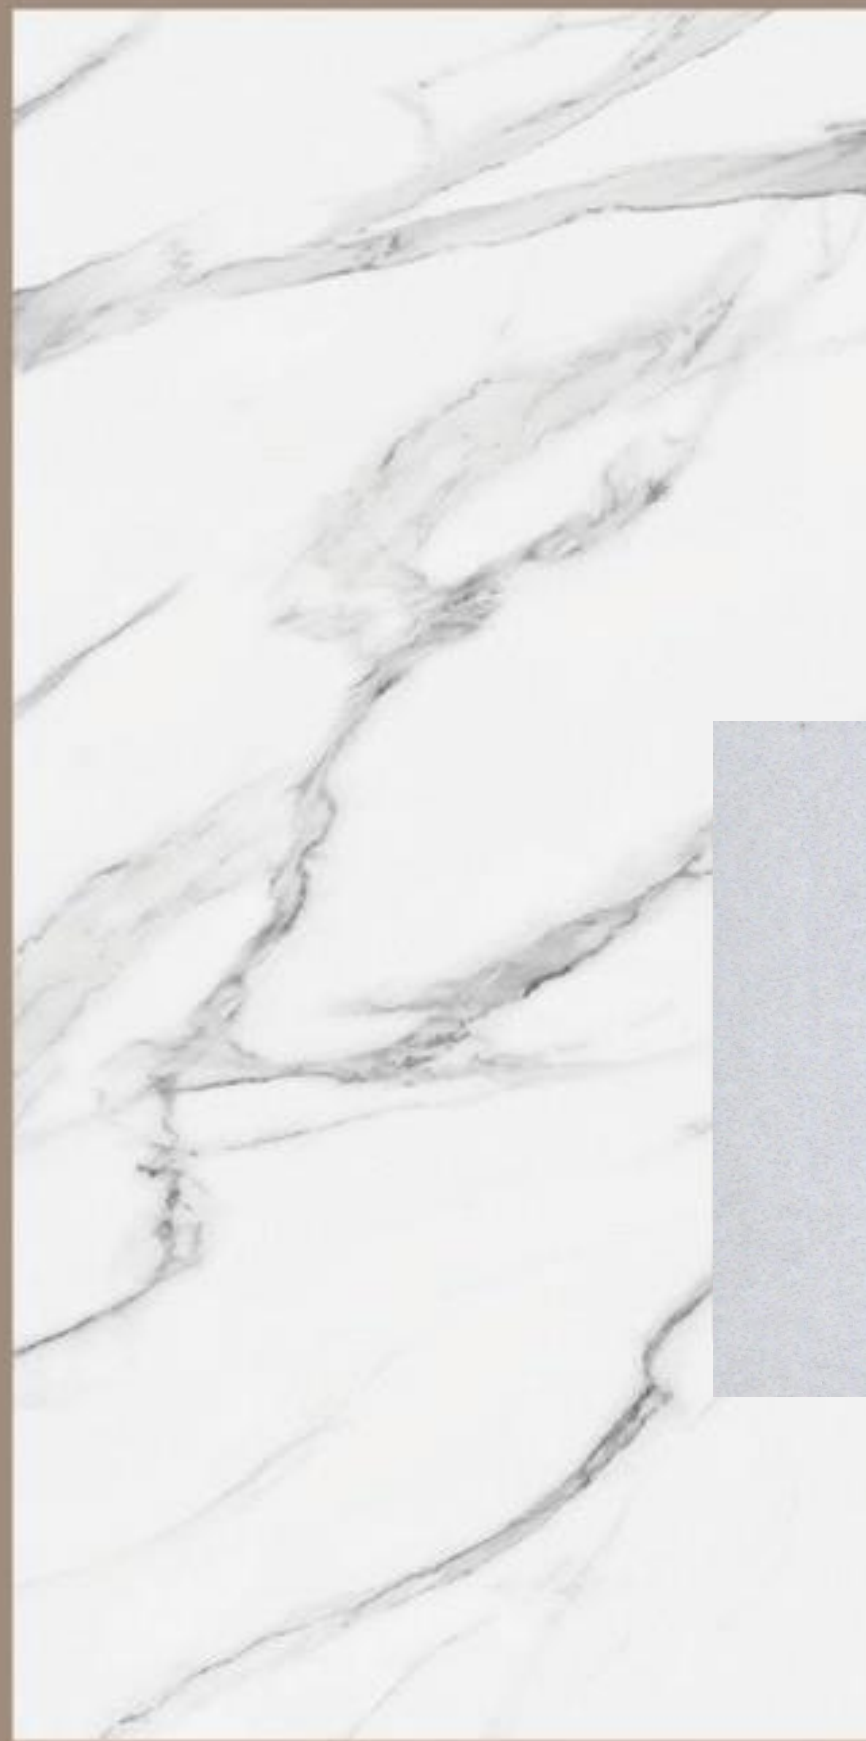

Jazz Grecian Marble laminate is a much more **sustainable** replacement to a slab of natural marble. The texture of this piece is designed with just the right amount of shine and a similar touch to the real deal. Made with a **white core**, the **joints between sheets are inconspicuous**, to achieve the luxurious look of your dream space.

## SUPPLE MATT 'CHALK IT'

The surfaces of Supple Matt 'Chalk It' laminates have been treated with proprietary technology to achieve its unique properties. It's extremely matt, coupled with a supple touch. It is more fingerprint resistant than common laminate surfaces, very easy to maintain and clean, perfect for kitchens and play areas. Our early childhood educator partners love applying them on low cabinets so that they can also function as chalk boards for creative play for children! For harder to clean stains or slight scratches, simply use a melamine sponge. All colours come with matching edgeband for the complete look!

## MATERIAL INFORMATION

SNS Laminates typically conform to the standards described in EN438-3:2016 or similar.

Postforming grade might be available on an indent basis.

Marine certified grade might be available on an indent basis.

## SINGAPORE GREEN BUILDING PRODUCT (SGBP) 4 TICKS LEADER: ECO-FRIENDLY CERTIFICATION

SNS Laminates attained the highest possible rating of 4 ticks under the Singapore Green Building Product (SGBP) labelling scheme. As a leader promoting environmental consciousness in the industry, SNS Laminates are certified to be manufactured under strict processes with a comprehensive approach towards environmental sustainability. Our products are low in toxic content and volatile organic compound (VOC) emissions, which is crucial for the health of end users, especially families with young children.

The SGBP labelling scheme is recognised under the Building and Construction Authority's (BCA) Green Mark Scheme, allowing the usage of certified products, particularly those with high ratings, to accrue additional points that count towards a project's eventual rating. Our service staff would be glad to provide further information on how our products can help you acquire points under the Green Mark Scheme. Besides the SGBP certification, SNS Laminates also attained other globally recognised Eco-friendly/Green certification. Using our products instead of any other laminates, would help to preserve the health of your loved ones and our environment.

## SURFACE FINISHES

AL	Adroit Leather	LC	Landscape
DM	Drymatte	M	Matt
CV	Carved Stone	NR	Naturalle

G	Gloss	RG	Rough Granite
GM	Gloss Matt	SM	Smooth Matt
HN	Horizontal	T	Texture
HY	Hay Emboss		
AZ, CR, CW, LM, MT, SF, TW, TX, VL			Other finishes

## CARING TIPS FOR LONG LASTING AULLURING SURFACES

1. SNS Laminates can be easily cleaned; use a non-abrasive damp cloth or sponge and a mild soap or detergent. Difficult stains such as coffee or tea can be removed using a mild household cleaner.
2. Stubborn stains that resist any of the above cleaning methods may require the use of undiluted household bleach or nail polish remover. Use a cotton ball saturated with bleach or nail polish remover, gently rub the stain for up to two minutes. Rinse thoroughly with warm water and wipe dry using a daft cloth. This step may be repeated if the stain appears to be fading and the color of the laminate has not been transferred to the cloth.
3. Prolonged exposure to temperature above 60°C or direct sunlight may cause discoloration and damage to the surface. Do not expose the laminates to open flames.
4. Never sand, lacquer, or refinish your laminate surfaces.
5. Avoid sharp or pointed objects with concentrated weight on your laminate.

## PURCHASER SAFEGUARD

All customers are advised to confirm the purchase of your SNS Laminates. If there is a need, feel free to request for a sample from our representatives or any Interior designer to keep as a copy to compare with your final carpentry work after installation. SNS Laminate samples bear an engraved mark of the SNS logo which cannot be removed. If in doubt, feel free to contact us for assistance.

## DISCLAIMER

Samples shown in this catalogue may have a slight tone variation from the actual product delivered. There might also be slight tone variation between different batches of order. SNS will not be held responsible for any claims as a result of errors from this catalogue. To avoid errors and disputes of colour tone variation, clients are encourage to contact SNS representatives for a sample piece before a batch order.

SNS warrants that SNS Laminates are reasonably free of defects upon delivery and under the normal, proper intended usage of the products. Clients are strongly encouraged to examine the products before installation for any noticeable defects. Should there be any intrinsic defect not due to mishandling or misuse, SNS's liability would be limited to the replacement of the HPL only. If the original product choice is not available, SNS reserves the right to recommend a replacement product of equivalent value.
