## CENTER SITE SEARCH

AIA Austin and Design Austin have long imagined a center for design in Austin ("the Center"). In 2022, both boards adopted an integrated strategic plan to establish this space. The Center will be a virtual and built place with programs offered onsite and around the region. Its foundational principle is to expand the understanding and appreciation of design excellence and its myriad applications. For the next several years, both AIA Austin and Design Austin will be transformed by the focus on the Center.
