

WHY SO  
MANY  
GODS?

*And what  
do they  
believe?*

# INTRODUCTION

## WELCOME TO THE INTRODUCTION OF WHY SO MANY GODS AND WHAT THEY BELIEVE.

It is a mystery to why so many religions, how many people there are that have their own god and the way they think of him, or her everyone assumes it's a male. whatever god it is and whatever they believe then its has been a big problem for mankind. It has also been a blessing in disguise, because the one thing most religions agree on is that it is better to live a good life than it is to live a bad life.

After this everything starts to fall apart, each religion has its own thinking and its own understanding. No wonder the ordinary people of the world, do not know what what is and who is who. And no bloody wonder if the religious people who are supposed to represent God on earth have no idea, then what hope has anyone else got? Not much, but in reality people who do not believe in God , believe in love. We all make mistakes and we all have different opinions, on everything. But we can all agree that love makes the world a happier place.

Religion has its place, but its gods have no power if they had then their would be no killing and death. They defend this by saying that we go to heaven and God is testing us, or all sorts of reasonings that when you think about it do not add up to what love is. It is all a mess really the none believers know what love the believers is believe in God but do not know what love is. Because love does not point fingers. Repent or die, or go to hell, its hard enough this life , without thinking God has it in for you as well.

# The Church of England.

Let us start with the easiest religion to understand , and the one that gives value for money, cob in the coin box a few coppers or notes and everything is ok. No pressure to go at any time it's up to you once a year, once a lifetime. Not bothered so long as some go and it keeps the vicar homed while he finds a better house.

The myth of the church of England was that king henry the 8<sup>th</sup> started the church. But in reality the catholic religion was formed from this, and henry the 8<sup>th</sup> decided if the pope could change it to Catholicism,( sounds a bit like alcoholism,) and change its doctrines then so could he. Henry wanted to get his leg over and as today, as was then the church , had a great say in all affairs. Henry declared he would put the church of England, under his own control and he would give it new doctrines.

Now henry was a man of the world, he liked his woman and he liked a good booze. So, he changed the religion to allow for all this, you can get married and then divorced. You can have a good old booze up and you do not upset the church of England's god.

They had a quick flick through the bible, found some passages that say this ok and bobs your uncle, new god, have a party and everyone's good to go. Their main belief is that if you are good you will go to heaven, and if you are bad you will go to hell.

Anymore information than this , is beyond the church of England and let it stay that way. They know the passages for weddings and funerals etc, it's there bread and butter. Apart from that the bible a mystery to them , that's great because too much knowledge can be bad, in the world of gods these are known as.

THE DAZED AND CONFUSED.

## THE LATTER DAY SAINTS.( MORMONS)

Now this gets a bit more interesting, this religion is for the middle class edging to the upper class of people. Its not like c of e the working man's God, this god is a bit more difficult to please. You have to be quite educated to understand what they are saying. they have taken things out of the bible, mixed it in with what joe smith said, added a bit of scientology a touch of Christianity. Mixed it all up together and they are still themselves trying to figure it out, it's called the book of Mormon.

It was started in 1872 by joseph smith, he found some golden plates with strange writing on, he was told to decipher the messages and to start a new and true religion. The gold plates were never found , the myth of these plates and their location is still a mystery. Many scholars think Mr smith melted them down, stashed the money and later his ancestor Sam smith used this money for a good cause, and opened many drinking establishments, it is thought this god was trying to make friends with the working man's god . but as with all religion it is all a mystery.

Their god as I said before has a few more rules, and you must attend every so often, and sing songs and get baptised in water. If you are good or if you are bad, you get placed in different places the bad as always gets placed in hell. But after that you get to half choose the destination depending on how good the worship is. You might be a worker and a lower grade of heavenly being, or you might be the overseer, or a chief adviser. Whatever your place is then you must do it. the ultimate goal is that you yourself will become the big cheese, you will be God himself, now a lot to understand and take in but the rewards are great. In the world of the gods these are known as

## THE MORONS, FROM OUTER SPACE

## JEHOVAH'S WITNESS.

This religious group are know all over the world, the door knockers. Many jokes about this god, all other gods are not to fond of this one because they take business away. You can not get drunk, have a birthday party, or celebrate Christmas . this is just to name a few, the entry is easy so long as you believe what they are saying. It is quite expensive as you have to give a tithe etc, it is the same as the morons,, sorry Mormons.

They believe what a man told them about the bible, Charles Taze Russell. He sat down with his students and prayed over the bible to let it be understood. These out of everyone actually read the bible, but like all religion read to far and took to many things out of it to provide even more confusion.

The basic belief makes complete sense, if you are looking for it spiritually .but it all breaks down when you put love to it, it makes sense but shows no love.

They believe that the creator made everything, he put Adam and eve on the earth, then they went against God and bugged it up for the rest of us. The world turned bad so the creator sent a flood for a fresh start and saved a few people. There also was a war in heaven and we got stuck with Satan, he was cast down to earth. And that is why all the trouble, we are the dumping ground for all gods shit. The creator however sent his son to show us how to live Jesus, they believe when he returns that he will kill bad people and save good people. What they fail to understand is that Jesus in not a killer and God is not a killer, he only wants to remove the evil spirits. So, the jw God is a killer but it makes sense about what they think God is. this god is extremely hard to please. The world of gods call these

THE DERANGED AND THE DELUDED.

## THE CATHOLIC RELIGION.

This one has a woman as its god, I think because the other gods are men , then lets give the girl ago. Like I said earlier the church of England was the first founded religion and then later it was changed to Catholicism, then henry wanted a bonk and changed it back to c of e. that is why a lot of characteristics of both gods and beliefs interlock. One God is a man and one God is a woman so that is why they keep arguing they do however sometimes get together for a beer ,at the Sam smiths pub just to show support for the Mormons god, or just might be checking the competition.

The main beliefs of the Catholics, again its like the church of England if you are good you go to heaven and if you are bad you go to hell. If you do sin then they have a special counter, called a rosary bead. Its like touching wood if you are superstitious. They are not to sure on the bibles sayings, somebody read it once or so they believe and what they do not understand they make it up. Their god is not that bad a god , again heaven ,hell awaits but in general he leave people alone, worship don't worship not sure really. But it keeps people happy , apart from the vicar or priest they marry the building, they can not marry a human. This is a bit strange, so I think that's why they like a beer.

But this is great because it makes life fun, this god will get drunk with you and have a fag and smoke and swear. So great value for money, just a few bob now and then, they are the wealthiest of the gods but the evangelists are catching up. At least with this religion the money does go to the top, again buying up the rooms for gods house. A good preaching system of love and forgiveness helps them to come across well. These are known in the hall of the gods as.

## THE ROLLER BEADERS.

## SCIENTOLOGY.

Now then, now we are talking, scientology it says it all in the name, you need a degree to understand it, money, or fame to join it and believe in fairies of sorts. they do have lower dominions for the working class but it will still cost you. Value for money very expensive and very time consuming, you have to be hooked up to a special machine that measures your wavelength, I think that's what they measure, this might be a secret word for something else not sure, but anyway if its big enough you're in.

They believe that your spirit is eternal and that the body is its vehicle. The spirit is called a thetan and we are the carriers of this spirit, my spirit I carry is called jack Daniels we all have our own spirit to bear, some have across.

The good thing is that these people do not believe in a deity or creed etc, you have to make your own decisions on your choice of God. This is great because its like all gods rolled into one major god. Hollywood is connected this religion, and that makes sense because in Hollywood , whoever lives their wants to be the biggest and best, so many gods here take your pick. That's why it is the most 2<sup>nd</sup> most expensive god in creation. But as the world knows you get what you pay for, and if nothing else you have the chance to ride in a spaceship.

It was started by a man called, L. Ron Hubbard in the 1950s , he was an author of scientific books and publications. His books were not selling to well then all of a sudden they took off, and the momentum of science fiction and God became one. He made lots of money and he has a steady fan base now all around the globe and he is hoping soon to venture to space. in the hall of the gods these are.

## THE CRAZY GANG.

# EVANGELISTS.

This god of the evangelists is a money god the most richest preachers in the world are evangelists. Value for money none really they tell you what you can read and charge you for it. but they do tell you how to acquire money and freedom, it's a franchise from there God who knows all about money and the power of it. this god will not take just some money of you, he will take all you have and you will give it freely, its brilliant the best pyramid scam in the world. All they say is we are keeping it safe for when he comes to collect it, that's why all the cars and houses , it says in the bible god has many rooms he will have now the evangelist are buying them all.

They do however in between stockbrokers and banking etc. preach out of the bible, Jesus is the mascot and their motto is....

## IT IS BETTER TO GIVE THAN RECEIVE.

Its bloody brilliant, tell people what they want to hear, charge them for it, say God forgives you and abetter life awaits. And money is the route of all evil, so let us look after it for you. This god is a major player he knows how to stack the chips. No come back on the preachers, God told me to do it, and this diamond bracelet was given to me as a thank you for services rendered. I can not really tell you what they believe because it is so divers. But the main teaching is how to do the biggest con the world has ever seen and get away with, because its all in the name of Jesus. Jesus loves you halleluiah, 50 bucks please. Your sins are forgiven hallelujah 100 bucks please , what about going to heaven?.. ( HOW MUCH YOU GOT?). They believe in money in the world of gods these are known as.

## THE MONEY KINGS

## THE QUAKERS.

Now the quakers, to me an amazing bunch of people and there God is most powerful, or it would be if they had one. they believe in the power of love, and a god sort of spirit. This god is real value for money he does not want anything, this god will give you money. What about that then, every business that a quaker has founded shares its money among its employees. They do something few other religions do, they practice what they preach and show it in all ways. They do not worship a god, but in reality they worship the true god, love.

This religion has mainly 2 divisions, kind of like labour and conservatives, they are just like these 2 parties only these 2 parties don't fall out, they come to an understanding. Unlike our bloody lot, and if anyone has something to say they always listen reason things out and make a decision on evidence provided.

They do believe in Jesus Christ and take his teachings as a guideline. They search for enlightenment a bit like the Buddhist monks do, without the need to chant. they strongly believe that in mankind there is good and God in everyone, they do not have a main worshiping theme like most religions they believe in letting the spirit flow and this is there form of worship, it differs a lot from other religions as they are saying do as I do not as I say.

So, if you can get in with these people, and have no job or life is getting you down, then at the moment they get full marks of me for they will help you find your way, without to much in the way of a return. I am not saying you can dick them, but they will help you in the hall of the gods these are.

## THE PORRIDGE MAKERS

# CONCLUSION.

So, there we have just a few examples of what each religion believes, there are many gods and many beliefs. Every person in the entire world can believe whatever they want to. It is up to each and every person to decide their own truth. We all live and we all die by what we believe, we all believe that we will die and we do.

None of the religious groups can agree on much? And that is up to them, in truth they are just clubs that have found a book and taken away what they want to take away and added to it what they want to add to it. It says in the bible be careful of what you add to this book or take away from it, and when you look at the world that seems to be true confusion abounds.

I've tried to find something that you could take away from this book, and something that believers and non-believers could agree on, and if the book was closed and shut, and handed back to God .and we said don't leave your bloody book lying around again, we can not understand it. The only thing that makes sense in it is love, we don't understand you. I am sure he would reply oh, I am love, when you understand what love is you will understand me.

Everyone alive can agree that love is better than evil, believers and non-believers can agree on this. Anyone alive can agree that love is good. But that is all I can find in each religion and in each belief of mankind, it's the only thing we can all agree on, if the world had more love then the world would be a better place. So, the only sensible conclusion to come to about religion and the bible is this.

A hand holding a black Bible with a gold cross on the cover against a cloudy sky with a bright sun.

**NOBODY AT  
ALL  
UNDERSTANDS  
THIS BLOODY  
BOOK?**

**UNTIL NOW!**

# The Bible Is Confused.

IT MUST BE  
NOBODY CAN  
AGREE ON IT.

WRITTEN BY MAN,  
INSPIRED BY GOD  
AND READ BY THE  
DEVIL.

# IT IS A POLYSEME?

In one of the more extreme polysemous developments, a word can take on an opposite meaning, as dust (v.) can mean to clean up small particles (dust the furniture) or to apply small particles (dust the Birthday cake with powdered sugar) Polysemy is the **association of one word with two or more distinct meanings,**

and a polyseme is a word or phrase with multiple meanings. The word "polysemy" comes from the Greek for "many signs." The adjective forms of the word include polysemous or polysemic. In contrast, a one-to-one match between a word and a meaning is called "monosemy."

THIS BOOK HAS MANY  
MEANINGS, BUT ONLY ONE  
TRUTH.

IN THE BIBLE THERE ARE 3  
STORY'S.

1<sup>st</sup> story is mythical and spiritual.

2<sup>nd</sup> story is the true story of creation and  
links to reality.

3<sup>rd</sup> story is a new story ready to be lived.

# GO, COMPARE A GOD.

Now then, I have come up with an idea that would save a lot of time when you are thinking of joining a god. Most people wait for a knock at the door and this gives them opportunity to say that God sent them. And before anyone knows it a few quid gone and if you leave, you go against God. So, I am setting up go compare your god.

## GOD OF THE YEAR AWARD.

# THE QUAKERS GOD

(This god does not take a front seat, just his principles)

This god and faith, beats every other god hands down these people have understood the bible and God. They have taken away from it all the good and left the bad behind. They share if you want a few bob they will lend it you. They always look for the good in people, no real worship involved. They rejoice in truth and allow for other people's views. No real hardship , just do good, anything that goes against love they wont look at. They move with the times, you don't have to dress like Charles dickens anymore .well done the quakers.

# WHAT IS LOVE?

Love is kind and generous, love holds your hand and love hugs you when you are feeling upset. Love takes care of you and sends you on your way happy. Love cries with you and it laughs with you love wants to be your best friend.

Love always looks out for your interests, love will do whatever it takes to keep you safe. It applauds when it sees good deeds and it is sad with bad deeds.

Love will not get puffed up or angry, love understands everything. Love listens and agrees and then only tells you its opinion if it will help.

Love knows what to do in any situation , it thinks it reasons and it learns .love loves everything and everybody, because it only sees the good in people.

Love hates as well, love hates it when people die, or when people cry. It hates to see killing and sadness and love will not boast, love will die for you and not want any thanks because love loves you .love is everywhere, it takes its child to school. It works hard to keep its family, it tells its mum and dad how much they mean , and it loves its children. Love makes mistakes but always says sorry.

Love is the nearest thing to perfection. Because love makes everything perfect.

The paper back version and extended e book offers more insight and features up and coming new beliefs and religions.

There are some promising new gods on the horizon. But as with all new businesses, some will fold and some will succeed. The long-established churches have a firm grip. The evangelist will buy them up most likely.
