# September's "IMAGE":

## — SUN —

I dug out an old book this month. I'll show it to you guys. Older VG fans might remember it.

Other than that, got a fun premium decklist to share, as well as the last of the clan tag designs, and the finished acrylic energy stand designs. In other news, I won a premium shop challenge !

Genesis premium decklist  
- @dragon8blade

This is a fun decklist I put together so I could try a new sort of Genesis deck, while revisiting older cards that I felt were under-utilized due to the Genesis card pool being so... varied

It ended up being a sort of casual hybrid deck of sorts. I don't think it's a perfect list, even within the scope of its own goals, but I've had fun with it, and perhaps I'll revisit it later. For now, please enjoy this Yata/Fenrir list I cooked up for fun.

Special Monthly Bushiroad Issue:  
THE Kai Toshiki Book (an archive)

It's from 2014 and over 10 years old now so, I think it's fair game for some sort of preservation efforts. The whole thing consists of a booklet, a deck, and some promotional stuff.

Released sometime around the Legion Mate - Neon Messiah time of things

Deck had an exclusive legion pair we never got in EN

Full scans available on request while I find some place to dump pics of this online that isn't my own G-drive.

Some highlights here (and the contents list):  
There's also some anime recaps and an interview  
with Takuya Satou and Akira Ito!

砂糖: 小さじ1/2杯  
片栗粉: 大さじ1杯

「レギオンメイト編」の第169話で權が作った特製カニあんかけチャーハン。そのレシピを調理学校の本格監修の下に完全再現! 權のアドバイスをしながら、ぜひお家のキッチンで作ってみてね!!

キミも作ろう!

權のあんかけチャーハンを

1

### 材料を下準備しよう

材料をすぐに使えるように、あらかじめ用意しておこう。ネギは小口切り、しょうがはみじん切りに。カニは飾り用を残して身をほくしておく。片栗粉は水大さじ2杯(分量外)で溶いておこう。卵は割って泡立ておくといいぞ。レタスは洗って一口大に手でちぎっておこう。

カニが用意できないなら  
カニかまぼこを  
使ってもいいぞ

2

あとであんをかけるので  
チャーハンの味付けは  
控えめにすること

### ご飯を炒めてチャーハンを作ろう

いよいよチャーハンを作るぞ。まずフライパンを熱して油を引く。ご飯を炒める。ダマにならないよう、よくほくほくしておく。卵を半分入れてご飯全体を混ぜたら、残りの卵を入れてさらに炒める。全体がムラなく黄色くなるように炒めるのがコツだ。よく火が通ったら、塩・こしょうで控えめに味付けしよう。作り終わったら、余熱を避けるため一旦ボウルによけておこう。

3

片栗粉を入れた後  
必ず再沸騰させろ!  
照りが変わってくるからな

### 香味野菜を炒めてあんかけを作ろう

次はあんかけを作るぞ。フライパンにごま油を引き、ネギとしょうがを炒める。このとき非常に焦げやすいので、慎重にやろう! 香りが立ったらカニと中華だしを入れて炒め、砂糖、しょうがで味付けする。沸騰したら全体をかき混ぜながら、水溶き片栗粉を入れて、均等にとろみをつけよう。

### 盛り付けたチャーハンに あんかけをかけて飾り付けだ

4

いよいよ完成間近だ! まずはボウルによけておいたチャーハンをお皿に盛り付けよう。そしてチャーハンにあんをかけて、飾り用のカニとレタスを飾れば……完成だ!!

### 5 できあがり!

どうだ うまそうだろう?  
お前もぜひやってみてくれ

AND YOU  
THINK I WOULDN'T  
HAVE NOTICED  
THAT?!

Things Fenrir didn't notice/ignored that day:

- Initial presence of the sword
- Stride mana overflow
- Self-sustained injuries
- Everything happening outside the ruins

# Clan ribbon tags:

(Pt 7, the last of them; I do not play/like control clans much and it shows)

What's next? Well, for one, many have asked me if I would do nation tags. I probably won't, because 1. Bushiroad has those. 2. I feel that the aesthetic identity of an entire nation is way too broad to condense into a single tag, and I think I would much rather do specific vanguard or subclan/archetype color variants of the clan tags (technically already done this for Shadow Paladin and Angel Feather).

Keep an eye out for future announcements of events I'll be at, or other clan tag giveaways I might hold online!
