Your Fast Track to Becoming a *Chartered Accountant*

The Master of Accounting (MAcc) programme at the University of Galway offers a fast-track to becoming a chartered accountant, aligning closely with the Chartered Accountants Ireland (CAI) syllabus. **Graduates receive full exemptions from CAI's CAP2 examinations**, assuming they have exemptions from CAP1 exams before starting the MAcc. The programme has a strong track record of success, with alumni achieving top positions in professional exams

A distinctive feature of the MAcc programme is its two specialised summer schools held in May/June, which cover contemporary topics delivered by industry leaders.

In 2024, KPMG led a summer school on "Analytics in Accounting and Auditing," focusing on software and cognitive technologies for data analysis in accounting, while Barry Gavin (Chairman of FuturEnergy Ireland) presented "Financing Net Zero," emphasising the financial sector's role in corporate sustainability and the transition to Net Zero.

The MAcc programme not only imparts advanced accounting knowledge but **also enhances interdisciplinary and interpersonal skills critical for professional success**. With an emphasis on small class sizes, the programme offers personalised support and mentoring from lecturers, along with opportunities for developing collaborative skills valued by employers.

Why choose this course?

- **Reputation and Location:** Study at a top-ranked university in the vibrant city of Galway, known for its lively cultural scene and strong community spirit.
- **CAI Exemptions:** Fast-track your path to becoming a chartered accountant with full CAP2 exemptions from Chartered Accountants Ireland (CAI) exams.
- **Proven Graduate Success:** Join a programme where graduates consistently achieve top positions in professional exams, demonstrating the high quality of education.
- **Specialised Summer Schools:** Participate in cutting-edge summer schools, such as Analytics in Accounting and Auditing by KPMG and Financing Net Zero by Barry Gavin.
- **Supportive Environment:** Benefit from a small class size for personalised support and mentoring, with strong industry connections leading to diverse career opportunities.
- **Employer Sponsorship:** Many students receive sponsorship and subsequent employment from leading firms such as KPMG, PricewaterhouseCoopers, Deloitte, and EY.

Summer Schools

Learning delivered by *Industry Leaders*

Summer school #1:

Analytics in Accounting and Auditing, delivered by KPMG (2024)

Last year's summer school aimed to give participants a rich understanding of the use of software and cognitive technologies to analyse audit and accounting data. The summer school demonstrated KPMG tools which were developed to harness the power of technology and bring greater vigour, precision and meaningful insights to the increasing age of data. Students were provided with an opportunity to see how data and analytics are used in a practical setting, bringing meaning, life and understanding into accounting information.

Summer school #2:

Financing Net Zero - delivered by Barry Gavin Barry Gavin - Chairman of FuturEnergy Ireland - (2024)

The objective of this summer school was to enable students to be able to hold their own with professionals working in the sustainability sector by developing a knowledge of the concepts, language, structures, process, risks, challenges and opportunities for corporate sustainability. In particular, students learned to appreciate the role that finance has in enabling the transition to Net Zero.

Exploring the Master of Accounting

Testimonials

“ The Master of Accounting degree at University of Galway has been incredibly valuable to my career. The course gave me the opportunity to develop various skills such as research and writing skills from attempting various assignments. As well as this the module “Skills for Accounting Research and Practice” gives students the opportunity to review case studies which I am sure will be of an advantage to me when sitting my FAE’S. The course is taught by a number of brilliant lecturers who have vast amounts of experience in their fields. Each lecturer puts so much time and effort into the preparation and delivery of each module. They provide you with some brilliant real-life examples, drawing on their own experience, making it very easy to understand and apply the content.”

Alisha Mullins

Audit Associate
Deloitte

“ This programme offers insightful information on what a professional accountant does. It gives you the abilities you need to succeed as an accountant when you enter the workforce and you are able to gain full CAP 2 exemptions as a result of taking this course. The modules are both challenging and engaging. The J.E. Cairnes Building has excellent facilities, and the resources offered are excellent. The lecturers and teaching staff go above and beyond to assist students with any problems or concerns that may occur. They are always eager and willing to do so. Being awarded the J.E. Cairnes scholarship has greatly reduced the financial strain brought on by the cost of the course. I would highly recommend this course to anyone who is considering it. “

“ Since its inception, KPMG has sponsored students on the Master of Accounting programme. We are delighted with the results. In its graduates, KPMG looks for rounded individuals with well-developed thinking and interpersonal skills. We really notice these skills in those who have completed the Master of Accounting at University of Galway. It is the combined focus on technical skills development and personal development that we believe prepares students well for a career in business ”
