How to get the best out of the exhibition

This is a moment in your life when you have the opportunity to explore new horizons.

With over 120 exhibitors all keen to talk to you and share their knowledge and experiences, be curious and investigate!

If you have no idea about your choice of career, then it is up to you to wander and **be inspired**. If you have a general idea of the pathways you want to follow, then use our [list of exhibitors](#) to guide you. The list can be organised into alphabetical order or in booth number order.

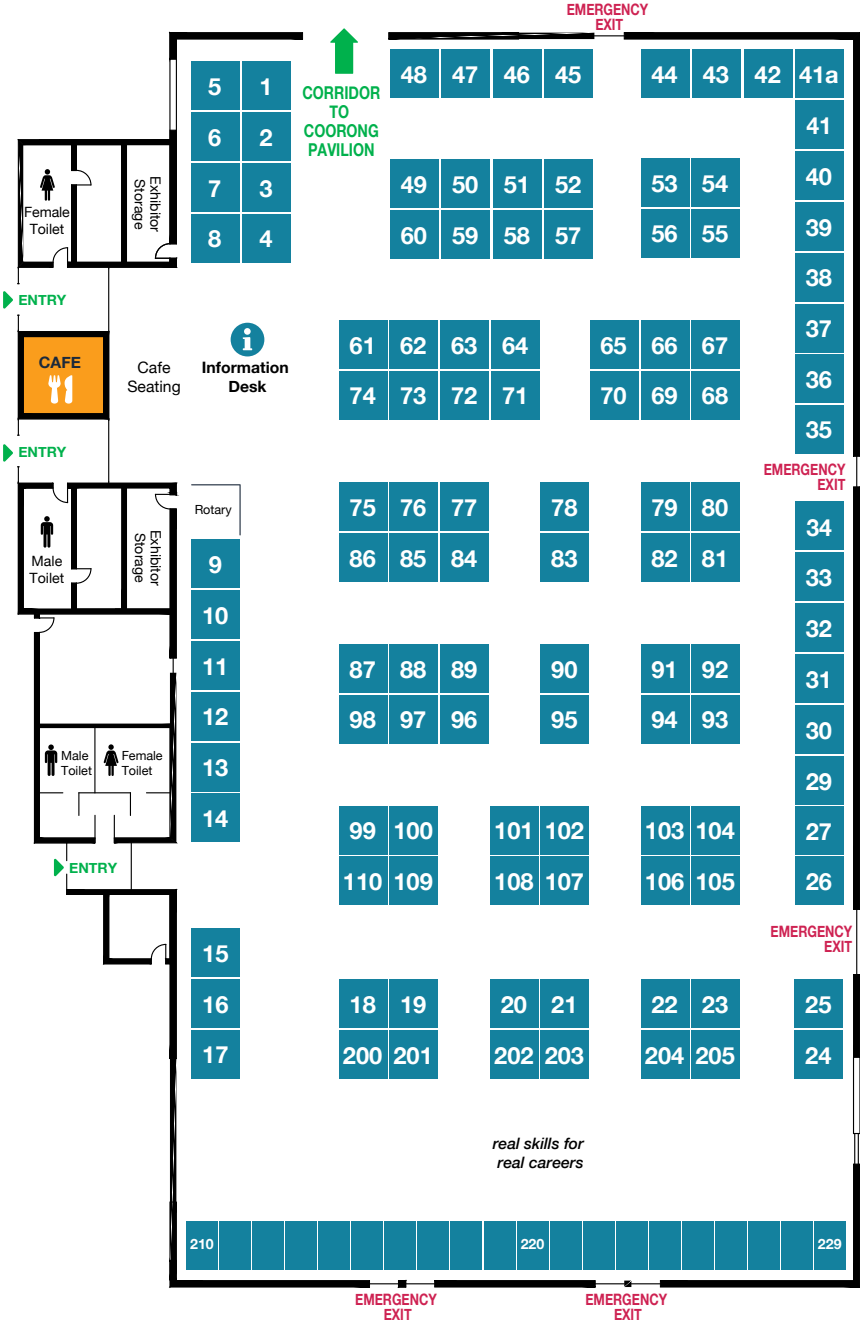

We encourage you to **engage** with the exhibitors and use your time efficiently. They often have had a wide range of job experience themselves or have done a course that you might be interested in.

You may not be able to get around to all of the booths so pick your favourites and **discover** something new!

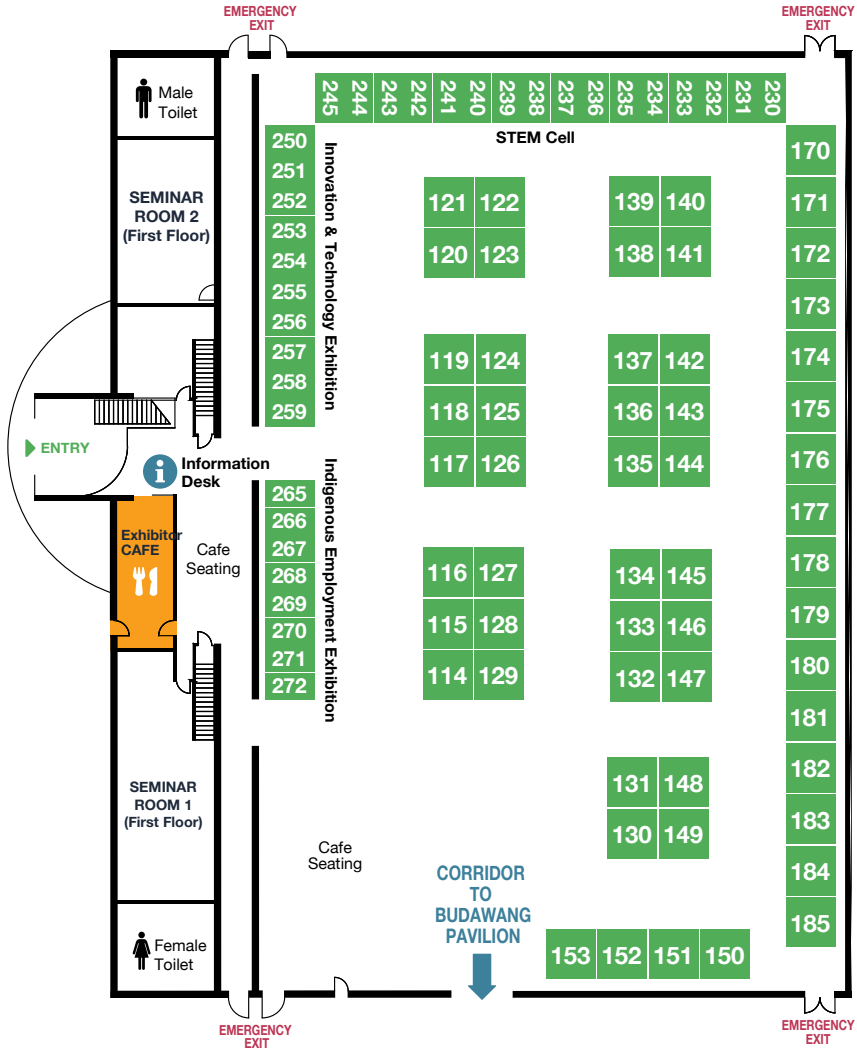

If you miss a favourite exhibitor during your visit, you can visit the [Virtual Expo Hall](#) where there are links to the exhibitors' websites and social media. You can also filter the list of exhibitors in the Expo Hall by category i.e. universities, hospitality, apprenticeships etc.
