DOMETIC ON THE WEB

Here's where you can find the complete Dometic range, with detailed information about all products. Plus, interesting facts about our company and download links for all our catalogues.

DOMETIC.COM/PROFESSIONAL

MINI

BARS

PIONEERING INDUSTRY.

GIVE YOUR GUESTS AN UNFORGETTABLE STAY

You will find more Dometic minibars and safes than any other make in first-class hotels across the world. Why? Know-how accumulated more than over 50 years, a track record of innovation as well as leading design solutions are the three main reasons.

The top of the line Dometic HiPro Evolution and Alpha range minibars are developed with your business experience in mind. A sustainable minibar is a smart minibar. The HiPro Evolution range is just that. Boasting precise temperature control, world-class efficiency and the best minibar cooling capacity, the premium Dometic HiPro range ensures chromate-free absorption technology checks in for a clean, sustainable future in your hotel.

Our modern and energy-efficient range of noiseless drawer minibars (Dometic DM 20 drawer minibar).

Contents, specifications and availability are subject to change in the interests of technical improvement.

THE HOTEL AGAIN.

Dometic HiPro minibars
The next generation of minibars

The state-of-the-art design of Dometic HiPro will help you create a premium in-room feeling. With sleek design, elegant illumination and crystal clear doors, invite your guests to treat themselves to something special.

Sustainability checking in

Sustainability means doing more with less. It's a philosophy we put into action with outstanding energy efficiency and the first chromate free minibar range on the market. A sustainable minibar is a smart minibar. The all new HiPro range delivers more powerful cooling with up to 40% less energy consumption, making a visible difference in OPEX for hotel owners.

Dometic drawer minibars
Unique design, outstanding construction

Our drawer minibars are a class of their own in terms of design, size and functionality. Noiseless cooling, convenient slide-out access.

DRIVING SUSTAINABILITY IN OUR INDUSTRY

After recently having been granted the "Most Efficient 2024" EnergyStar certification in the USA, Dometic also scored the "Leader Level" for its minibar products in the MindClick Sustainability Assessment Program (MSAP) of the hospitality sector. These accomplishments stand as a testament to the dedication and hard work of our exceptional team. We are committed to maintaining and even elevating our efforts in driving sustainability in our industry.

More and more hotel guests today expect a sustainable travel experience. Dedicated to a more sustainable lifestyle, they seek to reduce their overall carbon footprint – including that of their travels. When it comes to choosing their holiday accommodation, they are likely to prefer hotels that share their mindset. The MindClick Sustainability Assessment Program (MSAP) helps traveller and hotel brands to make well informed decisions in the jungle of labels and certifications.

The MindClick methodology rates candidates into three levels based on their scores: Starter, Achiever or Leader. Dometic achieved notably high scores in the rating, with emphasis on hotel impact, end-of-use considerations, packaging, and social/environmental aspects of production. That means that Dometic minibars are currently performing at "Leader Level", which is not only an achievement we are proud of, but also a motivation to keep up our efforts in developing sustainable solutions for the future.

DOUBLE STAR AWARD

In addition to numerous other international awards, the Dometic HiPro minibar generation received the golden Star Award in the Food & Beverage category. This well-known award is voted by readers and decision-makers in the hotel industry and thus sets a clear exclamation mark behind this latest generation of minibars.

The Dometic MoBar was also successful and received the gold Star Award in the Technology category.

DOMETIC MINIBARS

Always at your service

Premium can't be measured. It's all about the first impression, elegant design, and the silence that your guests appreciate. What can be measured is efficiency. With improved cooling performance and up to 40 % lower energy consumption, it's clear to see why the HiPro range is considered the world's best minibar. After more than 50 years in the hotel business and 6 million installed units, we're proud to say that we're pioneering the hotel industry. Again.

1. COST REDUCTION
The new HiPro offers best-in-class energy efficiency – no matter which cooling technology is used.

2. SUSTAINABILITY
We work hard to achieve even lower footprints within manufacturing as well as energy consumption.

PIONEERING THE HOTEL INDUSTRY. AGAIN.

We believe in sustainable innovation for a better guest experience.

3. GUEST EXPERIENCE
HiPro will not only deliver premium cooling performance – it is also an attractive and sales promoting feature in the guest room.

4. STRONG PARTNERSHIP
After more than 50 years in the hotel business we have a strong promise to ensure care free maintenance.

COOLING TECHNOLOGY

Dometic HiPro minibars are available with three different cooling technologies: absorption, thermoelectric, and compressor cooling. All have been improved and refined in the new HiPro range with the best cooling capacity and lowest energy consumption on the market – up to 50 % less compared to standard units.

- Improved cooling performance
- Best-in-class energy efficiency
- Sustainable production and footprint
- Global sales and service network

1. ABSORPTION
Up to 40 % lower energy consumption.

2. THERMOELECTRIC (NTE)
Up to 20 % lower energy consumption.

3. COMPRESSOR
Up to 50 % lower energy consumption.

NEXT GENERATION MINIBARS
DOMETIC HIPRO

WE DEVELOPED HIPRO WITH HOTEL GUESTS IN MIND

A well-stocked minibar is an expected and appreciated hotel room feature for well-traveled hotel guests. Let's have a deeper look at some outstanding features we offer to the market with the all-new HiPro minibar generation:

Intelligent modular system to choose between cooling technologies: Economical thermoelectric, long lasting powerful absorption cooling (chromate-free) or compressor cooling technology.

Menu Celebrating Illumination for highlighting your minibar menu (Evolution line only)

Improved usability: Optimized interior for flexible arrangement of the minibar assortment.

Adjustable shelves at door opening angle of 90 °; maximum door opening angle 120 °

Door shelves to fit 1.5 l bottles.

Optional Locking Function (Evolution line only)

Aluminium handle (Evolution line only)

First class energy efficiency and silent cooling thanks new CPC logic (Continuous Performance Control System) with new adaptive control technology.

Unique clip & click sliding hinge for easy assembly.

Easy-to-clean, new look interior with hygienic, smooth surface without grooves and joints.

Frameless glass door

High quality tempered glass door shelves with decorative stainless steel trim. (Evolution line only)

1 Lower energy consumption

Dometic's new HiPro range will reduce energy consumption by up to 50%.

2 Premium guest experience

New HiPro will be an attractive and sales-promoting feature in the guest room.

3 Improved cooling power

Improved cooling capabilities with updated and optimized functionality.

4 A strong partner

With more than 50 years of experience and more than 6 million installed units; we are a proven partner.

TIMELESS CLASSIC
HIPRO ALPHA

Many business travellers are constantly on the move living a suitcase life. Most days represent hard work with long hours – arriving late to the room preparing for the next day's meeting while burning the midnight oil. That's why the minibar is a much-appreciated feature offering cold beverages and energizing snacks. For the leisure tourist, the hotel minibar is an opportunity to enjoy a cold beverage at the late arrival check-in, after a long city excursion and while getting ready for a fun night out – or perhaps waking up with a need to quench the thirst.

VENTILATION GUIDELINES

HIPRO MINIBARS AND HIPRO CARE MINIFRIDGES

Dometic absorption fridges are equipped with an electrically heated cooling unit which is virtually silent in operation. The heat which the cooling unit extracts from the refrigerator interior is emitted at the back of the fridge. If you have a free-standing model, sufficient ventilation is provided in most cases. If you want to integrate the fridge into a piece of furniture, however, the following instructions need to met.

Please note that there must be sufficient room for ventilation behind the refrigerator to prevent heat build-up. During installation, make sure that the refrigerator is standing on a stable, level surface, and not directly near a heat source.

You can find all our documents, manuals and guidelines at documents. dometic.com.

SAF

ES
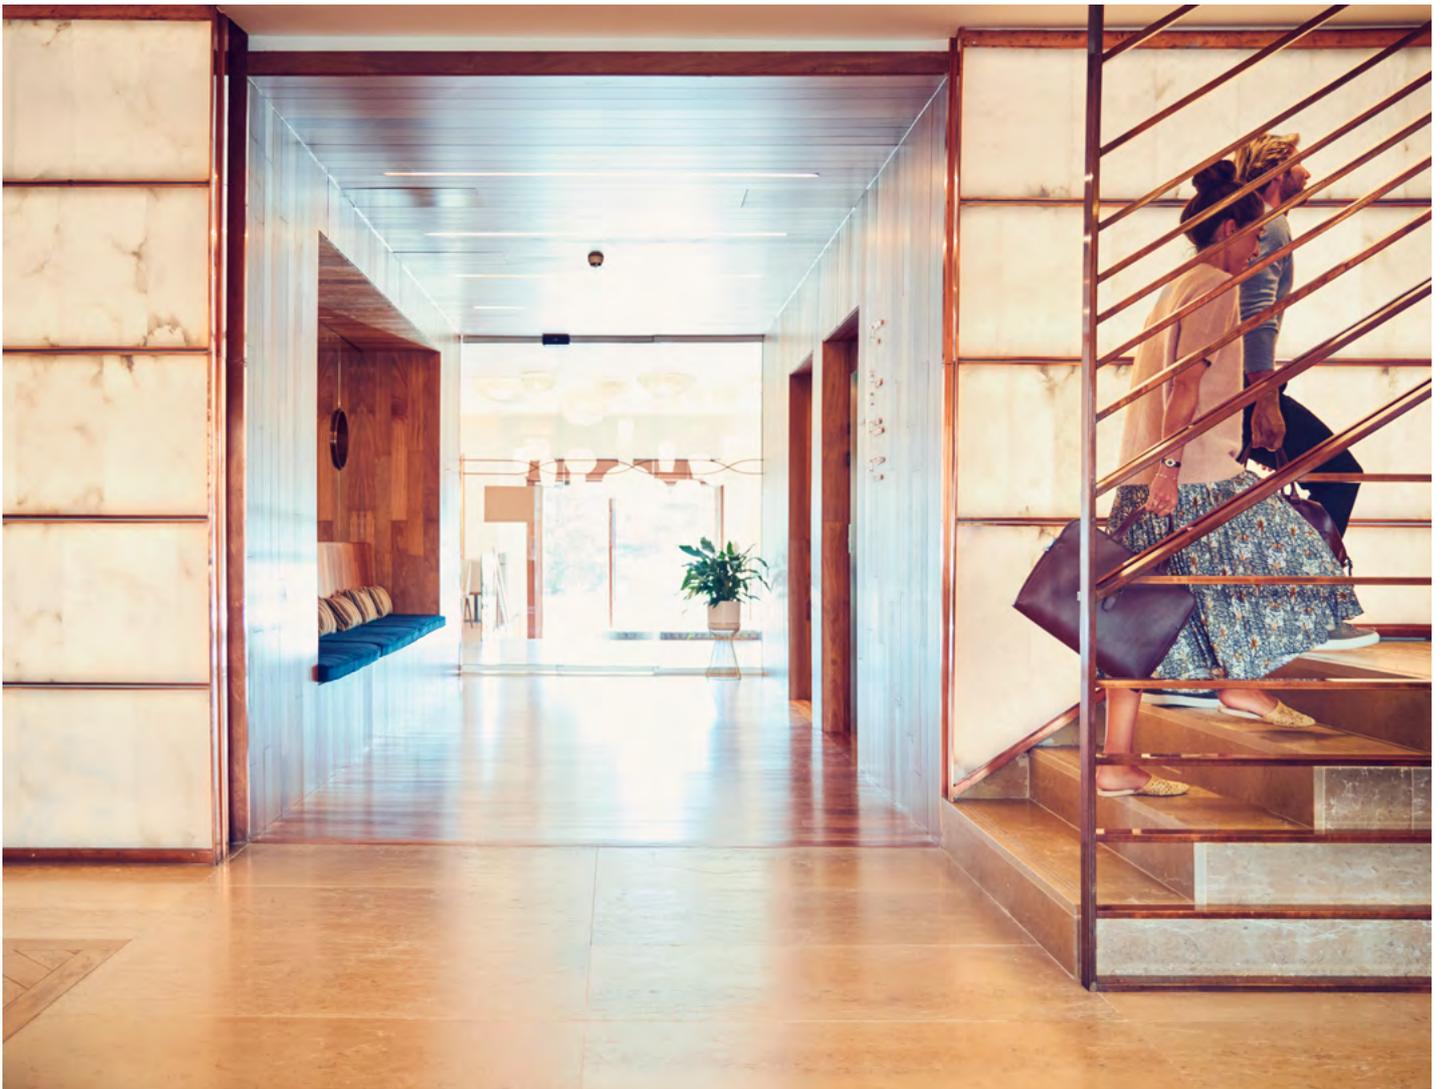

FROM STANDARD TO PREMIUM

The range of Dometic proSafe models

Security is an essential requirement for hotel guests, and one of the main reasons for choosing or discarding a destination and a hotel. The Dometic Group aware of this, is always developing and improving all of its products in order to meet the needs of customers.

The latest product innovation Dometic has launched is a proSafe range which goes one step further in terms of design, functionality, technology and security. This proSafe range has a very modern design with a color display, an illuminated keypad, the latest anti-tampering system and a new website platform which offers the possibility to operate the safe with the strictest security. The elegant cabinets of the new proSafe generation have rounded corners and edges for enhanced safety. Contemporary design.

- Master key
- LED interior light
- iAudit system – unique in the industry
- Remote Emergency Opening System (REOS 2.0)
  – ultimate security and user comfort
- Battery level check

Premium Class

Excellence in form and function: Dometic innovations like iAudit tracking and the REOS Remote Emergency Opening System ensure security on all levels.

Standard Class

High security level combined with easy operation for perfect comfort and convenience.

PRODUCT FINDER – THE QUICK WAY TO FIND THE RIGHT PRODUCT

Laser-cut door

Our doors are precisely cut and crafted by a laser beam. This allows us to achieve 100% accuracy in dimensions and an extremely small clearance between the door and casing, making the door impossible to pry open.

Anti-Tamper system

With the anti-tampering system, Dometic offers a unique security feature for their models. All anti-tampering manipulation attempts are recorded in the electronic of the safe and can be tracked back at any time.

REOS code

REOS stands for Dometic's Remote Emergency Opening System. The emergency-opening system from Dometic is based on an innovative encoding system. The unique solution combines advanced electronics with state-of-the-art online technology to allow simple yet highly secure emergency opening by authorised hotel staff.

Premium iAudit

All operations effected on a safe must be documented – for your own security and for your insurance provider. This is where

Dometic's Premium iAudit system offers a truly convenient solution: the integrated microchip provides storage capacity for the last 1,000 events.

SAM

The unique Dometic safe management system (SAM) allows for iAudit Trail and one time emergency code generation (REOS) from a user friendly but PIN secured internet based software tool.

SAFE TO SAY IT'S MORE CONVENIENT

PREMIUM CLASS IN-ROOM SAFES

DOMETIC PREMIUM CLASS SAFES

Protection for more privacy – comfortably and with absolute reliability. With a Dometic Premium Class proSafe, a hotel room becomes a perfectly private haven for the guest. A safe place for storage, conceived and implemented according to the newest standards. Its innovative and customisable design suits every hotel in a stylish way. Smooth surfaces and rounded edges make it easy to look after and give it long-lasting character. A color display and the integrated soft-touch keypad make operation easy. And a Premium Class proSafe

also breaks new ground when it comes to protective properties: pioneering technology like the unique iAudit and the anti-tampering system ensure security on all levels. The demand for contemporary security systems with added convenience is supported by special features such as REOS 2.0 software with its emergency code-opening system (optional).

- LED interior light
- Laser-cut door and frame
- iAudit for convenient documentation
- Emergency opening with key and master code
- Remote Emergency Opening System (REOS 2.0)
  – ultimate security and user comfort (optional)

WIDE CHOICE OF MODELS AND SIZES

DOMETIC STANDARD CLASS SAFES

Robustly made with user-friendly features and functions

It puts hotel guests' mind at rest to have a safe place for their valuables while travelling. Providing a secure space for important or valuable objects yet it is a distinctive feature when choosing a hotel room or suite. With a Standard Class proSafe, you can create a reliable spot in a guest room that is worth every penny. Security and functionality are paramount with all Dometic safe models. The Standard Class safe models offer your guests a high level of security thanks to their robust construction. Their simple and intuitive usability provides perfect comfort and convenience.

- Robust and reliable
- LED display
- LED interior light
- Master key and master code emergency opening
- Wide choice: vertical, horizontal, top-opening

DOMETIC PROSAFE MDL – VERTICAL OR HORIZONTAL

MDL 408

MDL 193

With quality and security at their core, these value-for-money in-room safes significantly enhance the security of existing hotel rooms.

- Value-for-money solution for upgrading hotel rooms
- Vertical or horizontal model – both with 18.4 litres capacity
- Easy installation inside a cabinet or on the wall
- Emergency opening with master code or master key
- Battery-low warning alerts users to change battery

DOMETIC PROSAFE MD 310 / 390 / 450
SAFE INVESTMENT

The doors on all the Standard Class safe models are precisely cut and crafted. Their robust construction and a locking system with extra-strong steel bolts leave no point of attack for burglars. The LED interior light minimises the risk of forgotten valuables. Fast and secure emergency opening is possible with a master key or master code (depending on the model).

- Robust, reliable construction for optimal safety
- LED interior light makes the contents visible at a glance
- Emergency opening with master key or master code

DOMETIC PROSAFE MDT TOP-OPENING SAFE

Part of the Dometic Standard Class range, the Dometic proSafe MDT 400 X top-opening safe provides a simple, yet ingenious solution that is easy to operate and safe to use. The top-opening drawer safe can be integrated in an existing furniture drawer and provides easy access to guests' valuables. At the same time it meets the highest demands on ergonomic design, comfort and security with an LED inside light for standard, master key and master code opening possibility in case of emergency, digital LED illuminated keypad, four-digit code and top-opening stabilizer arm. An audio signal confirms that the safe is securely locked.

- Convenient access from above
- LED interior light makes the contents visible at a glance
- Enough room to fit laptop and tablet computers
- Ideal for installation into existing hotel room drawer
- Stabilizer arm for smooth opening and closing of the lid

Easy operation
The operation is easy to understand and explained via the pictogram.

Handle
Integrated handle for easy opening and closing.

Light the way
Standard LED interior lighting.

Soft close
Muted door closing.

KEY FEATURES

A PERFECT WINE EXPERIENCE

For optimal serving temperature, select one of five pre-set options, professionally tailored for different types of wine: 5, 8, 11, 14 or 17 °C.

COMPACT WINE STORAGE

The Dometic DrawBar is always close at hand and fits up to five bottles, from long Riesling to large Champagne.

CONTROLLED STORING ENVIRONMENT

Powerful and efficient compressor cooling technology with electronic controls. Humidity-control tray further improves the storing environment.

DESIGNED TO STAND OUT

Soft illumination elegantly showcases your wine bottles and adds a touch of luxury to your kitchen.

PERFECT FIT

The Dometic DrawBar fits standard 60 cm wide cabinets. Glass or custom front panels ensure a refined and coordinated finish to your kitchen design.

BUILT-IN UNDER COUNTER WINE COOLERS

A wine cooler that fits your lifestyle

Store your treasured wine collection in optimal conditions and allow it to take center stage in your home. Dometic wine coolers provide perfect conditions for wine storage and fit seamlessly in any home. The well-engineered cooling technology ensures that the chosen temperature is quickly achieved and reliably maintained. An effective air circulation system and automatic humidity control create the perfect climate for the wine to unfold its full bouquet and flavor. The minimalistic look of the Design range and sleek design of the Classic range of Dometic wine coolers can easily fit any space and provide optimal storage for your wine collection.

KEY FEATURES

DUAL ZONE
Preserve wines in two separate temperature zones (upper zone 4 °C–12 °C; lower zone 12 °C–22 °C).

BUILT-IN
Perfect for under-counter installation.

MINIMALISTIC DESIGN*
Fully black exterior with slim handle that discreetly fits under the counter.

CLASSIC DESIGN**
Stainless steel details that match the aesthetic of other appliances in the kitchen.

PRESENTATION LIGHTS
Showcase your collection by softly illuminating the bottles in each temperature zone.

BUILT-IN LARGE CAPACITY WINE COOLERS

Optimal storage environment

For wine to unfold its full bouquet and flavor, both the storage conditions and the serving temperature must be right. Dometic wine coolers ensure the optimal environment for unlocking the wine's full flavors and character. The temperature is accurately controlled thanks to electronic regulation and a constant humidity level is maintained between 50–70% ensuring the corks don't dry or mold. A fan circulates the air inside the wine cooler while the integrated carbon filter eliminates any potential odors. The "low emission" treatment of the triple-glazed doors on Dometic wine coolers stops ultraviolet rays that can damage and change the character of the wine.

KEY FEATURES

DUAL ZONE
Preserve wines in two separate temperature zones (5 °C–22 °C).

FREE-STANDING WINE COOLERS

Precise and stylish storage for your wine

As well as excellent wine storage, a Dometic free-standing wine cooler is an attractive addition to any home. It has a classic design, with stainless steel accents and a recessed handle on the side of the door. The 3-layer glass door protects wine from damaging ultra-violet light. It stores up to 75 bottles of wine at the perfect drinking temperature (5–22°C). Coated racks safely hold each wine bottle. Its well-engineered heating and cooling technology ensure your chosen temperature is quickly achieved and reliably maintained, while an effective air circulation system creates a perfect climate for ageing your wine to unfold its bouquet and flavor.

KEY FEATURES

STORE AND AGE WINE

Provide the perfect climatic conditions for wine storage and ageing.

COATED WINE RACKS

Six coated racks are shaped to securely cradle each wine bottle.

SINGLE TEMPERATURE ZONE

Single-zone wine cooler stores wines at temperatures between 5 °C and 22 °C.

SLEEK DESIGN

Control settings are conveniently and neatly integrated into the door.

UV PROTECTION

Triple pane glass door protects wine from damaging ultra-violet light.

SOFT ILLUMINATION

White LED light softly illuminates the black interior and showcases the bottles inside.

MO

BAR

DOMETIC MOBAR 550

Dometic MoBar 550 is the ultimate mobile beverage center. It comes with accessories inspired by professional bartenders, and allows you to comfortably host large groups of people in your outdoor living space. With its spacious presentation and preparation area, robust stainless-steel design, heavy-duty wheels, and ergonomic handles, the MoBar can be placed at the heart of any outdoor event.

Adjustable temperature settings and dual-zone cooling provide versatility, while the generous storage capacity of its main compartment can hold up to 39 bottles or 113 cans. Up to additionally 22 bottles or 32 cans can be stored in an insulated rotomoulded ice basket, so you need never worry about running out of chilled drinks.

KEY FEATURES

MODULAR DRY STORAGE

Large dry storage area to keep everything you need within easy reach.

LARGE COLD STORAGE CAPACITY

Dual-zone refrigerator compartment comfortably holds up to 39 bottles of wine.

PROFESSIONAL ACCESSORIES

Developed in collaboration with professional bartenders.

SUPERIOR ICE RETENTION

Rotomolded presentation basket will keep bottles ice-cold.

MOOD ENHANCING LIGHTING

Keeps drinks visible, accessible, and looking enticing.

SPACIOUS PRESENTATION AREA

Prepare, mix, and present like a professional.

DOMETIC MOBAR 300

Dometic MoBar 300 is the mid-sized model of the series. It allows you to easily entertain friends and family on your patio. With its extension table, robust stainless-steel design, heavy-duty wheels, and ergonomic handles, the MoBar can be placed at the heart of any outdoor event.

Adjustable temperature setting and a space-efficient refrigeration compartment that can hold up to 19 bottles or 70 cans. Up to additionally 22 wine bottles or 32 cans can be stored in an insulated rotomolded ice basket, so you never need to worry about running out of chilled drinks.

KEY FEATURES

CONVENIENT COLD STORAGE CAPACITY

Refrigerator compartment comfortably holds up to 19 wine bottles or 72 cans.

SUPERIOR ICE RETENTION

Rotomolded presentation basket will keep bottles ice-cold.

DRY STORAGE

To keep everything you need within easy reach.

MOOD ENHANCING LIGHTING

Keeps drinks visible, accesible, and looking enticing.

SPACIOUS PRESENTATION AREA

Prepare, mix, and present like a professional.

DOMETIC MOBAR 50

The Dometic MoBar 50 is the most compact model of the series. Its size makes it perfect to easily entertain an intimate group of people on a terrace, balcony for any get-together or pop-up event.

Its spacious presentation area and robust stainless-steel design, heavy-duty wheels, and ergonomic handles allow the MoBar 50 to be placed at the heart of any outdoor event. Up to 22 wine bottles or 32 33cl cans can be stored in its insulated rotomolded ice basket, so you need never worry about running out of chilled drinks.

KEY FEATURES

SUPERIOR ICE RETENTION
Rotomolded presentation basket will keep bottles
ice-cold.

EASY TO MOVE
Always where you need it.

AMPLE STORAGE AREA
To keep everything you need within easy reach.

THE DOMETIC DELIBOX

Chef approved

Dometic is launching an unconventional transport box which can preserve the restaurant quality and temperature of the food until it reaches the customer. The product, the Dometic Food Delivery Box is currently in development, and will provide a better method of home delivery of prepared food and open up business opportunities for restaurateurs and transport companies, allowing them to enter into the ever growing food delivery business. The box, which is mounted on mopeds and motorcycles, has both heating and cooling elements that keep the food warm or cold and maintain the restaurant quality of the dish under transportation until it reaches the consumer.

iF DESIGN AWARD 2022

CLEAN AIR
DeliBox is equipped with cold plasma surface disinfection technology that reduce bacteria build-up & smell.

CONNECT-EN-ROUTE
Keep track of every delivery and monitor the temperature during transport.

TEMP PERFECT
Active warming and cooling ensure correct temperature of all food transported and food safety.

DUAL TEMP
Dual temperature zones with active temperature control. Transport both hot and cold dishes at the same time.

Dometic DeliBox

Active heating guarantees ideal food temperature

- Active warming ensures the correct temperature of all food transported and food safety
- Dual temperature zones. Transport both hot and ambient dishes at the same time
- DeliBox is equipped with cold plasma surface disinfection technology that reduce bacteria build-up & smell
- Food graded interior guarantees that the inner compartment is approved and safe for food use
- Can be mounted on most mopeds, scooters, and motorized vehicles
- Outer dimensions: W500 x H560 x D611,5 mm
- Inner dimensions: W422,4 x H482,5 x D425 mm
- Volume: 87 l
- Weight: 18 kg

Dometic DeliBox dual

Dual compartment system – Separate heating and cooling areas

- Active warming and cooling ensures the correct temperature of all food transported and food safety
- The connectivity feature keeps track of every delivery and monitors the temperature during transport
- Dual temperature zones. Transport hot and cold dishes at the same time
- DeliBox is equipped with cold plasma surface disinfection technology that reduce bacteria build-up & smell
- Food graded interior guarantees that the inner compartment is approved and safe for food use
- Can be mounted on most mopeds, scooters, and motorized vehicles
- Outer dimensions: W500 x H560 x D688,5 mm
- Inner dimensions: W422,4 x H482,5 x D425 mm
- Volume: 87 l
- Weight: 23 kg
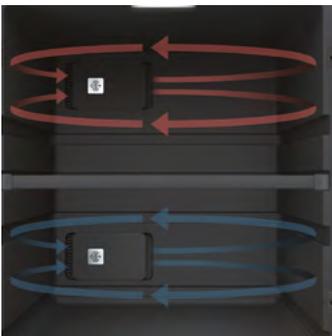

Dual temperature zones
Isolated shelf divides the inner compartment into two zones – one hot and one ambient.

Stay-in-place
Smart dividers keep food in place, even when the road´s bumpy.

Power supply
Runs on a 12V or external battery pack.

Superior storage capacity
Large capacity and temperature control offers the possibility for multiple delivery trips.
