DOMETIC ON THE WEB

Here's where you can find the complete Dometic range, with detailed information about all products. Plus, interesting facts about our company and download links for all our catalogues.

DOMETIC.COM/PROFESSIONAL

THEIR HABITS THEIR WAY

Keeping a bit of independence is about integrity and pride. It's about being able to have a glass of milk in the middle of the night if we want. To be able to decide for ourselves – it's one of life's small comforts when it means the most.

WELL PROVEN FOR DECADES

DOMETIC REFRIGERATORS AND SAFES FOR HEALTH AND CARE FACILITIES

Dometic is a leading manufacturer of cooling appliances for special applications – with decades of experience in the healthcare sector. Our reference list includes hospitals, retirement and nursing homes, doctor's surgeries, pharmacies and laboratories.

Dometic Food Grade refrigerators and Dometic Medical refrigerators have been proven thousands of times over, across Europe and beyond. They are not only among the most compact of their kind available in the market, but with the new HiPro Care line, also offer a completely silent food grade cooling solution. With its ProSafe range, Dometic also provides a reliable solution for secure storage of the patients' or residents' valuables.

All products for the healthcare sector are manufactured to stringent quality and environmental standards in Dometic's, certified factories. Our sales and service network spans almost 100 countries and provides personal support to customers and planners on all continents.

RESPONSIBILITY FOR THE ENVIRONMENT

At Dometic, thinking and acting ecologically is an all-embracing process that extends to all levels – from the design of resource-saving, energy-efficient products to sustainable production processes and special recycling measures. You can be 100% sure that all applicable regulations, directives and guidelines are fulfilled.

CERTIFIED QUALITY

- All Dometic Healthcare production plants are certified acc. ISO 9001 (quality management), ISO 14001 (environmental management) and ISO 50001 (energy management)
- All Dometic Healthcare products fulfill the European Union's product safety and environmental compliance requirements, i.e. Low voltage directive 2014/35 EU, EMC directive 2014/30/EU, RoHs directive 2011/65/EU and F-gas regulation No. 417/2014.

Dometic's certified production facility at Jászberény, Hungary

DOMETIC PRODUCTS VALUE PROPOSAL

FOR HOSPITALS, RETIREMENT HOMES, PHARMACIES

HOSPITALS & CLINICS

Having their own food grade Minifridge and ProSafe in the room gives patients peace of mind and comfort while away from home. They are less dependent on staff for drinks and food and can rest assured that their valuables are safely stored. This, in turn, relieves the staff and cuts on operating costs. Hotel-like amenities can also help hospitals and clinics stand out from their competitors. Medical refrigerators on the station floor provide easy access to daily medications and common prescriptions, which means shorter distances to go for the hospital staff.

RETIREMENT HOMES

Dometic food grade Minifridges take up very little space and offer a great deal of comfort. With the introduction of the new HiPro Care line, residents and patients can not only maintain their independence by keeping their favorite food items close to them but also enjoy the serenity of the noiseless environment due to its silent operation. Designed to meet the unique needs of elderly homes and hospitals, it enhances the daily experience of residents and patients while simultaneously minimizing operational costs for healthcare facilities. Dometic medical refrigerators provide safe storage for temperature-sensitive pharmaceuticals and fast access to “daily essentials”.

HIPRO CARE

SMALL. SILENT. STRONG.

Dometic HiPro Care minifridges seamlessly blend into the appearance of elderly homes and hospitals. Not only are they highly efficient, with remarkably low energy usage, but they also operate silently, contributing to a peaceful environment. The strong door rack maximizes storage space, improving the functionality of its elegant design. Furthermore, they stand out for their food-grade refrigeration capabilities, designed to accommodate a range of items—from delightful cakes to fresh milk and nutritious fruits—catering to the diverse dietary needs of patients and residents alike.

Ideal for
Patient In Room
Comfort

DOMETIC HIPRO CARE. THE SILENT MINI FRIDGE.

Dometic HiPro Care food-grade absorption minifridges reach an interior temperature of 4°C at up to an ambient temperature of 32°C while being completely noiseless.

IDEAL FOR:

- Resident rooms in Elderly homes
- Patient rooms in Hospitals

RECOGNIZED AS MOST EFFICIENT BY ENERGY STAR

The Dometic C60SFS has been recognized as the Most Efficient of ENERGY STAR. ENERGY STAR® is the U.S. government-backed symbol for energy efficiency. The blue ENERGY STAR label provides simple, credible, and unbiased information that consumers and businesses rely on to make well-informed decisions. ENERGY STAR is administered by the U.S. Environmental Protection Agency (EPA).

INSTALLATION TIPS FOR BUILT-IN REFRIGERATORS

To ensure **optimum cooling performance** with minimum energy consumption, several basic principles need to be followed when installing the unit. The heat which the cooling unit extracts from the refrigerator interior is emitted at the back.

There must be **sufficient ventilation** here to prevent a build-up of heat. The free ventilation space for the HiPro Care for incoming air should be at least 150 cm² and outgoing air at least 200 cm².

The distance from the rear of the unit to the rear wall of the furniture

must be at least 15 mm. When installing the unit, ensure that it is standing on a stable and horizontal surface, and not directly near a heat source.

Ventilation must be provided as shown in the drawings below (A, B, C or D).

You can find all our documents, manuals and guidelines at documents.dometic.com.

VENTILATION GUIDELINES

Important note

Please read these instructions carefully and follow all instructions, guidelines, and warnings included in all our product manuals in order to ensure that you install, use, and maintain our products properly at all times.

By using our products, you hereby confirm that you have read all instructions, guidelines, and warnings carefully and that you understand and agree to abide by the terms and conditions as set forth herein. You agree to use our products only for the intended purpose and application and in accordance with the instructions, guidelines, and warnings as set forth in the product manuals as well as in accordance with all applicable laws and regulations. A failure to read and follow the instructions and warnings set forth herein may result in an injury to yourself and others, damage to your product or damage to other property in the vicinity. Our product manuals, including the instructions, guidelines, and warnings, and related documentation, may be subject to changes and updates. For up-to-date product information, please visit dometic.com.

SAFETY &

FROM STANDARD TO PREMIUM

The range of Dometic ProSafe models

Security is an essential requirement for patients, and can be one of the of the main reasons for choosing or discarding a care facility. The Dometic Group aware of this, is always developing and improving all of its products in order to meet the needs of customers.

The latest product innovation Dometic has launched is a proSafe range which goes one step further in terms of design, functionality, technology and security. This proSafe range has a very modern design with a color display, an illuminated keypad, the latest anti-tampering system and a new website platform which offers the possibility to operate the safe

with the strictest security. The elegant cabinets of the new proSafe generation have rounded corners and edges for enhanced safety.

- Master key
- LED interior light
- iAudit system – unique in the industry
- Remote Emergency Opening System (REOS 2.0)
 - ultimate security and user comfort
- Battery level check

Premium Class

Excellence in form and function: Dometic innovations like iAudit tracking and the REOS Remote Emergency Opening System ensure security on all levels.

Standard Class

High security level combined with easy operation for perfect comfort and convenience.

PRODUCT FINDER – THE QUICK WAY TO FIND THE RIGHT PRODUCT

Laser-cut door

Our doors are precisely cut and crafted by a laser beam. This allows us to achieve 100% accuracy in dimensions and an extremely small clearance between the door and casing, making the door impossible to pry open.

Anti-Tamper system

With the anti-tampering system, Dometic offers a unique security feature for their models. All anti-tampering manipulation attempts are recorded in the electronic of the safe and can be tracked back at any time.

REOS code

REOS stands for Dometic's Remote Emergency Opening System. The emergency-opening system from Dometic is based on an innovative encoding system. The unique solution combines advanced electronics with state-of-the-art online technology to allow simple yet highly secure emergency opening by authorised facility staff.

Premium iAudit

All operations effected on a safe must be documented – for your own security and for

your insurance provider. This is where Dometic's Premium iAudit system offers a truly convenient solution: the integrated microchip provides storage capacity for the last 1,000 events.

SAM

The unique Dometic safe management system (SAM) allows for iAudit Trail and one time emergency code generation (REOS) from a user friendly but PIN secured internet based software tool.

From page	34	38

A man with dark hair and a beard, wearing a tan jacket over a dark shirt and dark pants, is leaning over a white, built-in in-room safe. He is looking down into the open safe, which is integrated into a light-colored wooden kitchen cabinet. The safe has a digital keypad on its inner door. In the background, there is a large window with teal curtains and a white table with chairs. The overall scene is brightly lit, suggesting a modern, clean environment.

PREMIUM CLASS IN-ROOM SAFES

SAFE TO SAY IT'S MORE CONVENIENT

DOMETIC PREMIUM CLASS SAFES

Protection for more privacy – comfortably and with absolute reliability. With a Dometic Premium Class proSafe, the room becomes a perfectly private haven for the resident. A safe place for storage, conceived and implemented according to the newest standards. Its innovative and customisable design suits every hotel in a stylish way. Smooth surfaces and rounded edges make it easy to look after and give it long-lasting character. A color display and the integrated soft-touch keypad make

operation easy. And a Premium Class proSafe also breaks new ground when it comes to protective properties: pioneering technology like the unique iAudit and the anti-tampering system ensure security on all levels. The demand for contemporary security systems with added convenience is supported by special features such as REOS 2.0 software with its emergency code-opening system (optional).

- LED interior light

DOMETIC STANDARD CLASS SAFES

Robustly made with user-friendly features and functions

It puts residents' mind at rest to have a safe place for their valuables. Providing a secure space for important or valuable objects is a distinctive feature when choosing a hotel room or suite. With a Standard Class proSafe, you can create a reliable spot in the room that is worth every penny. Security and functionality are paramount with all Dometic safe models. The Standard Class safe models offer your residents a high level of security thanks to their robust construction. Their simple and intuitive usability provides perfect comfort and convenience.

- Robust and reliable
- LED display
- LED interior light
- Master key and master code emergency opening
- Wide choice: vertical, horizontal, top-opening

DOMETIC PROSAFE MD 310 / 390 / 450 SAFE INVESTMENT

The doors on all the Standard Class safe models are precisely cut and crafted. Their robust construction and a locking system with extra-strong steel bolts leave no point of attack for burglars. The LED interior light minimises the risk of forgotten valuables. Fast and secure emergency opening is possible with a master key or master code (depending on the model).

- Robust, reliable construction for optimal safety
- LED interior light makes the contents visible at a glance
- Emergency opening with master key or master code

DOMETIC PROSAFE MDT TOP-OPENING SAFE

Part of the Dometic Standard Class range, the Dometic proSafe MDT 400 X top-opening safe provides a simple, yet ingenious solution that is easy to operate and safe to use. The top-opening drawer safe can be integrated in an existing furniture drawer and provides easy access to guests' valuables. At the same time it meets the highest demands on ergonomic design, comfort and security with an LED inside light for standard, master key and master code opening possibility in case of emergency, digital LED illuminated keypad, four-digit code and top-opening stabilizer arm. An audio signal confirms that the safe is securely locked.

- Convenient access from above
- LED interior light makes the contents visible at a glance
- Enough room to fit laptop and tablet computers
- Ideal for installation into existing hotel room drawer
- Stabilizer arm for smooth opening and closing of the lid
