VFF FORM

Verde Form is a direct response to automotive enthusiast who desire wheels that not only enhance their vehicle's appearance, but also improve their driving experience. The technological advancements and sophisticated engineering allow form to follow function. Furthermore, these production technology breakthroughs allow for a larger range of wheel widths to accommodate more staggered vehicle applications.

ATLANTA WHEELS

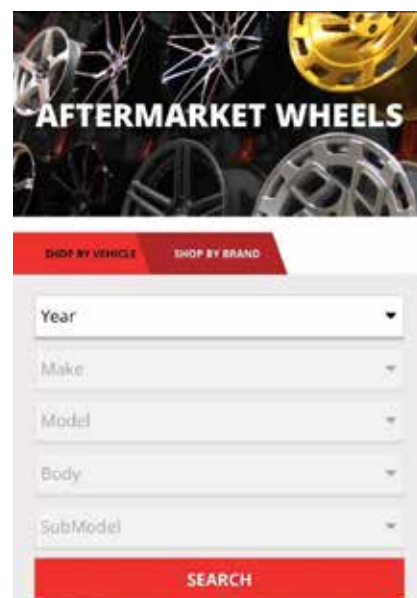

(800) 453 - 6247

ATLANTAWHEELS.COM

Have you grown tired of customers looking at catalogs and asking you about wheels that don't fit their vehicle? Or the distributor doesn't have them in-stock and you have to start a whole new search? Atlanta Wheels is excited to provide a sales tool to help your customers choose in-stock wheels for their specific vehicle with the click of smart phone.

Simply place the QR code counter stand in an area that is visible to your customers. They will be able to scan the QR code directing them to our vehicle search guide. They will enter the year, make, model, and trim of their vehicle to generate a list of wheels ready to ship from our Atlanta warehouse. The customer is instructed to speak with your salesperson to complete the purchase. At this time, your representative may log into www.atlantawheels.com or call 1-800-453-6247 to receive pricing and delivery time.

This sales tool will provide your business with a free, interactive, and alternative source of inventory that is guaranteed to be in-stock. Have confidence in closing the sale!
