Vladimir Kagan Design Group Team

Send all order-related correspondence to vksupport@hollyhunt.com.

Factory Location

Vladimir Kagan Design Group
1500 Main Avenue, 4th Floor
Clifton, New Jersey 07011
(973) 546-0925
VladimirKagan.com

Terms & Conditions

A 50% deposit is required with the order. Balance must be paid prior to shipment.

All prices are Net and subject to change without notice.
Delivery charges and taxes are additional, when applicable.

Title to the furniture remains the property of the Vladimir Kagan Design Group until receipt of final payment.

All prices quoted are in US Dollars.
Metric measurements are approximate.

Lead Time

- **Standard upholstered items:** 10-12 weeks after receipt of COM, wood, and finish selection.
- **Standard case goods, desks, and dining tables:** 12-14 weeks after receipt of wood and finish selection.
- **Custom items:** 14-16 weeks after receipt of drawing approval, COM (if applicable), wood, and finish selection.

Site Inspection

Verification of normal access to the delivery site is the responsibility of the client. Site surveys are recommended to confirm deliverability.

Freight

Furniture is sold FOB Kagan warehouse:
Vladimir Kagan Design Group
1500 Main Ave. Clifton, NJ 07011

Our responsibility ceases upon release of the furniture, in good condition, to the trucking company.

Upholstery

Due to the hand-made nature of Kagan furniture, a variance of approximately 1 inch from the quoted dimensions is admissible on all upholstery.

All Kagan upholstery meets California 117 fire retardancy regulations. Inquire for California 133 compliance.

C.O.M. - Customer's Own Material

Yardage listed is based on continuous yardage of 54" wide plain fabric.

Inquire for yardage if specifying narrow width fabrics, patterns, repeats, or multiple cuts.

C.O.L. - Customer's Own Leather

Conversion of yardage to leather:
One yard of fabric equals 18 square feet of leather.
One hide of leather equals 45-55 square feet.

Inquire for seaming details.
Add 10% for leather used on all upholstered products.
Specialty hides may incur additional fees.

Cutting for Approval (CFA)

A cutting must be submitted for approval before sending C.O.M.
All fabrics and leathers are to be shipped to:

Vladimir Kagan Design Group
1500 Main Ave, 4th Floor, Clifton, NJ 07011

Package must be labeled with the sales order number or project reference. Vladimir Kagan does not accept shipments sent C.O.D.

Material Disclaimer

VK reserves the right to reject materials deemed unsuitable for use in the proposed application. Please submit a CFA before purchasing COM.

While great care is taken to review each material for suitability, the client is responsible for understanding characteristics inherent in the chosen COM/L.

Velvet, Mohair, and other "pile" fabrics will move and flatten creating bruises, marks, or shading as a result of normal wear.

Applying pile fabrics to the curved surfaces of VK designs, as well as welting and seams, may accentuate these traits. Such surfaces will encourage separation of the pile, creating variations in the color or texture of the material. Inquire with VK for further details.

Genuine leather will have variations in the texture and depth of color, as well as markings such as dents, scars, scratches, wrinkles or blemishes. These should not be considered as defects, but natural indications of genuine leather.

On-Site Assembly

When a building is unable to receive a sofa in one piece, the unit can be built in two sections for assembly and upholstery on site.
This service is an additional \$4,000 charge per unit, with a freight fee of \$1,700 for direct delivery before the scheduled work.

Listed fees are applicable only to locations in New York City.
Inquire about availability for projects outside of this area.

Terms

1:1 Scale Templates

1:1 scale paper templates are available per request at a cost of \$375 per template. This fee is refunded upon purchase of the templated design.

Finishes

Natural variations that occur in woodgrain will affect the look of the finished product.

Please inquire about matching HOLLY HUNT finishes.

Custom finishes are available per request.

Stike-Off Fee: \$175

Design Modifications

The Vladimir Kagan Design Group reserves the right to modify dimensions and/or designs of all products at the sole discretion of the company.

Please advise if ordering a new item to match an existing VK design.

All designs herein are covered by International Trademark.

Authentication Services

Vladimir Kagan Design Group offers these services to customers who are interested in verifying the authenticity of a design they own.

- Authenticated pieces receive a registered Provenance Certificate. In addition, the client will receive a serial tag bearing a unique registration number (to be kept with the piece).

All submissions must include photographs taken from several angles and any available documentation such as upholstery labels and invoices.

The certification fee is \$500 per item. Payment by check must be received before services will be rendered. (When there are multiples of the same designs, such as dining chairs, each additional plaque costs \$50).

If a submission is deemed to be an unauthorized reproduction, 50% of the service fee will be refunded. Please inquire with VK for details.

Warranty

Vladimir Kagan Design Group warrants its furniture for a period of two years from invoice date against all manufacturing defects.

Please note VK is not responsible for performance of selected COM/L.

Claims

All furniture has been inspected and photographed prior to shipment.

It is the responsibility of the consignee to examine the shipment and note damages or exceptions on the bill of lading in the trucker's presence.

Vladimir Kagan Design Group is not responsible for any loss or damage in transit. Any claim that is not the result of freight damage must be submitted in writing only and accompanied by photographs. Telephone claims are not acceptable.

Furniture must not be returned without written permission from Vladimir Kagan Design Group. Furniture returned to our warehouse without permission will be refused.

Custom Product

Almost all Vladimir Kagan designs are customizable across size, and finish at additional cost.

Please inquire for additional information.

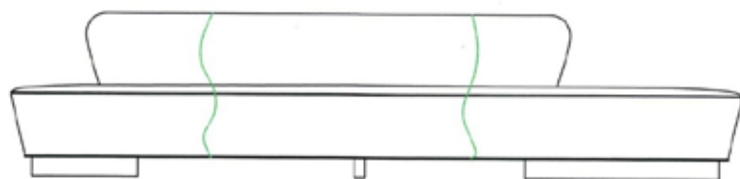

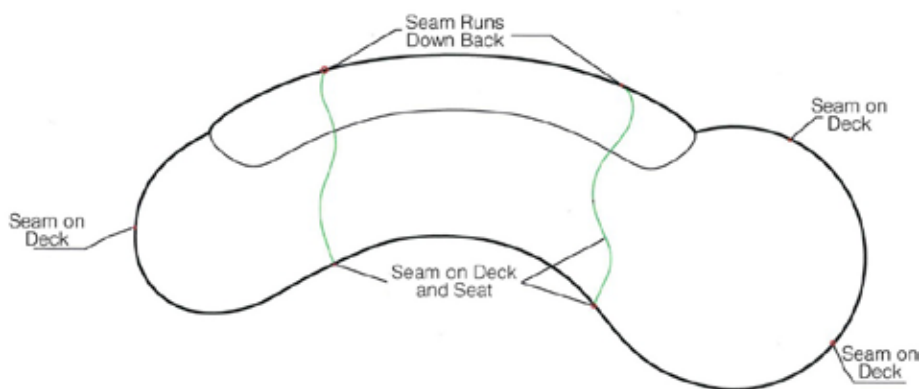

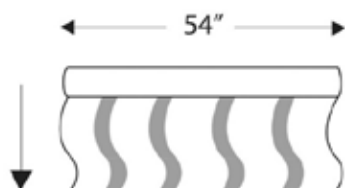

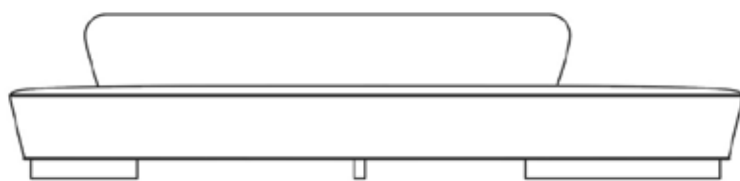

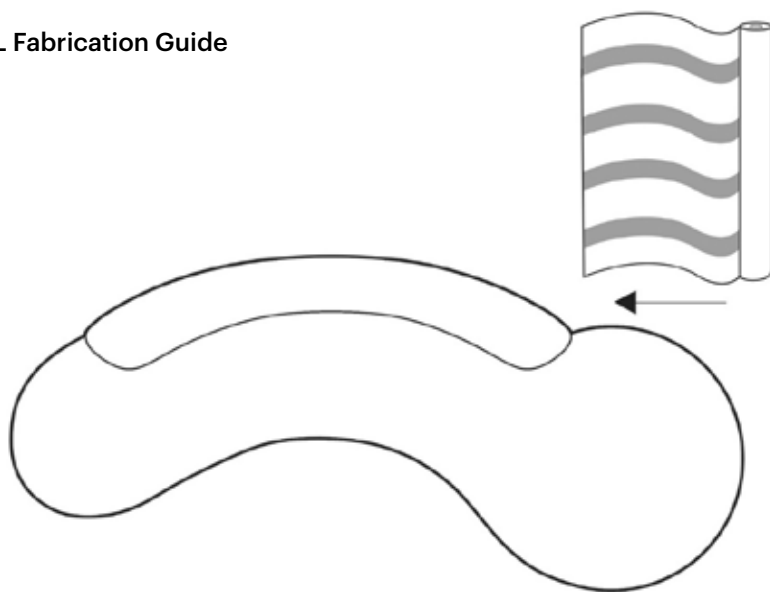

Custom Design Services

The personal design services of Vladimir Kagan Design Group are available for individual projects.

With payment of a service fee, trade clients may work directly with our Director of Design to develop a one of a kind piece.

The resulting design will not be reproduced in the future. Please inquire for additional information.

COM / COL Fabrication Guide

Railroaded

Vladimir Kagan Standard

Application: Fabric runs horizontally, along the width of the piece of furniture.

Seams: A single piece of fabric covers the width of the piece, preventing seams.

Off-The-Bolt Industry Standard

Application: Fabric runs vertically, over the furniture's front and back.

Seams: Each width (54" is standard) of fabric must be stitched together, creating seams along the front, back, and seat.

On a curved piece of furniture, seams run as pictured, not in straight lines.

COM / COL Fabrication Guide

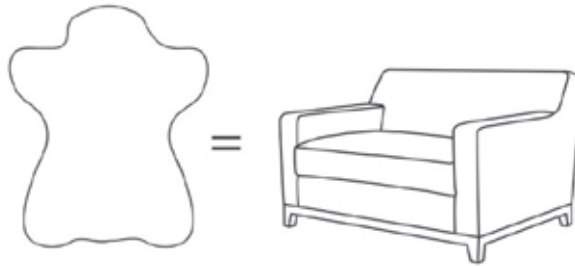

Leather

There is a 10% upcharge for COL

Full Hide

Average 45 – 55 sq. feet each

Average size 60" W x 72" H

Half Hide

Average 25 sq. feet each

Average size 30" W x 80" H

1 yard of COM (at 54" wide) equals 18 sq. feet COL

Genuine leather will have variations in the texture and depth of color, as well as markings such as dents, scars, scratches, wrinkles or blemishes. These should not be considered defects, but natural indications of genuine leather.

Fabric Disclaimer

The construction of certain fabrics can create complexities during the process of upholstery. At Vladimir Kagan, we request a CFA (cutting for approval) to review each fabric selection, surveying for a variety of qualities that will affect its usage in the upholstery process and ultimately its viability for the specified design.

In some fabrics, the raised construction of the pile weave can pose specific challenges. Handling the material, as during upholstery, can result in a flattening of the fibers as they are repositioned from touch and normal wear.

This natural characteristic of the weave, which allows for these materials' distinctive surface luster, also results in a tendency towards marking, bruising, or shading. Areas including seams, welting, and curved surfaces of Vladimir Kagan designs may accentuate these traits. Applying pile fabrics to such areas may cause the fibers of the pile to separate, creating variations in the color or texture of the material.

Brushing the fabric with an upholstery brush will often resolve any marks; however, in cases where too much pressure is applied to the material, the pile can crush making marks difficult to remove. In these cases, steaming may be required to correct the appearance of the pile.

Further, due to the unique processes employed by the Kagan workroom to accomplish our distinct style of upholstery, the fabric must be pulled tightly and with significant force to adhere around curved surfaces. The construction of certain fabrics, even those produced by reputable fabric houses, is sometimes not suitable for this upholstery technique. We assess the strength of the fabric's ground upon CFA review and will reject materials that pose concerns in this area.

We at Vladimir Kagan Design Group take great care in handling fabrics during the upholstery process. The finished products are brushed and, when required, steamed before shipment. However, upholstery may show marks or shading due to wrapping or delivery, and may need to be brushed accordingly. We advise our freight partners that these items must be wrapped loosely and we are not held responsible if packing material leaves any markings.

All upholstered items go through a rigorous multiple person inspection before release from Vladimir Kagan Design Group, and documentation is taken to attest that each product meets the exceedingly high standards of our company.

We are obligated to inform you of this disclaimer, as the fabric you have chosen is delicate both in ground and pile construction. By choosing to proceed with a fabric against the advice of the Vladimir Kagan Group, our company will not be liable for any expenses or delays caused by failure of the fabric during production, or for any fabric related-issues within the warranty period against manufacturer's defects.

Please sign, date, and return this disclaimer to confirm you have considered these details. With your approval, we will proceed with the production of your Vladimir Kagan piece.
