INTRODUCTION

In the lead up to Christmas I am delighted to present a mini-exhibition which has been seasonally titled 'A Winter Salon'.

Bringing together an eclectic mix of drawings, prints, paintings and sculptures by a collection of some of the most well-known and popular internationally acclaimed and local artists for a showcase that explores traditional themes in modern and contemporary art practice.

Themes such as portraiture, landscape, seascape, the natural world and organic forms are all at play in this beautiful showcase which is on display in our client areas at Sommerville House in December.

High value masterworks by Picasso, Lowry and Tillyer sit alongside some fantastic new works by one of Scotland's favourite artists Donald Provan and we also have a diverse range of sculptures by Rozelle Stewart, Mark Guest and William Romeril.

We are also very pleased to have a new work by Charles Haydn Taylor who is starting to attract international attention following his first solo show in Beijing last month so although small this is a perfectly formed exhibition.

Wishing you all a peaceful and relaxing Christmas.
