Kids' world

playful

More colourful joy, more ideas for a good time, more homeliness. In the children's room, there just has to be a little bit more of everything. After all, the little ones should be able to enjoy their own kingdom to the full, right from the word go. That is why the Kids' World collection

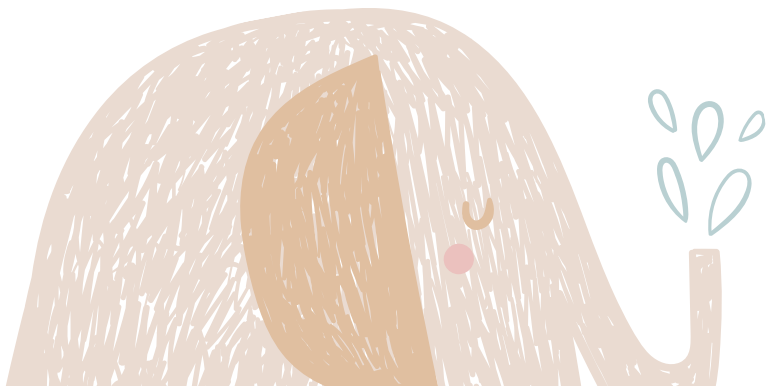

creates peaceful underwater worlds, awakens small forest dwellers and takes a look into space. The motifs are painted by hand and radiate a pleasant feeling of calmness thanks to their watercolour look and delicate pastel shades. This makes the 'Land of Adventure' a cosy retreat!
