hot days

SMARTSTICK

FUNCTIONALITY

- **LED Lights:** Bright, rechargeable LED lights for night time walks or lighting up your campsite. Use it on the trail or mount it on a tripod for hands-free convenience.
- **USB Charging Port:** A built-in charging port, allowing you to power up devices like phones or cameras. Perfect for outdoor adventures or emergencies when access to power is limited.
- **Camping Tripod:** Use the tripod to securely hold the stick upright. Paired with the LED light, it can be used as a hands-free lantern for your tent or around the campsite.
- **USB Fan:** Stay cool on hot day hikes with the portable USB fan.
- **Smart Handle:** Ergonomic grip with a sweat-resistant handle and adjustable strap for secure, comfortable grip.
- **Emergency Whistle:** Use the whistle to signal for help or alert others to your location in case of an emergency

SMARTSTICK FUNCTIONALITY

- **Bottle Cap Opener:** Use the bottle cap opener to open bottles and cans.
- **Spear Head:** Use the spear head for fishing in water-based environments.
- **Saw Knife:** The saw knife can be used to saw through wood or other materials.
- **Storage Bag:** Convenient storage bag keeps the stick protected and easy to carry when not in use.
- **Hollow Tubes:** Use the hollow tube spaces for storing small first aid items, fishing gear, tackle, paracord and other survival gears.
- **Flat/Star Screwdriver:** The screwdriver can be used to tighten or loosen screws on various objects. Just remove and flip the screwdriver to use each screwdriver.
- **Flintstone Firestarter:** Use the flintstone Firestarter to create sparks and start a fire in survival situations. Start a fire by striking the flint against a metal surface of a knife.

ASSEMBLY INSTRUCTIONS

- ① Remove all the tubes and tools included in the Bag.
- ② Connect all the tools to the tubes by screwing them in securely.
- ③ Arrange the tubes according to the picture provided, ensuring that each tube is in the correct order.

- ④ Connect the tubes together to achieve your desired height for the stick.
- ⑤ Tighten the tubes securely to ensure that the stick is stable.
- ⑥ To use a specific tool, simply remove the corresponding tube from the stick.
- ⑦ The smart handle tube should be placed at the top of the stick, while the bottom tube/rubber tip should be at the bottom.

ASSEMBLY INSTRUCTIONS

- ⑧ To use the USB Fan, put it together as shown below. Then connect with the USB Port located on the smart handle tube.

- ⑨ To use the Tripod, put the stick thru the tripod and secure the bottom of the stick into the tripod.

- ⑩ Once you have finished using the stick, disassemble it by removing all the tubes and tools and store them in the storage bag.

SAFETY GUIDELINES

To ensure safe and effective use of your SmartstickX All-in-One Adjustable Trekking Pole, please follow these instructions:

- ① **Use Responsibly:** Always be mindful of your surroundings while using the stick.
- ① **Only Use Given Charger:** Only Charge the Smartstick with the provided charger. If any other charger is used, it may short-circuit the battery.
- ① **Pre-Use Inspection:** Check the pole for any visible defects or loose parts before each use.
- ① **Secure All Components:** Ensure all sections and attachments are properly tightened and locked in place.
- ① **Proper Storage:** Store the stick and its accessories in the provided bag after use.
- ① **Do Not Use as a Weapon:** The stick is not designed for combative or aggressive purposes.
- ① **Need Help?** For questions or before returning the item, contact us at:
