FOLLOWING IN HIS FOOTSTEPS (BRONZE)

Mackenzie is thrilled to release his latest captivating sculpture 'Following In His Footsteps (Bronze)'. This special piece depicts the story of a father and child, inspired by Mackenzie's own childhood.

Following In His Footsteps has been lovingly crafted and hand finished at a British based foundry and overseen by Mackenzie's meticulous eye.

*This sculpture is one close to my heart,
the warming bronze wraps around the
figures and the red from the heart
bounces out of the light demanding
your attention and voicing a message
of the importance and wonder of love...*

FOUNDRY | BEHIND THE SCENES

Mackenzie always takes a hands on approach throughout the sculpting process. Whilst the finishing touches took place at the foundry he personally directed the tone and colour of the patina, taking time to define both light and dark areas within the piece. Particular attention was given to the foundation, highlighting the footprints which add a true sense of movement alongside enhancing the look and feel of the sculpture.

The hand painted heart is a classic Mackenzie Thorpe red carefully selected and approved by the artist. Red hearts are synonymous throughout Mackenzie's work, illustrating his overriding message of LOVE.

*It is said you never know what
you've got until it's gone,
I run after you in my dreams
following in your footsteps
shouting, I love you...*
