

Building Smarter, Safer, More Sustainable Education Infrastructure, Together.

Streamlined Support for Educational Sector Projects

Strategic Vendor Partnerships

Turtle partners with leading vendors to supply high-quality products and solutions for educational buildings, ensuring that educational institutions receive the best materials and support possible.

Reliable and Timely Delivery Solutions

Turtle excels in managing delivery logistics, ensuring that materials and equipment arrive on-site safely and efficiently.

Expert Coordination for Seamless Project Execution

Turtle provides robust project management services, ensuring projects are completed on time and within budget. Our expertise lies in coordinating multiple stakeholders and managing intricate project requirements.

Silver Ecovadis Rating
for Sustainability

Our team of experts offer a **comprehensive range of solutions** to ensure your project meets your deadlines and your design specs.

- Design Assistance
- Value Engineering
- Project Management
- Start Up and Commissioning
- Supply Chain Management
- Cyber Security

Smart Sustainable Education Solutions that Drive Value, Efficiency and Effectiveness

Renewable Energy Optimization & Maximization

Integration of solar energy solutions to enhance energy independence.

Lighting Energy Efficiency & Effectiveness

Customize lighting solutions to reduce energy costs, improve workplace conditions, and ensure compliance with local regulations.

Safe & Efficient Switchgear Solutioning

Ensure control and protection of electrical power systems through technical project management, drawing submittals, and post-delivery start-up services management.

Cyber Security Solutions & Services

Cyber security services to protect the enterprise and ensure federal mandate compliance.

Physical Security Solutions & Services

Access and camera security solutions for interior and exterior facility safety.

Backup, Redundancy & Resiliency Solutions

Comprehensive solutions to ensure continuous operations and protection against power disruption and data loss.

Smart & Sustainable Cooling Solutions

Utilize VFDs for pump speed control in cooling systems, along with an Atmospheric Water System, to reduce dependence on local water sources, boost efficiency, and promote sustainable cooling practices.

Battery Energy Storage

Enhance power reliability and system resilience with Advanced Battery Energy Storage Systems (BESS), including Lithium Ion and Hydrogen options, to bolster operational continuity and resilience against power interruptions.

Customized EV Charging Programs & Solutions

Customized EV charging solutions integrate seamlessly with existing electrical infrastructures.

Intelligent Infrastructure Modernization

Real-time system monitoring of power components, transformers, and intelligent motor control centers to predict failures before they occur.

Our Related Offerings

Power Conditioning, Quality & Backup

Uninterruptible power supplies, power factor correction & automatic transfer switches

Components for Electrical & Mechanical Subsystems

Variable frequency drives, circuit breakers and fuses

Facility Power Distribution

Busway, transformers, panelboards, switchgear and floor-based power

Facility/power Monitoring & Management

Integrated facility systems, facility management software, remote monitoring meters & software

Monitoring Consoles:

Network operations center consoles

White Space Power Distribution

Low voltage busway, floor-standing/wall-mount /enclosure power distribution units (PDUs)

Airflow & Thermal Management Solutions

Rack and aisle-based containment solutions

Racks & Enclosures

IT equipment racks, enclosures and colocation cages

Wire & Cable Management

Cable tray and modular wiring systems

Indoor & Outdoor Lighting

High efficiency LED luminaires and lighting controls
