WELCOME

Our catalogue has a wide selection of products to meet the everyday requirements of the warehouse and workplace.

Our products come directly from manufacturers ensuring value for money, product quality, good availability and products, that meet International Standards.

We offer over 8000 products suitable for warehouse, industrial, office, retail environments. We provide you with a one stop shop to meet your day to day needs.

We are also able to support projects large or small. Our experts can help you design storage solutions using UK manufactured lockers, shelving and pallet racking along with access and material handling equipment.

As we manufacture and stock products we can offer next day delivery on a large number of items. This means we really can offer next day service on a large number of products.

Look at our 3-5 Day Quick Delivery sections for a wide selection of products at competitive prices and with a quick delivery.

A range of ICONS are used throughout the catalogue to aid you in your buying decision.

FAST DELIVERY
Ordered items can be delivered within 5 working days. Large quantities may result in longer delivery times.

LOAD CAPACITY
Advised load capacity to ensure products are used within safety limits.

QUICK ASSEMBLY
Products that are easy and quick to assemble and ready for immediate use.

ANTI-BACTERIAL
Products that contain anti-bacterial properties for hygiene-sensitive zones or to minimise the general spread of germs in communal areas.

CHARGING
Provides secure charging facilities for a wide variety of electrical devices and tools.

All sizes shown are nominal
Loads shown are for Uniformly Distributed Loads

NEED TO RESOLVE A STORAGE PROBLEM IN A HURRY?

COMMERCIAL SHELVING

STORMOR SHELVING SYSTEM

SHELVING &
RACKING

The Stormor shelving range is a truly versatile and interchangeable system comprising of three product types that can be used alone or in combination. With its crisp white or light grey finish, Stormor features attractive slim profile shelves and frames, which provide runs with a neat co-ordinated appearance, combining aesthetic appearance with practicality.

This design feature, coupled with a choice of colours makes Stormor ideal for use in offices and commercial environments, where the thin profile helps get more from the storage area available.

The Stormor shelving range is a truly versatile and interchangeable storage system comprising of three upright types – Mono, Solo and Duo. Between them, these three Stormor shelving products cater for a wide range of storage requirements in offices, stockrooms and many more settings across multiple industries and sectors.

The Stormor Mono open sided frame system is designed as a post type system which permits airflow between the bays and allows easy storage of oversized objects, for example, rolled maps which can fit across several bays of shelving without the need for a specialised storage system.

The Stormor Solo one piece frame is a simple cost effective upright which makes it ideal for offices and general storage.

Our Duo double panel frame provides a clean aesthetic look making it ideal for use in libraries and museums or where shelving needs to conform to BS 4971:2017 Conservation and care of archive and library collections (Formally PD5454).

Mono open sided frame

Solo one piece frame

Duo double panel frame

Our comprehensive range of accessories feature clip-in fittings so that any changes are quickly and easily made helping to make Stormor metal shelving one of the most versatile systems available.

All shelves and storage accessories are standard in design and fit all three frame types allowing you to adapt your shelving as future needs change without worrying about compatibility.

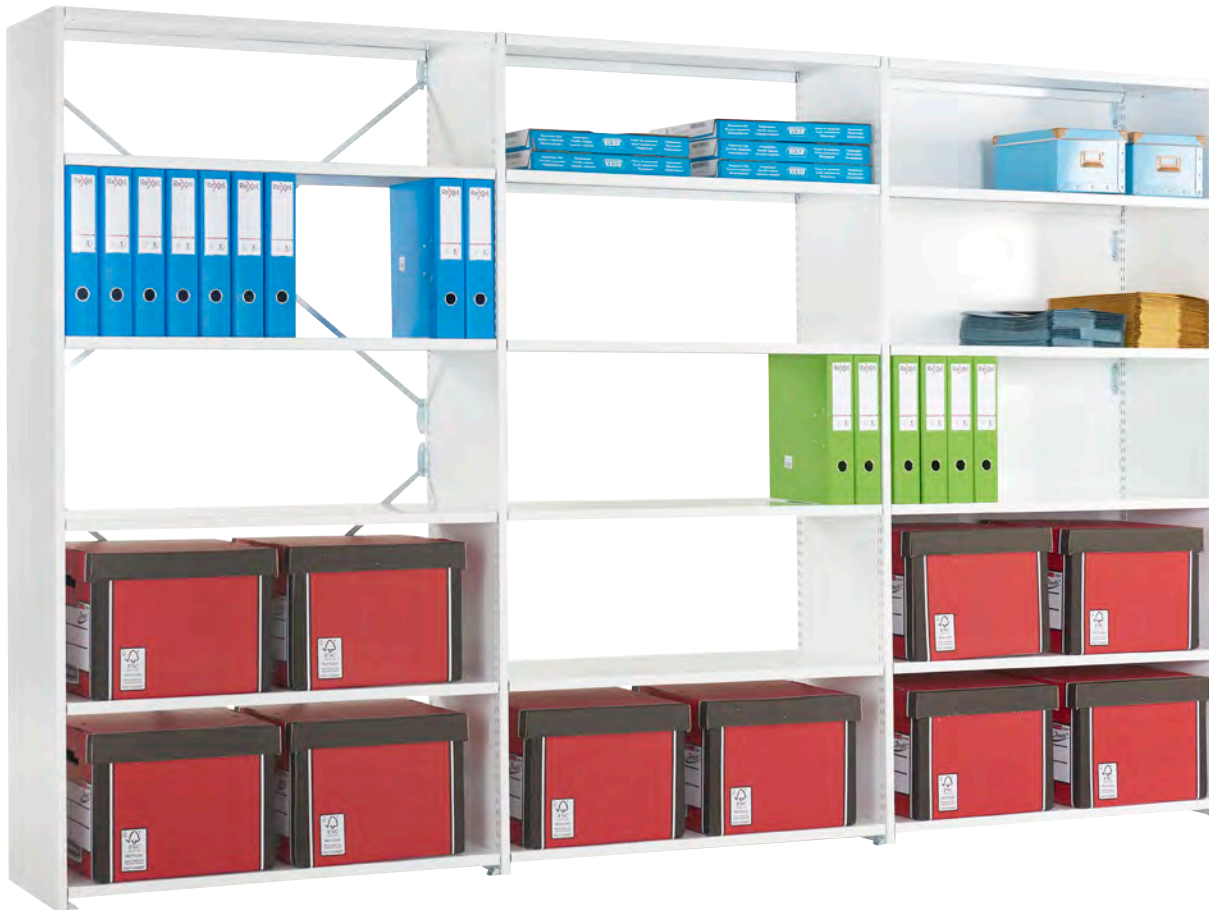

Paint Finish

White - RAL 9016

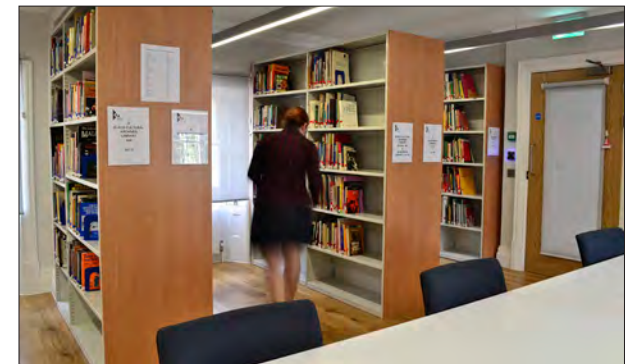

Light Grey - RAL 7035

Stormor Mono offer a economic solution for the storage of boxed items.

Stormor Solo can be easily sub divided making it idel for live file storage..

Duo's double skin upright provides clear entry to the shelf ensuring valluable books and archives do net get snagged.

COMMERCIAL SHELVING

STORMOR SHELVING SYSTEM

A wide range of accessories are also available which make Stormor one of the most versatile systems on the market.

These accessories include document, undershelf and part height dividers, back stops, bin fronts, floor plinths, pull-out drawers, shelves and cradles, garment hanging rails, half and full height doors and plastic drawer units.

Helping Stormor shelving to meet a varied range of storage needs for businesses and organisations across various sectors, our accessories are designed to a standard size so they work with mono, solo or duo frames. So, you can adapt the system to your growing storage requirements without having to worry about compatibility.

A
Part Height Dividers

A 150mm high divider, which slots into either the top or bottom of a shelf, to provide storage sections or support for files.

B
Pull-out Filing Cradle

Can accommodate A4 and foolscap top loaded suspension files.

C
Document Divider

The slim profile divider is designed to be used for document storage ensuring minimal wasted space on the shelf.

D
General Purpose Dividers

Used to divide shelves horizontally, into smaller storage compartments.

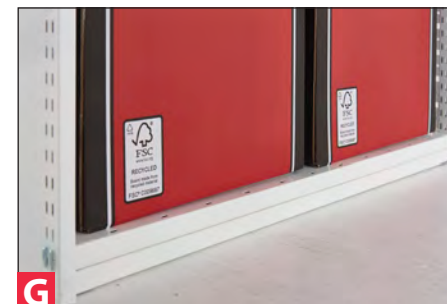

E
Pull-out Full Width Drawer

Pull-out drawer available in 3 heights. Ideal for storage of CD's. 20kg max drawer load.

F
Pull-out Reference Shelf

Provides a flat and stable work surface within a storage bay.

G
Plinth

Floor plinths prevent dust and debris collecting under the shelving.

H
Full and Half Height Door Kits

Hinged doors transform shelving into a secure storage cupboard.

Bin Fronts

When fitted, this prevents items falling off the front of the shelves.

Under-shelf Divider

Divider simply clips in under the shelf to support books, files etc.

Back Stop

Zinc plated rod which fits across the rear of bays to prevent items falling off the back of a shelf.

COMMERCIAL SHELVING

STORMOR MONO SHELVING

A versatile and fully adjustable, open upright shelving system. Ideal for general storage. The slim profile uprights and shelves are aesthetically pleasing, making Stormor Mono shelving ideal for today's modern office and commercial environments.

- Side and rear of bays are open with rear cross bracing
- All steel construction
- Supplied flat packed for easy assembly
- Light Grey or White paint finish
- Easily adjustable shelves on 25mm pitch
- Extra shelves include shelf clips

Each shelf sits on 4 shelf clips

GU WT To specify upright colour insert GU (Light Grey) or WT (White) into the product code.

SAFETY

It is essential that shelving exceeding a height to depth ratio of 4:1, to the top loaded shelf is securely floor fixed. Where shelf units are bolted back to back, in runs, the overall depth may be used. Bay codes followed with an * indicate floor fixings supplied.

Dimensions are shown in mm and are nominal

STORMOR ACCESSORIES

Our range of accessories are interchangeable across the Stormor shelving range, making it ideal for the creation of custom designed storage facilities.

Accessories can be easily retro-fitted, allowing you to add to your shelving, as your storage needs change.

BIN FRONT

When fitted, this prevents items falling off the front of the shelves. When used with dividers, this forms individual compartments.

Code	Height	Width	Each
SZABF025F1000__	25mm	1000mm	£6.24
SZABF050F1000__	50	1000mm	£6.79
SZABF075F1000__	75	1000mm	£7.78
SZABF100F1000__	100	1000mm	£8.44
SZAPPLUG			£0.32

25 & 50mm high fronts require 2 off SZAPPLUG, 75 & 100mm high fronts require 4 off SZAPPLUG

GU WT To specify upright colour insert GU (Light Grey) or WT (White) into the product code.

FULL HEIGHT DOOR KITS

Hinged doors transform shelving into a secure storage cupboard. Doors have vertical stiffeners, 3-point locking & textured paint finish.

- Fits 1000mm bays only. Bay must be floor fixed.

FOR MONO & DUO BAYS			
Code	Height	Each	
SZADM1850H1000__	1850mm	£189.10	
SZADM2150H1000__	2150mm	£200.14	

FOR SOLO BAYS			
Code	Height	Each	
SZADS1850H1000__	1850mm	£192.25	
SZADS2150H1000__	2150mm	£202.42	

Doors cannot be put on consecutive bays using Stormor Solo Side Clad shelving.

GU WT To specify upright colour insert GU (Light Grey) or WT (White) into the product code.

Dimensions are shown in mm and are nominal

BACK STOP

Zinc plated rod fits across the rear of the bays, in order to prevent items falling off the back.

Code	Width	Each
SZABS004R1000ZC	1000mm	£2.80

GARMENT HANGING

A system of zinc plated rails and brackets, which fits within the bay widths, to allow garment hanging. 35kg max rail load.

- Rails can be repositioned as required
- Bay must be floor fixed.

Code	Description	Depth	Each
SZAGR25S1000GS	Rail 25mm Dia x 1000mm		£4.08
SZAHSC1225300	Support Channel	300mm	£5.53
SZAHSC1225450	Support Channel	450mm	£7.17
SZAHSC1225600	Support Channel	600mm	£7.93

PART HEIGHT DIVIDER

A 150mm high divider, which slots into either the top or bottom of a shelf, to provide storage sections or support for files.

Code	Height	Depth	Each
SZDP370__	150mm	370mm	£3.80
SZDP450__	150mm	450mm	£4.31
SZDP600__	150mm	600mm	£5.15

GU WT To specify upright colour insert GU (Light Grey) or WT (White) into the product code.

DOCUMENT SHELF DIVIDER

The slim profile divider is designed to be used with paper storage.

Code	Height	Depth	Each
SZDF300300__	300mm	300mm	£2.66
SZDF300370__	300mm	370mm	£3.16

GU WT To specify upright colour insert GU (Light Grey) or WT (White) into the product code.

PULL OUT SHELF

Provides a flat and stable work surface within a storage bay.

- Shelf slides out on telescopic arms. 20kg max shelf load.
- Fits 1000mm bays only. Bay must be floor fixed.

Code	Depth	Each
SZPORS1000370__	370mm	£85.99
SZPORS1000450__	450mm	£96.14

GU WT To specify upright colour insert GU (Light Grey) or WT (White) into the product code.

INDUSTRIAL SHELVING

EURO SHELVING

SHELVING &
RACKING

Heavy duty, fully adjustable steel shelving system offers simple and fast assembly. Shelves are located on clips, which slot into the upright, creating an extremely rigid structure, in which shelves can be repositioned when required. With its modular design, you can extend the shelving system at any time, to meet your future storage requirements.

- Easy clip together assembly.
- Robust steel shelving, designed to suit any working environment
- Each bay comes with 6 steel shelves
- UDL Shelf loads 300, 400 and 450d mm shelves - 160kg. 600d mm shelf - 135kg
- Available as Open All Round or Fully Clad bays

Ideal for heavy duty commercial archive storage or general industrial use

INDUSTRIAL SHELVING

MOBILE SHELVING

Effective storage systems are designed to provide efficient storage and retrieval. That's why every mobile shelving system will give excellent accessibility, whilst maximising the use of floor space for storage.

Mobile shelving is effective in saving space, by eliminating the need for several access aisles. Because the shelving moves along floor tracks, the space for only one aisle is needed. When an item is required, the particular shelving bay is identified and an adjacent aisle is created, by moving the mobile shelving units apart. Mobile shelving is opened and closed by pull handles, or hand operated mechanical systems.

Roll-a-side mobile shelving is useful in small offices, or awkwardly shaped areas, such as corridors or alcoves. Shelving is mounted on low profile mobile bases and tracks and are simply rolled aside to reach the units behind.

Mobile shelving increases the filing capacity to 192 linear metres. When a document is required, the particular shelving bay is identified and an adjacent aisle is created, by moving the mobile shelving units apart.

Alternatively, Mobile shelving can reduce the space required for storage. Up to 50% of the floor space can be released for other uses, when compared with filing cabinets and 38% more with static shelving.

Mobile carriages end panels can be tailored to suit the aesthetics of your installation. Limited only by imagination, these optional end panels can be created to complement the decor of its environment.

Mobile racking is particularly effective in offices, archives, libraries or retail stock settings, as they represent a lower cost alternative to increasing floor space.

If you've got lots of items to store, be it bulk storage, large archives or stock, the heavy duty mobile shelving system can handle all that and more. This versatile system, ensures that any space is fully utilised, allowing you to store more than you ever thought possible.

GARMENT HANGING SOLUTIONS

STOCKRAX GARMENT HANGING

Simple beam and upright storage systems are ideal for retail, stockrooms, laundry operations and workplace clothing storage.

- Choice of double sided or single sided wall perimeter rails
- Rails are easily adjusted to accommodate changing stock requirements
- An optional shelf is available for double sided bays, to provide further flexibility

STOCKRAX SINGLE SIDED PERIMETER BAY

Contains uprights, rails, footplates, end caps and fixing brackets.

INDUSTRIAL SHELVING

LINK51 LONGSPAN SHELVING

Longspan is a hand loaded, widespan, heavy duty shelving system, that comes in graphite grey uprights and grey beams. It is used to store bulky or long items, of up to 780kg per shelf level. Longspan has chipboard or galvanised steel panels and is therefore the ideal system for storing boxes, clothes, loose items, and much more. By using starter and extension bays, it is easy to create long runs in any warehouse environment.

- Unrestricted shelf levels allow for easy access
- Easy to install and adjust
- Factory assembled frames
- Bays are 1800mm and 2100mm high, supplied with 3 shelf levels
- Graphite grey steel uprights with galvatite braces and light grey beams
- Contains 2 frames (1 in an extension bay), feet, 3 pairs of beams, locking clips, decking material and where applicable wire beam ties

Quick
Assembly

QUICK & EASY ASSEMBLY

Unpack and assemble the framework, by simply tapping together with a mallet. Once the framework is complete, just drop the shelves into position.

EASY ORDERING

Longspan Shelving Starter and Extension bays make ordering easy. To create a run, just order a Starter Bay and the correct number of Extension Bays

Starter bays
can be built as
stand alone bays

Bolt free construction for
simple, rapid assembly

**SAFETY**

It is essential that shelving exceeding a height to depth ratio of 4:1, to the top loaded shelf is securely floor fixed. Bay codes followed with an * indicate floor fixings supplied.

APEX LONGSPAN 200 SERIES

Longspan 200 is a stockroom shelving system with chipboard decking. Easy boltless assembly, makes it quick to build. Supplied with pre-assembled rivetted end frames, with three storage levels, comprised of stepped beams with 25mm thick chipboard decking.

- Light grey uprights, galvanised bracing and galvanised beams.
- The kits listed below are designed for a 1600kg maximum bay load.
- Each storage level carries a maximum 200kg universally distributed load.
- First beam level must not be greater than 1000mm from the floor.
- Longspan 200 series shelving must be assembled with a minimum of two bays in a run.
- We recommend that all frames are bolted to the floor, with one floor fixing bolt per baseplate (order BLTBFF1035ZP)

LONGSPAN 200 SERIES BAY

3 off chipboard deck levels on beams

Two bay starter kit

Apex Longspan 200 **CANNOT** be used as a stand alone bay, it must comprise of at least 2 bays - **a starter and extension bay must be ordered**

Extension Bay

SAFETY

It is essential that shelving exceeding a height to depth ratio of 4:1, to the top loaded shelf is securely floor fixed. Where shelf units are bolted back to back, in runs, the overall depth may be used. Bay codes followed with an * indicate floor fixings supplied.

LONGSPAN ACCESSORIES

Levelling plates ensure correct levelling on uneven floors, with floor bolt offering secure fixing for structural integrity.

Code	Description	Each
LLP2UN	2mm levelling plate	£0.89
LLP3UN	3mm levelling plate	£1.09
BLTBFF1035ZP	Single floor fixing bolt	£0.76

APEX COMPONENTS

DESIGN LONGSPAN SHELVING TO MEET YOUR EXACT STORAGE NEEDS

Choose from a range of frame and beam sizes, to create a run of shelving that suits your storage requirements. Complete the bays with a choice of either chipboard or galvanised steel shelving panels.

STEP 1. To start specifying, create a single shelving bay with two frames and two or more beam levels.

STEP 2. To create a run of continuous shelving, add additional shelves and frames as required.

STEP 3. Then order your choice of decking to match your chosen number of beam level.

Bay loads are dependant on beams used

Can be built as stand alone bays

FRAMES FROM ONLY
£49.18

LONGSPAN FRAMES

Standard frame in different heights and depths. Simply order two for the first bay, then one for each extension bay. Bay loads are dependant on beams used. See Longspan 200, 500 & 750 series pages for basic frame loadings, or call for details.

- Light Grey finish

STEEL LOCKERS

Our steel lockers are available in a wide range of sizes, door configurations, locking options, colours and finishes. The metal locker range consists of full height metal lockers, primary school lockers, cube lockers, small item lockers, laptop lockers, police lockers, staff lockers and garment lockers.

Standard duty lockers have been tested and conform to the requirements of the British Standard for Clothes Lockers BS 4680: 1996 'Standard Duty'.

Quantity Discounts

- Riveted and welded steel construction
- Durable epoxy powder coated finish
- Single door lockers fitted with hat shelf and double coat hook
- Hanging rail in addition to coat hook fitted as standard on 450mm deep 1 and 2 door lockers

- Door stiffeners provide added strength and security
- 8 & 10 door lockers available. Contact us for details
- Other sizes available upon request

INTEGRAL SECURITY

The design of the intermediate shelf prevents access to compartments above and below an open door. Shelves have an extended lip to provide a division between doors, offering protection against doors being prised open.

COLOURS AVAILABLE

Body

Doors

Important note regarding Locker installations.

Wherever possible lockers should be secured to ensure stability. Single lockers should be fixed back to a wall. Runs of lockers should be fixed together side-to-side and either fixed back to a wall or fixed back-to-back to another run of lockers. Fixings not supplied.

High gloss, powder coated paint finish

1 door

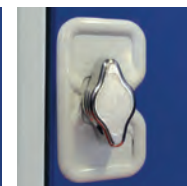

Air vents as standard on standard lockers

Hinges are welded to the door and riveted to the frame to give added strength and allow for easy replacement of damaged doors

Rail in addition to coat hook fitted as standard on 450mm deep 1 and 2 door lockers

Lockers are fitted with a camlock as standard. Supplied with 2 keys. A master key is available.

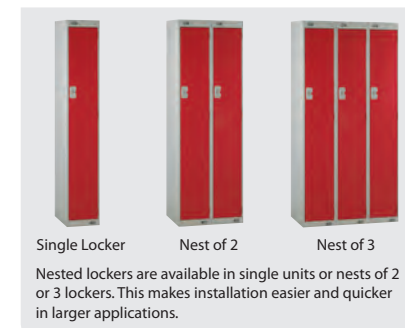

A hasp & staple padlock fitting (padlock not included) can be fitted as an alternative to a camlock at no extra cost.

Please replace 00 with 11 if hasp & staple lock is required at time of order.

For padlock specification see page 50.

VISION & PERFORATED DOOR LOCKERS

VISION PANEL DOOR LOCKERS

As the name suggests, Vision panel lockers allow for the inspection of stored items whilst providing a secure storage solution.

The lockers incorporate a toughened polycarbonate viewing panel set within a steel door with an all-round strengthened edge, allowing inspection of each locker compartment. This prevents lockers being used as a hiding place for stolen items and for high security or public spaces ensures locker contents can be viewed at all times. Fitted with Camlocks as standard.

- All lockers are 1800H x 300W mm

PERFORATED DOOR LOCKERS

With multi-perforations in the door these 1-6 door lockers are ideal for keeping items secure but ventilated. Perforated panels on lockers are particularly useful when damp clothes or odours pose a problem – in settings where uniforms must be stored or personal items such as boots, bike helmets and school PE clothing.

- Supplied with cam locks as standard - other lock types available
- All lockers are 1800H mm

BENCHES

Made in the UK, this modern range of cloakroom equipment available in Light Ash or Black Polymer.

Easy to install, the range includes single and double sided benches, hook benches, wall mounted benches and wall mounted shelf and rails all with a host of options and accessories, including show baskets, ensuring you will find exactly what you are looking for. If you want further advice or different colour options simply phone and we will be happy to discuss this with you.

All cloakroom units have robust frames constructed from 50mm round, thick walled tubing with welded joints for increased strength and durability. They have anti-bacterial powder coating as standard.

Designed and developed
for any environment

Hook Bench and Benches are available with 3 seat heights making them the perfect solution for schools, whatever age group they teach.

HOOK BENCHES

CHOOSE FROM

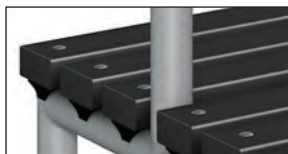

Either Ash or Black Polymer slats.

Ash Solid Timber Slats
Sourced from sustainable forests.

Silver, White and Black frames will be supplied with black hooks unless otherwise specified. Red and blue frames will have matching hook colour.

Black Polymer Slats
Manufactured with Active-Coat additive, these food grade slats are also ideal for educational or leisure wet area changing areas.

Black Polymer hook benches are fitted with grey hooks unless stated otherwise.

LIGHT ASH HOOK BENCHES

A single and double sided hook bench with 5, 8, 10, 16 or 20 hooks.
Available in five frame colours with light Ash slats.

- Three overall height sizes; Senior - 1840mm, Junior - 1350mm and Infant - 1150mm with three seat heights 475mm, 400mm and 350mm respectively

BLACK POLYMER HOOK BENCHES

A single and double sided hook bench with 5, 8, 10, 16 or 20 hooks.
Available in five frame colours with Black Polymer slats.

- Three overall height sizes; Senior - 1840mm, Junior - 1350mm and Infant - 1150mm with three seat heights 475mm, 400mm and 350mm respectively

SPECIALIST LOCKERS

CHARGING LOCKERS

The In Charge™ Locker range, provides a safe environment for tool batteries, mobile phones, tablets and other electronic devices.

With trailing cables, the risk of theft and health and safety issues, finding access to safe and protected power points is a common problem in today's workplace.

In Charge™ Lockers are specifically designed to help overcome this and provide a secure, easy and safe solution.

Lockers are fully portable as a single unit - simply place the unit in a convenient location, plug the unit into a power point and the lockers are ready for use.

Charging

Anti-Bacterial

Simply plug in and start using

FROM ONLY
£316.17

4 Door Tool Locker

6 Door Tool Locker

8 Door Tool Locker

Each compartment is fitted with standard UK three-pin socket.

Supplied with camlock and two keys. Master key is available.

All doors are independently earthed to the locker body.

Power lead is supplied with fitted RCD plug. Supply Voltage 230v.

All In Charge lockers can be specified with sloping tops which are a great way of keeping locker areas tidy and more hygienic as they discourage users from leaving items on top of lockers.

TOOL CHARGING LOCKERS

Each compartment fitted with single socket.

LOCK OPTIONS

When considering a lock type, you'll need to consider security, convenience, on-site management and ultimately what is best for your environment. Our range of optional locks will cover all requirements. Ring us for details and pricing.

COIN/TOKEN RETURN LOCK

Ideal when lockers have 'shared' users. The key is released when coin (£/€) or token is inserted. Key is captive again when the door is reopened and the coin/token is returned to the user.

COMBINATION LOCK

The 4 digit code combination lock has 10,000 possible combinations, making losing keys a thing of the past. Suitable for multi user applications. Master override key sold separately.

COIN/TOKEN RETAIN LOCK

Generates revenue from 'shared' user lockers. The key is released when coin (£/€) or token is inserted. Key is captive again when the door is reopened. Coin/token is retained in the box.

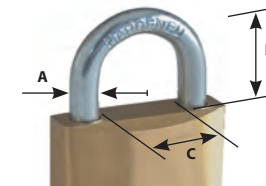

DIGITAL COMBINATION LOCK

Simple to use, battery operated keyless lock with a choice of single or multi-user operation. Master override key supplied separately. Supplied as single user operation.

PADLOCK SPECIFICATION

We recommend the use of padlocks with the following dimensions:

	Minimum	Maximum
Shackle Diameter (A)	6mm	7.5mm
Top Dimension (B)	19mm	25mm
Shackle Internal (C)	19mm	25mm

INDUSTRIAL CUPBOARDS

HAZARDOUS SUBSTANCE CUPBOARDS

It is essential that employers and employees comply with their legal obligations under the 'Control of Substances Hazardous to Health' (COSHH) and 'Dangerous Substances and Explosive Atmospheres Regulations 2002' (DSEAR) workplace safety regulations.

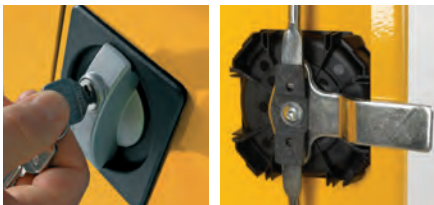

**SHELF LOAD
UP TO 45kg**

HAZARDOUS SUBSTANCE CUPBOARDS

Supplied with appropriate safety labelling, the highly visible yellow colour of the cupboards also ensures awareness of the potential danger of the materials stored.

- Epoxy powder coating in high-visibility yellow RAL 1003.
- Independently assessed to conform to HSG51 and SR24.
- Safety labelling in accordance with BS 5378.
- Fully welded integral sump to eliminate leakage and contain spillages up to 35ltrs (approx). Reinforced doors for added security.
- All units 790mm and above feature 3-point locking for additional security.
- Flush fitting handle for smaller cupboards under 770mm with Camlock as standard.

Flush fitting handle for easier operation; eliminates risk of snagging when handling potentially hazardous substances. Door can be closed without the key being inserted on all 790mm plus units.

Adjustable shelves to maximise space for stored material

In the event of spillage within the cupboard, it is recommended the sump is initially emptied by means of an appropriate pump and the contents disposed of correctly in accordance with the relevant waste management regulations.

Range of cabinets for the storage of small quantities of flammable or chemical products guidelines

Need HAZARDOUS
CUPBOARDS in a hurry

INDUSTRIAL CUPBOARDS

LOUVRE PANEL CUPBOARDS WITH LINBINS

This is a toughened steel grey cupboard, that comes complete with a rear fitted louvre panel, along with shelves to provide storage of small parts.

Very popular in the automotive industry and when the small parts are valuable and need some additional security. Re-enforced doors and 3-point locking add a greater level of security.

Ideal solution to stowing away small parts easily and safely

ANTI-BACTERIAL CLEAR LINBINS

Our antibacterial clear Linbins are designed for specialist use in hygiene sensitive zones. The antibacterial additive minimises the spread of germs and diseases.

Made from the same quality materials and with the same capacities as our classic Linbins, you are assured of a tough, durable storage solution.

- A favourite in schools, hospitals, and surgeries
- Also popular with mobile health units and ambulances
- Often used in kitchens and areas where food is present
- Often sold with shelving and cupboards, which also has been coated with antibacterial additive

PERFECT FOR:

- ✓ HOSPITALS
- ✓ DENTISTS
- ✓ AMBULANCE UNITS
- ✓ MOBILE MEDICAL CENTRES
- ✓ SMALL STOCK ROOMS

LINTRAYS

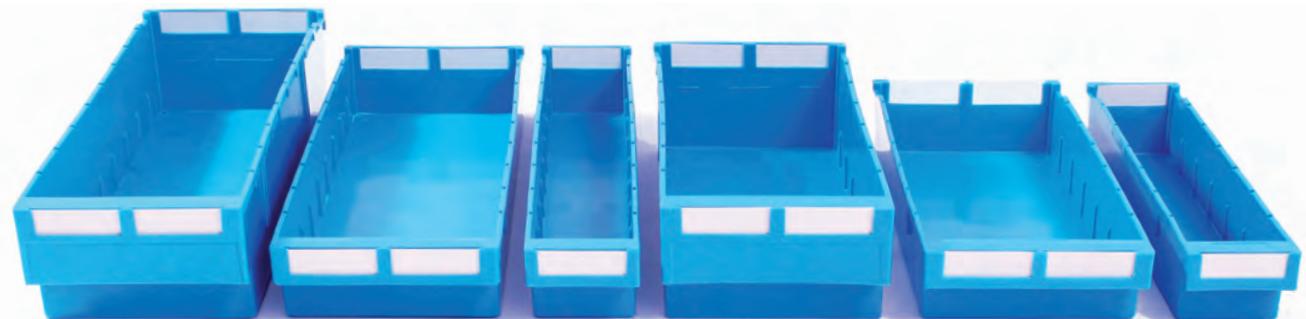

STANDARD & ESD LINTRAY STORAGE

Lintrays are particularly designed for shelving cabinets and storage systems. This product is popular in the electronic and automotive industries. The Lintray comes with features that ensures greater productivity, with quick stock access and improved work safety.

- End stops fit to the back of the trays and keep the tray at the optimum angle for picking
- Index cards at the back of the trays, as well as the front, to make stock picking quick and accurate
- 500mm trays can be divided, to provide up to 9 individual compartments
- Each pack of Lintrays comes with 40 labels

STANDARD DUTY SHELVING AND GREY LINBINS

Our Standard Duty adjustable shelving is built and designed in our factories in the UK. Easy to build boltless assembly with Grey Industrial Linbins - simply tapped together with a mallet. It's strong too; each shelf can take up to 360kg UDL (uniformly distributed load). Open all sides gives unrestricted access.

- 18mm FSC certified chipboard shelves for additional strength
- Steel feet for floor fixing and protection
- Up to 360kg UDL per shelf (uniformly distributed load)
- Comes with Size 7 LinbinS (H180mm x W210mm x D375mm)

LOUVRE PANELS & LINBIN STORAGE SOLUTION

What you need to know

- Each LINBIN size will require a certain amount of space on a louvre panel. This is called the LINBIN Unit (LBU).
- The number of LINBINS each panel can accommodate is called the LINBIN Unit Capacity (LBUC).
- Adding together the LINBIN Unit values, should match the LINBIN Unit Capacity, to utilise the full space available.

EXAMPLE

On a louvre panel with a LBUC of 16 (Code: VLP1) you can fit:
8 Size 2 or Size 3 Linbins as they have an LBU of 1 = 8 LBU
2 Size 6 Linbins as they have an LBU of 4 = 8 LBU

LINBINS™

Wall mounted louvre panels provide a valuable and versatile storage unit.

Fixing holes are positioned so they can be interlinked, for a continuous run. They are often used for bench ends, sides of desks and even backs of doors.

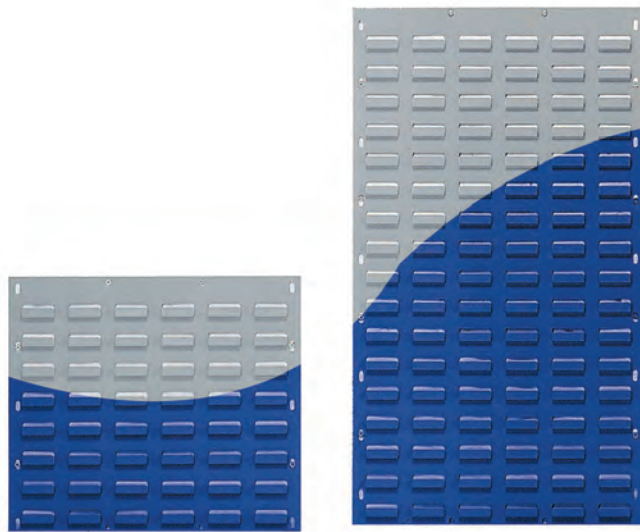

- Made from pressed steel for durability
- Epoxy powder coated paint gives a smart appearance
- Suitable for walls, desks, workbenches and doors

HOW TO SPECIFY YOUR LOUVRE PANEL & LINBINS

1 Choose your louvre panel

COLOURED WALL LOUVRE PANELS

Wall Mounted Louvre Panels provide a valuable and versatile storage unit. Made from pressed steel and finished in either grey or blue epoxy powder coating, they give a durable and smart appearance. Fixing holes are positioned, so they can be interlinked for a continuous run. They are often used for bench ends, sides of desks and even backs of doors.

- Available in Four Sizes in grey or blue
- Made from pressed steel for durability
- Epoxy Powder Coated Paint gives a smart appearance

Code	LBUC**	Height	Width	Pack Qty	Each
VLP1--	16	450mm	500mm	1	£14.16
VLP2--	32	900mm	500mm	1	£20.52
VLP3--	52	1400mm	500mm	1	£25.41
VLP4--*	68	1800mm	500mm	1	£40.56

BL GR

Please add suffix when ordering: Blue (BL) or Grey (GR)

* Made up of 2 x 900 x 500mm panels

WELDED SPIGOTS

The ideal solution to hanging awkward shaped products or items on a louvre panel

- Welded spigots with 16swg plate and (16mm) square tube or (12.7mm) dia. round tube. Zinc plated.
- Use with Linbins for hanging products like scissors and small tools on a louvre panel

Code	Length	Capacity	Type	Each
WLS1	150mm	10kg	16mm square	£2.77
WLS2	300mm	5kg	16mm square	£8.22
WLS3	150mm	9kg	12.7mm diameter	£2.73
WLS4	300mm	2kg	12.7mm diameter	£3.00

MOBILE LOUVRE PANEL UNITS

Easy to use for moving stock to and from production lines, for mobile picking areas, additional capacity alongside a workbench and temporary storage locations

- Freestanding for ease and flexibility of use
- Strong and durable all steel panel and base
- Epoxy powder coated finished with grey panels and blue stands
- Comes with 2 braked castors as standard
- Available as a double sided unit
- Different number of Linbin combinations of size and colour

FROM ONLY
£764.13

WORKSHOP

TOOL CABINETS

Versatile tool cabinets in four overall sizes, with various combinations of painted drawers and galvanised shelves.

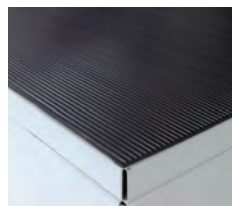

All cabinets feature a secure barrel lock, operating a 3-point locking system.

Steel extension drawers are 90mm high with 25kg load capacity (evenly distributed). Safety stop allows extension up to 80%. Height adjustable in 25mm increments.

Heavy duty galvanised shelves are adjustable in 25mm increments. Safety stop allows extension up to 80%.

Rubber mat is fitted to the top of all low cabinets.

SUPER COMPACT TRUCKS

These folding Super Compact Trucks, which are constructed from lightweight aluminium, are ideal for lifting loads across a wide range of environments including offices, warehouses, residential properties and schools. They are easy to fold and unfold which allows for convenient and compact storage in seconds. This enables it to be stored or transported in restricted spaces such as the boots of cars and vans to assist with deliveries. The GI025Y & GI033Y have elasticated load retaining straps to secure the goods in the correct position on the truck and prevent them from falling and sustaining potential damage.

- Lightweight aluminium construction which is simple to use, easy to carry and folds/unfolds quickly
- Can be stored and transported in confined spaces making them ideal for deliveries
- GI025Y & GI033Y - complete with load retaining straps
- GI043Y - comes complete with knuckle guard hand grips

DRUM HANDLING

DRUM DOLLIES

- Design allows loading by overhead lifting
- Suitable for moving standard 210L drums
- Fitted with 4 x 75mm swivel castors

INFORMATION

To be loaded by overhead lifting when moving 210L drums

FROM ONLY
£98.10

DID16Y

DID09Y

Code	Description	Size L x W x H mm	Each
DID16Y	Plastic Dolly	616 x 616	£98.10
DID09Y	Steel Dolly with 750mm High Handle	615 x 615	£104.95

DRUM HANDLER

- CE marked & plated
- Designed to carry full or empty 210 litre steel drums
- This unit smoothly lifts the drum (in 20mm increments) which is held firm by the clamp
- Mobile on 2 fixed 130mm polyurethane wheels & 2 swivel 120mm polyurethane castors
- Lifting height: 250mm

Drum locking mechanism

INFORMATION

Designed to move drums from both UK & Euro Pallets

Code	Size L x W x H mm	Each
DL250Y	812 x 1219 x 1100	£695.10

ONLY
£695.10

DRUM TRANSPORTER

- CE marked & plated
- Designed to carry full or empty 210 litre steel drums
- Drum is held in position by an adjustable hook
- Mobile on 2 x 250mm solid rubber wheels & incorporates 2 x 160mm supporting rear castors
- This unit is produced/balanced in such a way that it should only be used with full or empty drums

ONLY
£666.65

INFORMATION

Drum is held to the unit securely by using an adjustable hook

Code	Size W x H mm	Each
DH483J	740 x 1600	£666.65

DRUM LIFTER

- CE marked & plated
- Designed to carry full or empty 210 litre steel drums
- Foot operated hydraulic pump
- This unit smoothly lifts the drum which is held firm by the clamp
- Mobile on 2 fixed & 2 swivel 125mm nylon castors
- Lifting height: 740mm

Drum locking mechanism

INFORMATION

Designed to move drums from both UK & Euro Pallets

Code	Size L x W x H mm	Each

DRUM LIFTER

- CE tested
- Designed to carry full or empty 210 litre drums
- Hydraulic pump smoothly lifts the drum which is held firm by the top rim clamp
- The retractable clamp holds the drum securely & releases automatically
- Mobile on 2 x 180mm polyurethane wheels & a rear 125mm swivel polyurethane castor
- Lifting height: 200mm

INFORMATION

This drum lifter can transport plastic & steel drums

ONLY
£438.55

7 DAY
DELIVERY

250kg

Code	Size L x W x H mm	Each
DL388Y	820 x 785 x 1050	£438.55

DRUM LIFTERS

- CE marked & plated
- Foot operated hydraulic pump
- These units will load / unload 210L steel drums from pallets / ground with ease
- The grip holds the top rim of the drum, the user then pumps the foot pedal to lift the drum
- Wheel into position & lower accordingly
- The foot pedal hinges up helping to prevent knocked shins whilst mobile
- DLL03Z is easily manoeuvrable on 2 fixed, 2 swivel 130mm wheels, one with brake
- DL450Y is mobile on 2 fixed & 2 swivel braked 125mm polyurethane castors
- 450kg load capacity up to 500mm (DL450Y has a capacity of 350kg above this height)

INFORMATION

Designed to move drums from both UK & Euro Pallets

WHEELS & CASTORS

LIGHT DUTY TOP PLATE OR BOLT CASTORS

- PFH fixed castors: heavy gauge press formed sideplates welded to the top plate
- PSH swivel castors: heavy duty forged steel top plate joined to an outer swivel ring by a full complement ball race running in hardened tracks. The race serves as both a thrust & radial bearing & is provided with a nylon seal at the top & greased through a hydraulic nipple. The closed base of the ring prevents downward escape of the lubricant & completes the grease reservoir. The sideplates are press formed to a cylindrical shape to give the best strength to weight ratio & are continuously welded to the swivel ring
- Top plates are 149 x 110mm with 105 x 80mm centres & holes drilled to suit M12 bolts

CAN BE USED WITH

VULCAN® WEIGH SCALE Pallet Truck

- Conform to EN 1757-2
- Fork width: 182mm
- Raised height of forks: 200mm
- Ergonomically designed handle with a 3 position control lever
- Accuracy (+/- 0.5% and in 2kg increments)
- Electronic lifting height indication in display
- Highly reliable - all components are compact, designed for mobile use & low power usage
- Water & dust proof to IP65. IP65 allows the pallet truck to be used outside or on lorries & can be cleaned with water (normal pressure). The load cells in the forks have an even protection level
- Power supply - built in rechargeable batteries give up to 70 hours use from one charge
- 200mm polyurethane steering wheels & 74mm nylon tandem front rollers

PALLET TRUCKS

**VULCAN® SEMI POWERED PALLET TRUCKS**

- Conform to EN 1757-1
- Fork width: 54mm
- Raised height of forks: 205mm
- Lowered height of forks: 85mm
- Modern, compact & light design makes this unit suitable for application in a variety of warehouses, supermarkets & even on large lorries
- Brand new Lithium maintenance-free, pollution free battery that is slower discharging & requires significantly shorter time to recharge
- 400W motor driven without the need for pushing or pulling.
- Maximum driving speed of 4.8 km/h
- CURTIS controller unit with a nonpolar speed controller
- Incorporates stabilising wheels either side of the drive wheel arrangement
- 50mm polyurethane steering wheels & 80 x 60mm polyurethane tandem rollers
- Power supply: 24V/30A. Complete with 13amp single phase 3 pin charging plug
- 8 hours average runtime and 3 hours runtime for continuous use
- Spare battery available - call for details
- Can be used as a normal Pallet Truck by disengaging the brake lever

VULCAN® FULLY POWERED STACKERS

- Conform to EN 1757-1
- Turning radius: 1485mm
- Battery voltage: 2 x 12/85 V/Ah powerful maintenance free batteries (large 12/106 V/Ah are available - call for details)
- Built in charger with battery discharge indicator, with automatic lift cut off function, ensure high battery lifetime
- Fully powered stacker, with duplex mast lifting, that provide smooth travel & lift with easy to operate controls
- High quality hydraulic pump ensures very little noise, maximum efficiency, durability & shortens the lifting time
- Four wheel supporting design at the driving end, with offset tiller for perfect view, allows stable & safe operation when the truck is used for high position stacking
- Compact & ergonomic design improves operator performance

**VULCAN®**FROM ONLY
£3356.⁹⁵**VULCAN® FULLY POWERED COUNTERBALANCE STACKERS**

- Conform to EN 1757-1
- Duplex mast allows good sight through the mast uprights
- Short wheel base, compact & low noise
- Adjustable fork spread to handle all pallet types
- Uses latest AC control technology for superior control & battery life
- External battery charger means that the truck can be charged from any convenient UK 3-pin socket
- Heavy duty traction battery for 8 to 9 hours continuous work
- Smooth step less drive controls
- Power steering & full free lift
- Can pick up closed board pallets, standard UK pallets & Euro pallets
- Lowered fork height: 80mm

Why Choose Me?

- ✓ Wheels fitted at the front enable the steps to be tilted forwards
- ✓ The anti-slip treads on WS2 models have the following advantages over rubber treads: do not peel up; are REACH compliant; provide more grip when exposed to liquids

FORT® DOMED FEET STEPS

- These steps glide easily across floors, but once body weight is applied they stay firmly in position
- Tread size of 400W x 150Dmm and platform size of 400W x 300Dmm

FROM ONLY
£229.³⁵

**Why Choose Me?**

- ✓ Impact resistant domed feet that are welded, not bolted & do not break (subject to normal use)
- ✓ The anti-slip treads on WSS models have the following advantages over rubber treads: do not peel up; are REACH compliant; provide more grip when exposed to liquids

The design incorporates a heavy duty pressed steel dome with an annular flange to facilitate the mounting of a moulded plastic rim which is shrink fitted for ultimate durability. The turned out rim gives significantly increased lateral strength & protection from side impact forces

*Blue Fort® Easy Glide Domed Feet Steps only available on 3 day delivery

Why Choose Me?

- ✓ Impact resistant domed feet that are welded, not bolted & do not break (subject to normal use)
- ✓ All weather, non-slip, injected moulded tread version available
- ✓ Design gives stability whilst enabling you to get close enough to prevent over-reaching

FORT® GAMMA BS EN 131 PROFESSIONAL DOMED FEET STEPS

- **Certified to BS EN 131 Professional**
- Tread size of 415W x 145Dmm and platform size of 410W x 410Dmm
- These steps glide easily across floors, but once body weight is applied they stay firmly in position
- 1000mm high handrail for greater user safety

The design incorporates a heavy duty pressed steel dome with an annular flange to facilitate the mounting of a moulded plastic rim which is shrink fitted for ultimate durability. The turned out rim gives significantly increased lateral strength & protection from side impact forces

Why Choose Me?

- ✓ Only range of domed feet steps to go up to a 6 tread
- ✓ Impact resistant domed feet that are welded, not bolted & do not break (subject to normal use)
- ✓ Extra large comfort platform
- ✓ 1000mm platform rail prevents over-reaching

Injected Moulded Treads

Mobile on 4 spring loaded 80mm swivel castors. When body weight is applied the castors retract leaving the steps firm & safe on rubber feet

Why Choose Me?

- ✓ When in use the castors & feet give 8 points of contact with the floor to give extra stability
- ✓ Combines the flexibility of weight reactive sprung castors with the height of a traditional warehouse step

Colours available:
Blue Red Green Grey

Code	No of Treads	Platform Height	Size H x W x D mm	Each
GS7012	2 with Handle	470mm	1330 x 510 x 620	£528.65

FORT® WEIGHT REACTIVE STEPS

- These steps glide easily across floors, but once body weight is applied they stay firmly in position
- Tread size of 400W x 150Dmm and platform size of 400W x 300Dmm

Why Choose Me?

- ✓ When in use the castors & feet give 8 points of contact with the floor to give extra stability
- ✓ The anti-slip treads on WS7 models have the following advantages over rubber treads: do not peel up; are REACH compliant; provide more grip when exposed to liquids

Mobile on 4 spring loaded 80mm swivel castors. When body weight is applied the castors retract leaving the steps firm & safe on rubber feet

EQUIPMENT

MOBILE, SAFETY & WAREHOUSE STEPS

MS1809M

FROM ONLY
£429.15

Why Choose Me?

- ✓ Combines the flexibility and manoeuvrability of weight reactive sprung castors with the biggest platform available on a weight reactive step - up to a 6 tread
- ✓ 7 tread and above features our unique grip lift mechanism for speed, ease & safety (preventing ascent in mobile mode)

FORT® DELTA BS EN 131 PROFESSIONAL STEPS

- **Certified to BS EN 131 Professional**
- Tread size of 500W x 145Dmm and platform size of 500W x 400Dmm
- 2-6 Tread Units:
Mobile on 2 rear wheels 150mm dia & 2 front spring loaded castors to achieve weight reactive function. Units move freely when pushed (unmounted) & stand firmly on ground once they are in use
- 7-10 Tread Units:
Made mobile on 150mm wheels & the use of a unique grip lift mechanism facilitating movement on 75mm retractable castors

2-6 tread units are mobile on 2 spring loaded 75mm swivel castors & 2 x 150mm rubber tyred wheels. When body weight is applied the castors retract leaving the steps firm & safe on rubber feet

FORT® BS EN ISO 14122 UNIVERSAL MODULAR PLATFORM SYSTEM

- Certified to BS EN ISO 14122
- These modular units, constructed from steel angle, can be placed alongside each other to create a large working area
- The Universal Modular Platform System comprises a range of basic modules that can be bolted together in various configurations to provide permanent access to machinery/equipment that cannot be reached from ground level
- Due to the modular design they are ideal for going round corners & the bridge modules are available to avoid obstructions or areas extending over conveyors
- Adjustable feet to accommodate uneven flooring
- Platform modules are designed & tested to achieve a load of 500Kg/m U.D.L. & a concentrated load of 150kg at any point
- Optional floor fixings are available for permanent floor fixing (recommended over conveyors & moving obstructions)

Optional Floor Fixings
4 off floor fix feet/set

BL23M	25 x 200	£1.80
BL53M	50 x 300	£3.45
BL73M*	70 x 300	£4.60
BL93M*	90 x 300	£5.75

CODE LABELLING

- High quality custom made location code labels produced quickly & efficiently
- They can incorporate alpha-numeric codes, directional arrows, check digits & barcodes
- Black text on white or yellow background
- Manufactured to your needs - call to discuss your requirements

YOUR COMPANY NAME HERE
- Non standard sizes are also available -

Location Labels (Standard)
A location label for each pallet location, can incorporate location code, directional arrows, barcodes & check digits (if required)

Split Beam Labels
Ideal for location on the floor & first beam level. The double text at eye level reduces the number of labels required for installation

Summary Labels
Labels positioned on the first beam level detailing the locations and barcodes for all upper levels

Upright Labels
Manufactured on rigid plate, the upright markers are ideal for use in walkways, fire exits or tunnel bays. The plates act like the summary labels & offer the user the facility to scan upper level locations from the ground

Low value orders may be subject to a handling charge - please call for details

WEIGHT LOAD NOTICES

- Sign to identify weight loadings & procedures (Supplied blank or printed with black text at no extra charge)
- Available in horizontal & vertical

MODULEAN™ LITE SHADOW BOARDS

- Smaller, lighter & movable Shadow Board
- Choose from a range of standard 5S boards
- Mix & match Modulean Boards to create your own mobile system that is simple to move & relocate around the industrial workplace
- The mobile stand with wheels on one foot holds two 500mm x 500mm Modulean Boards on each side, fixed with screws for a secure finish
- These smaller sized Modulean boards can also be used on their own by being screwed onto a wall
- Our racksack® trolley sack can also be used as an accessory to the mobile system, to help recycle & segregate waste on the go

ADBLUE® SPILL KITS

- All of these spill kits are verified AdBlue® compliant
- Highly absorbent pads manufactured in melt blown polypropylene
- The pads have a double sided fine fibre finish, to prevent linting and improve grip on smooth floors
- Pads are bonded for extra strength and also perforated for user convenience - 1 litre absorbent capacity
- The socks are manufactured in a strong, spun bonded skin & filled with recycled granulated cellulose wiper cloth

FAB100	100L Kit	5 x 1200mm Socks, 50 x Pads & 3 x Disposable Bags - Clip Top Bin	£111.95

Low value orders may be subject to a handling charge - please call for details

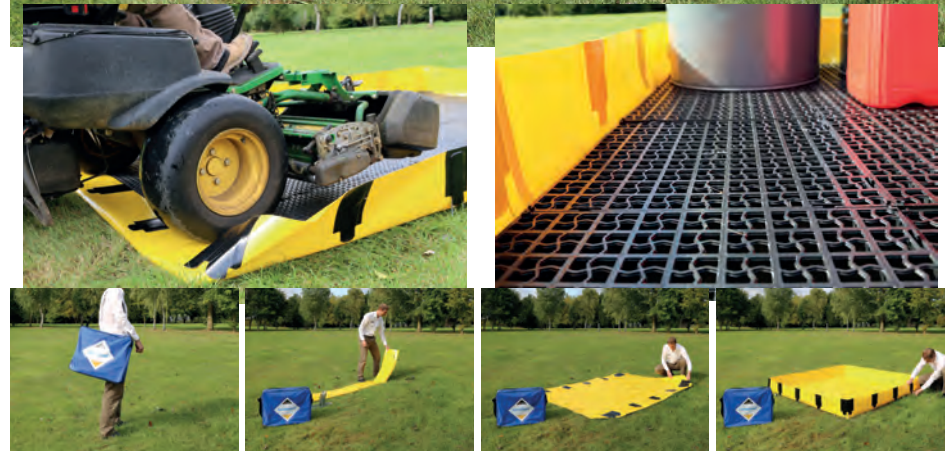

LEAK DIVERTERS

- Redirect roof or pipe leaks to prevent water damage
- Deal with your nuisance ceiling leaks without disruption to the workplace until a permanent repair can be made. This device can be hung from the roof directly under leaks to catch rainwater & divert it to a convenient collection point, keeping it off the floor, reducing the potential for slips & falls whilst minimising damage to goods & machinery
- Adjustable hanging straps (not included) ensure easy levelling & positioning - call for details. Standard UK Hozelock fittings ensure water can be safely channelled into a suitable receptacle or other convenient area
- Can be connected to a garden hose - not included

SECURITY CAGES

ssv03z

INFORMATION

Designed to comply with the Flammable Liquid Storage Regulations (1972) as appropriate & the Factory Inspection Guide HSG51

STORAGE VAULTS

- Designed to comply with the Flammable Liquid Storage Regulations (1972) as appropriate & the Factory Inspection Guide HSG51
- Adjustable vent meets the requirements of flammable storage (vents closed) & agrochemicals (vents open)
- All welded units conforming to the A.P.E.A. construction requirements
- Provide a half hour protection from collapse & the passage of flame
- Multi-lockable for high security & fitted with a lift up action lid assisted by gas struts
- For extra protection & fork lifting the units have skids on the base
- Middle shelves pivot on models SSV01Z & SSV02Z to enable larger items to be stored on the base level
- Model SSV03Z has a central partition & four shelves - the two middle shelves fold away & the two top shelves are made in 3 sections - the back section is fixed in position & the front two sections removable
- All models have a liquid-tight base to contain spillage

ssv02z

Code	Capacity	Size H x W x D mm	Shelves	Each

TERMS & CONDITIONS

1. ACCEPTANCE

Acceptance of any order by the purchaser for the supply of goods will be subject to these conditions of sale.

2. PRICES

PRICES QUOTED ARE NORMALLY EX-WORKS EXCLUSIVE OF VAT & CARRIAGE

Whilst we shall endeavour to maintain the prices shown, this we cannot guarantee & we reserve the right to charge the price ruling at date of despatch. In the event of a price alteration after an order has been placed & prior to despatch notification of such alteration will be made before despatch of goods.

Low value orders may be subject to an administration charge.

Prices will be subject to any customs tariffs following Brexit

3. SPECIFICATIONS

Due to continual improvements in the design & manufacturing methods strict accuracy of specifications & illustrations cannot be guaranteed. So that any product improvements can reach the purchaser as soon as possible the Company reserves the right to change design of specification without formal notice. Stated load capacities are for evenly distributed loads only & must not be exceeded.

4. GUARANTEE*

Where the goods have been supplied by the seller & are found to be defective, the seller shall repair, or at their discretion, replace defective goods free of charge within one year (unless otherwise stated) from the date of delivery, subject to the following conditions:

- 4.1 The buyer notifying the seller in writing immediately upon the defect becoming apparent.
- 4.2 The defect being due to faulty design, materials or workmanship of the seller.
- 4.3 Any goods to be repaired or replaced shall be returned to the seller at the buyer's expense, if so requested by the seller.
- 4.4 Where the goods have been manufactured & supplied to the seller by a third-party, any guarantee granted to the seller in respect of the goods shall be passed on to the buyer.
- 4.5 The seller shall be entitled at their absolute discretion to refund the price of the defective goods in the event that such price has already been paid.
- 4.6 Guarantee excludes product finish, locks, wheels & castors.
- 4.7 The remedies contained in this clause are without prejudice to the other terms & conditions herein.

5. DELIVERY

Delivery dates are estimates only & the company shall not be liable for any loss or damages resulting from any delay in delivery. In addition we shall not be liable for any matter which results from any act of God, war or riot, extreme weather, strikes or any other events which are beyond our control. The company reserves the right to deliver goods by instalments, each instalment being treated as a separate contract. Goods will be delivered at the point most convenient to our carrier, usually the goods inwards department or reception on the ground floor. Further transfer or installation within the purchasers premises, particularly for large or heavy items, must be arranged prior to delivery & will be charged extra.

We can also not take responsibility for deliveries that require pallet trucks or fork lifts to offload from the courier or move the goods within your premises. All goods must be examined upon receipt & any damage or discrepancy recorded with the carrier.

6. CLAIMS

All goods must be examined upon receipt & any damage or discrepancy recorded with the carrier. The company must be notified in writing of any damage or incomplete delivery within 3 days of delivery. No claims for shortage or damage will be entertained after a clear receipt has been given to the carriers. The company will not be liable if this procedure is not followed. Total non delivery due to loss in transit must be notified within 7 days of invoice.

Goods are not sold for any particular purpose, the end user should be responsible for the suitability of the product for use. The company shall not be liable for any indirect or consequential loss arising out of or in connection with the sale of goods. Any claim is limited to the value of the goods purchased.

7. RETURN OF GOODS

Standard goods will only be accepted for return after prior agreement with us & within 14 days of receipt. A handling charge may be imposed which will vary dependent on the condition of the goods when returned. Carriage charges for the outward journey plus the return of standard goods are payable by the purchaser. Bespoke goods manufactured specially for a customer will not be eligible for return.

8. RESERVATION OF TITLE

Goods supplied will remain the property of 'the company' until full payment is received. In the event of sale of these goods to a third party "the company" reserves title to the proceeds of sale. Responsibility for maintenance & insurance passes to the purchaser on delivery.
