

ESA

EPISCOPAL SCHOOL OF ACADIANA

GRATITUDE REPORT
2020-2021

Letter from Our Headmaster

September 2021

Dear Friends,

As you all know, the 2020-2021 school year was unlike any other. We're proud to say that our students, faculty, and staff showed true resilience, whether by adapting to COVID-19 protocols on campus or, in some cases, by staying up to date with classes while quarantining at home. They accepted changes to events, trips, and chapel with grace and cheer. While the year had significant challenges, collectively we emerged stronger as a school community, and our students' successes in academics, athletics and the arts proved once again that what we do here matters.

Last November, we launched our Annual Fund appeal using strength as our overarching theme. We're happy to report we surpassed our goal, with many first-time donors. As we begin this school year, I want to thank you in advance for your continued support. We are truly grateful for your partnership and for the trust you put in ESA. Your gifts send a message to our faculty and staff that you believe in their ability to bring out the best in ESA students and to prepare them to leave their marks in the world beyond the oaks.

On behalf of our students, faculty, and staff, Thank You!

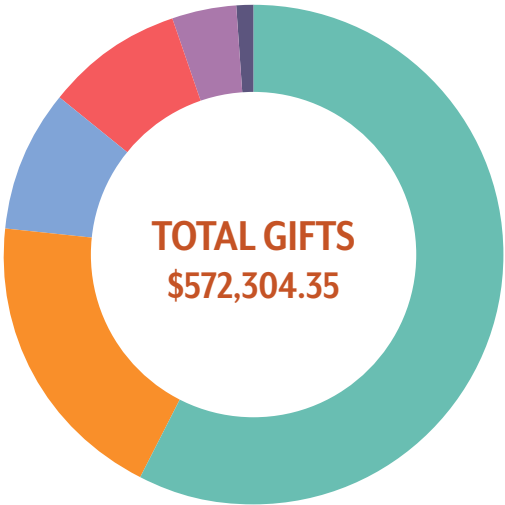

Paul Baker, PhD
Headmaster

FINANCIALS

2020-2021

Annual Fund	57%
Financial Aid	19%
Endowments	9%
Restricted	9%
Capital	4%
Falcon Club	1%

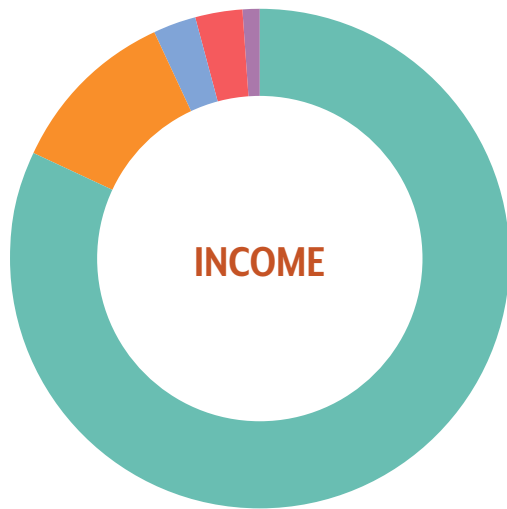

Alumni	20%
Current Parents	35%

Dr. Annie Spell

Mrs. Donna Troyanowski

LEGACY GIVING

The Smedes-Jardine Legacy Guild honors individuals who have provided for the school through deferred gifts such as bequests, life insurance, annuities, and trust agreements. The society is named in honor of Mrs. Smedes-Jardine, who donated the property where ESA now stands to the Episcopal Diocese of Western Louisiana. Planned gifts may be directed by the donor to provide unrestricted income or to be used for designated purposes such as endowment, capital improvements or program areas.

Martha B. Brown
Edna and Jim Cooper

"When schools ask for money beyond tuition, they're asking stakeholders to ensure that the best-trained, most committed adults are available to help students become everything they can be. Without that extra push financially from donors, virtually no school can achieve its goals."

—James McManus, Executive Director, CAIS

1979 LEADERSHIP SOCIETY

The following donors made gifts of \$5,000 or more to ESA's 2020-2021 Annual Fund. Supporting the Annual Fund gives the school maximum flexibility to respond to current year needs and priorities that directly impact the student experience. The school highly values donor confidence in its ability to allocate charitable dollars where most needed as well as having the faith in the school's mission that these gifts represent.

GIVING

GIVING CIRCLE DONORS

ESA gratefully acknowledges the following donors for their gift during the 2020-2021 school year in support of the Annual Fund. These unrestricted gifts are the second largest source of funding, after tuition dollars, and make up the difference to balance the budget.

SALLY HERPIN
ANNUAL FUND DONOR

HENTON SOCIETY

The Henton Society recognizes the most loyal supporters of the Annual Fund, the school's annual campaign for unrestricted support. Named for Bishop Willis R. Henton, first bishop of The Episcopal Diocese of Western Louisiana and Chaplain Emeritus of ESA and his wife, Mrs. Martha Henton. The Hentons were devoted financial supporters of the school from its start. This giving society recognizes donors who have given to the Annual Fund for three or more consecutive years. Faithful support of the Annual Fund is a hallmark of the strength of our community.

ESA OAK SOCIETY

The ESA Oak Society honors and thanks donors whose contributions during the 2020-2021 school year to the Annual Fund, Tates/Tutwiler Endowment Fund, the Falcon Club, restricted funds or pledge payments to the capital campaign, total \$2,500 or more. These generous leadership gifts provide the foundation of voluntary philanthropic support that sustains current operations and stewards the school for the future.

YOUNG FALCON SOCIETY

The Young Falcon Society recognizes alumni 35 years of age and younger who make a gift of \$250 or more to the Annual Fund or restricted funds. As members of The Young Falcon Society, these young alumni are recognized as leadership donors.

"ESA equipped me with the tools necessary to achieve academic success at both the undergraduate and professional level. I am grateful to every teacher, advisor, coach, and faculty member who invested in me during my time there. For these reasons, it is a privilege to be able to give back in each and every way possible. I will always be proud to say that I'm an ESA alumnus!"

LEX R. PIERRE IV, DDS, '09

ALUMNI DONORS BY CLASS YEAR

Gifts to the Annual Fund or restricted funds by alumni convey their ongoing belief in the school's mission and are an expression of appreciation from those who have experienced the benefits of an ESA education firsthand. Gifts from our alumni honor those whose generosity made their time as students at ESA exceptional. Donors are listed by class year in order to encourage participation and class unity.

"Donating to the Annual Fund, supporting the Falcon Club, and contributing to Tates/Tut means that you are gifting a learning experience for students who ache for the opportunity. It also means that as faculty, we aren't limited. We have the possibilities of trying something new, enhancing what we already do, and making sure our classrooms are equipped with the very best tools and minds in this area."

— Jennifer Desormeaux Graycheck, '01,
ESA Faculty and Coach

The 2020-2021 Gratitude Report represents the giving period of July 1, 2020 - June 30, 2021. We sincerely regret if we have made an error and ask that you contact us at 337.321.6795 to report any corrections. Thank you so much for your support of Episcopal School of Acadiana.

LOWER SCHOOL CHROMEBOOKS

In 2020-2021, we invested in classroom sets of Chromebooks for kindergarten, first, and second grade classes. In kindergarten, the Chromebooks became part of small group rotations. In addition to working with teachers and completing independent skills-based and hands-on projects, students can use programs and games on the Chromebooks to practice math and reading skills. The devices are also used for assessments, such as MAP testing, which allow teachers to gauge student's strengths and areas that need more attention. Using Chromebooks for these short activities help students to learn how to work with the devices. When they get their own Chromebooks in third grade, they are ready for more advanced technology-based learning.

SMART TVs

World Languages students and teachers benefitted from a classroom technology upgrade this year. Smart TVs replaced the decade-old interactive whiteboards that were no longer serving their purpose. The World Languages classrooms are the second set of rooms to benefit from the new interactive TVs, following all of the classrooms in the Enrichment Center on the Lafayette Campus. We'll continue to upgrade interactive displays in classrooms on both campuses as needed to facilitate teaching, virtual conversations, and student presentations.

ESA also invests in Google Workspace for Education Plus, a program that provides each student from third grade on with an esafalcons.com Gmail account, a Google Drive account, and access to Google Docs, Sheets, Photos, and many more applications, including Slides, which students use for presentations on Smart TVs!

SIXTH GRADE SCIENCE

For science teacher Bullard Jones and his sixth grade students, the picnic tables in the middle school quad serve as workbenches. Goggles on and surrounded by tools, they confidently approach the day's challenge. Mr. Jones asked ESA to invest in simple tools that he uses to teach students physical science concepts through hands-on projects. "We use simple machines to make simple machines," says Mr. Jones. In an activity completed last year, each group used hand drills, clamps, and handsaws to create a pulley system. Once they finished, they explored the mechanical advantages of pulleys and talked about how the simple machines they used helped with the project.

Mr. Jones' ninth grade physical science students use the tools and other everyday objects for hands-on learning as well. They learn about buoyancy and forces through the cardboard boat project, solids and structures as they build sturdy towers out of wooden dowels, sound and waves through creating musical instruments, and motion in the design of water rockets.
