

Explore Europe's wildest wetland, where a vast mosaic of swamps and dunes teems with life, from rare birds to wild horses, in a landscape shaped by water.

LIVING WATERS

— THE DANUBE DELTA —

Information

Original title: Das Donaudelta

Genre: Factual | Wildlife & Nature

Format: 1 x 52'

Year of production: 2024

Country of origin: Ukraine/Romania

Synopsis

The Danube Delta, Europe's second largest river delta, forms a 5,800 km² mosaic of waterways, swamps and islands.

The region is home to 340 bird species, including pelicans, eagles and colourful kingfishers, as well as rare reptiles such as the sand boa. Wild horses, descended from communist-era workhorses, roam the delta, threatening its 'delicate ecosystem. At night, bats take over, feeding on insects. The film explores this unique landscape – a wilderness shaped by water - contrasting its rich biodiversity with the poverty of local villages.
