Swakeleys School for Girls

Year 9 Curriculum Guide by subject: KS4 GCSE Year 1

SWAKELEYS SCHOOL FOR GIRLS

Year 9 students study 5 core subjects; English, English Literature, maths, science (trilogy worth 2 GCSEs), RE and a Language or Humanity (history or geography). They also study two additional GCSE option choices and have core PE and PSHCE as part of their non-examined core curriculum. The following provides families and students with guidance on what the full academic year of learning looks like for each subject. It outlines what Year 9 students will be taught, the type of assessment that students will experience and any resources that they will need. You can find this on our website at:

https://swakeleys.hillingdon.sch.uk/curriculum/curriculum-guide-year-9/

Year 9 also have an internal exam period of two weeks where each subject will hold 'exam style' assessments during the same two week period. These fall in Summer 2 and are to give students a taste of what final GCSE exams will be like when the time comes! There is a separate document which details the content for each subject for these exams which is also on our website (see the link above).

Contents:

Core curriculum:

- Maths
- English
- Science
- French or German
- Geography (also an option choice)
- History (also an option choice)
- RE
- PE (non-examined)
- PSHCE (non-examined)

Option subjects:

- Art
- Business
- Child Care
- Citizenship
- Computer Science
- Dance
- Design Technology
- Drama
- Food
- Health & Social Care
- Media
- Music
- PE (GCSE)
- Photography
- Psychology
- Sociology

MATHS

| Half term | Topics covered | Format of assessment | Resources, useful websites & extra- curricular opportunities |
|-------------------------|--|---|---|
| Autumn 1 (Sept –Oct) | Foundation Basic Number – big focus on numeracy Angles – drawing, measuring and rules Basic Algebra – simplify, expand, factorise, notation Decimals Higher Basic Number (the 4 operations, ordering) Rounding (significant figures) Angles (angles – including algebra) Basic Algebra (expand, factorise, notation) Decimals | Ongoing in class assessment, including regular skills checks. Formal assessment on this content will take place at the 2 nd half of the autumn term. | Use the Independent Learning tab on Sparx Maths to work on specific topics. |
| Autumn 2 (Oct-Dec) | Foundation Fractions Percentages (converting between the 3 types, 4 operations, worded problems) Factors and multiples Collecting and representing data: Tally, bar, time series, pie – draw and interpret Higher Fractions Percentages: Converting between 3 types. Comparing numbers. Worded problems. Collecting and Representing Data (boxplots, histograms, pie charts, pictograms, bar charts) Factors and Multiples Sequences: Linear, quadratic, Fibonacci, geometric Coordinates and linear graphs: Midpoints, draw graphs, gradient, equation of a line, parallel and perpendicular lines Real life graphs | Ongoing in class assessment, including regular skills checks. A one hour written assessment covering the content of the term will be given in November. | Use the Independent Learning tab on Sparx Maths to work on specific topics. A self-assessment summary of the first term will be stuck into books during this term. |

PE (core, non-examined)

| Half term | Topics covered | Format of assessment | Resources, useful websites & extra- curricular opportunities |
|-------------------------------------|--|--|---|
| Autumn 1 (Sept – Dec) | Netball: Students will build upon skills learnt in KS3. Tactical awareness and set plays will be taught through game based activities. Health Related Fitness: Students will learn how to develop personal training programmes to achieve different fitness goals through the participation of different training types such as circuit, HITT, weight training, boxercise ect. Students will learn how to calculate training intensities and how to adapt | No formal assessment is completed. Assessment is ongoing every lesson by the teacher, self and peer feedback. | Full PE kit needs to be in school including trainers in case there is a need to change activity due to weather & internal exam considerations. Weekly netball club at lunchtime and also after school team practice and matches from Sep – April. |
| Autumn 2 (Oct-Dec) | training programmes to ensure the session is specific to the training aim. Tag Rugby: Students will learn basic, spin and pop passing techniques. Tactical awareness and set plays will be taught through game based activities. Basketball: Students will learn basketball specific skills such as footwork, dribbling, marking, and shooting. Tactical awareness, rules and set plays to be taught through game based activities. | | Weekly badminton club at lunchtime from Sep – April. Participation in sport inter-house competition. Application to become a Sports Leader and officiate in the borough primary SHA competition. Full PE kit. |
| Spring 1 (Jan-Feb) | Gymnastics/Trampolining: Students will focus on building core strength and flexibility to improve body tension and extension when performing static and dynamic moves. Students will learn how to perform skills with control individually, within groups and using apparatus such as the vault in gymnastics. Students will learn how to construct and perform short sequences and routines in trampolining. | No formal assessment is completed. Assessment is ongoing every lesson by the teacher, self and peer feedback. | Full PE kit needs to be in school including trainers in case there is a need to change activity due to weather & internal exam considerations. Weekly badminton and football club at lunchtime from Sep – April. |
| Spring 2 (Feb – March) | Badminton: Students will develop techniques in more complex shots such as drop shots, smashes and net play. Students should be able to score and umpire singles and doubles matches using key rules (eg court area/out, service rules). | | Participation in sport inter-house competition. Sport leaders will officiate for borough secondary Sports Hall Athletics Competitions. |

| | Table Tennis: Students will learn key skills such as service, push and drive shots as well as how to use effective footwork. Students should be able to score and umpire singles and doubles matches using key rules (eg service rules and scoring). Football: Students will build upon skills learnt in KS3. Tactical awareness and set plays will be taught through game based activities. | | |
|---|---|--|---|
| Summer 1 (April-May) Summer 2 (June –July) | Athletics: Students will take part in a range of events including sprints, middle distance, field events including javelin, shot and discus and jumps including long jump and high jump. This will build on skills and techniques learnt during KS3. Handball: Students will be able to transfer and adapt skills learnt from netball and basketball into the handball regulations. Students will also learn handball specific skills such as one/two handed catches, types of shooting and block tackling. Rules and tactical awareness will be taught through game based activities. Rounders/Cricket/Softball: Students will learn the key skills and techniques used for throwing (underarm, overarm) catching, bowling, fielding and batting. Rules and tactical awareness will be taught through game based activities. Volleyball: Students will learn the key skills and techniques of the basic skills needed in volleyball such as service, dig, smash and spike. Rules and tactical awareness will be taught through game based activities. | No formal assessment is completed. Assessment is ongoing every lesson by the teacher, self and peer feedback. | Full PE kit needed for all weather conditions as all lessons will be outdoor in summer 1 due to the public exam period. Athletics club at lunchtime and after school for Sports Day practice! Athletics club will run from April – June. Trials to represent the school in the borough athletics competition. Participation in multiple Sports Day events. |

The order and selection of activities the students complete may change between classes due to weather and KS4 & 5 exam considerations.

| Summer 1 (April-May) | Africa project continued Pupils will plan for their exam work creating personal and meaningful response to the topic of Africa. Focus on A03/A04 Thoughtfully refine ideas through purposeful and discriminating experimentation and selection of appropriate resources, media, materials, techniques and processes as their work progresses. | Examinations work will be assessed according to the AQA assessment objectives. | |
|--------------------------|---|--|--|
| Summer 2 (June –July) | Once exam is complete pupils will begin the Still life project. Still Life Project Still life art helps artists develop essential skills such as observation, composition, and the understanding of light and shadow. By focusing on inanimate objects, artists can hone their ability to capture detail and texture. Objectives: Understand what still life art is. Recognize basic elements of still life compositions. Activities: Discussion and Presentation: Show examples of famous still life artworks and discuss the common elements (objects, composition and lighting). Object Selection: Allow students to choose simple objects from home or school (fruit, toys, books) for their still life setup. Basic Drawing Exercise: Practice drawing one object from observation, focusing on shapes and proportions. Composition and Arrangement Objectives: Learn about composition and how to arrange objects in an interesting way. Activities: Light and Shadow Objectives: Understand the importance of light and shadow in creating depth. Shading Exercise: Practice shading techniques (hatching, cross-hatching, blending) using basic shapes. | Teacher Assessment Including Feed Forward Self and peer assessment throughout project Verbal feedback On-going written feedback will be on their PLC (personal learning checklist), which is kept in school in named folders. | KS4 art club for pupils available at lunch times to complete or catch up with work. |

DANCE

| Half term | Topics covered | Format of assessment | Resources, useful websites & extra-curricular opportunities |
|-------------------------|--|---|--|
| Autumn 1 (Sept –Oct) | Dance AQA GCSE Physical theatre Students will learn a set piece of contemporary where they will explore movement in a stylistically accurate way and they will learn movements they can use in their own choreography. Trust exercises in class including counter- balance and counter-tension are explored as well as simple weight giving and taking movements. Ingredients of dance and safe practice Students will understand the importance of safe practice; studio safety, movement execution, appropriate clothing, injury prevention and PRICE, hydration and diet. | Ongoing self/peer assessment. Assessment via mini tests of performance skills and safe practice. Group performance assessment of 'Rosas Danst Rosas'. Solo assessment of set phrase Breathe. | Check out the Performing Arts Extra Curricular programme. We'd love to see you there! Auditions for school production. ECAS perform in Winter Showcase. Resources on google classroom Purple Class Books |
| Autumn 2 (Oct-Dec) | Step Up to Dance GCSE Students will study topics to bridge the gap between KS3 and GCSE Dance. Topics include: 4 components of dance – action, space, dynamics and relationships. Simple choreographic devices and definitions for unison, canon, mirroring, accumulation and formations. Group Composition Students will learn 5 key motifs from 'Rosas Danst Rosas' using a chair. Students will then link the motifs and create a group performance of the piece and perform in class and at the Winter Showcase. Solo Performance Performance skills. Students will select, rehearse, practise, evaluate and perform part or all of the set phrase 'Breathe'. | | |
| | Students will learn how to perform a piece accurately showing correct action and timing content with confidence. Some will add expression and dynamic content to their performance. To perform at 105bpm. | | |

| Spring 1 (Jan-Feb) | Set Piece – Emancipation of Expressionism Students to explore a set works by using knowledge and understanding of how the dance is created, dance styles, dance components, stage/costume/music and lighting contexts and dance language to make critical judgements and interpretations about the dance. Students will create a group dance in | Ongoing self/peer assessment. Emancipation of Expressionism written assessment. Performance of choreography assessment. | Check out the Performing Arts Extra Curricular programme. We'd love to see you there! School Production performance. Instrumental lessons |
|-------------------------------------|--|---|--|
| | relation to the dance styles used using Emancipation of Expressionism as a starting point. This will be performed at Dance Evening. | Solo performance assessment. | Resources on google classroom Dance Evening in March. |
| Spring 2 (Feb – March) | Dance Composition Students will choreograph a dance to from a stimulus. They will start a choreography journal to map out and make notes of the process. | | |
| | Solo Performance Performance skills. Students will select, rehearse, practise, evaluate and perform all of the set phrase 'Breathe'. Students will learn how to perform a piece accurately showing correct action and timing content with confidence. Some will add expression and dynamic content to their performance. To perform at 105bpm. | | |
| Summer 1 (April-May) | Set work; A Linha Curva Students to explore a set works by using knowledge and understanding of how the dance is created, dance styles, dance components, stage/costume/music and lighting contexts and dance language to make critical judgements and interpretations about the dance. Students will create a group dance in relation to the dance styles used using 'A Linha Curva' as a starting point. | Ongoing self/peer assessment. Y9 written exam. Y9 group performance exam. Stimulus choreography assessment. | Check out the Performing Arts Extra Curricular programme. We'd love to see you there! ECAS perform in Summer Festival. Y9 group performance in Summer Festival. Year 9 Written and |
| Summer 2 (June –July) | Choreography based on a stimulus Students will compose a series of motifs based on a stimulus. Students will share ideas and collaborate to design a dance piece in groups of 2-3. PIAG Performance | | Performance Exams Students are given a revision booklet including the course GCSE content. |
| | PIAG Performance Performance skills. Students will select their own music to create a performance piece that shows off their performance skills. These include Technical skills, Physical skills, Expressive skills and Mental skills. This will be performed at the Summer Festival. | | Resources on google classroom Purple Class Books |

DESIGN TECHNOLOGY

| Half term | Topics covered | Format of assessment | Resources, useful websites & extra- curricular opportunities |
|------------------------------|--|--|--|
| Autumn 1 (Sept –Oct) | Exam board: Edexcel Design & Technology 9-1 Moving toy In this project, students will design and make an automaton, building upon skills with timber-based materials developed in Year 8. They will generate ideas using sketches and, following a reminder on safe working practices, realise these ideas using a range of manufacturing processes. To support their designs, they will learn about design briefs and customer profiles, and the operation of cams and followers and other mechanical devices. | FORMATIVE: *Response to questions *Observation of practical work *Response to questions during knowledge section SUMMATIVE: * Review of completed evaluations and product * End of unit assessment (written) | GCSE D&T Edexcel bitesize website |
| Autumn 2 (Oct-Dec) | Pewter pendant This project introduces students to working with metals and builds on learning about CAD, CAM and polymers from Year 7. Students will design a pendant using 2D CAD and create a simple mould from MDF using CAM with a laser cutter. They will test the mould using a polymer. Following a demonstration of safe working practices, they will cast their designs using pewter and finish their products using hand tools. During this project, students will learn about sources of metals, the different types of ferrous and non-ferrous metals and their applications and the processes used to make products from metals. | FORMATIVE: *Response to questions during knowledge section *Review of CAD drawing SUMMATIVE: *Review of manufactured moulds *Observation of practical work * End of unit assessment of completed product * End of unit assessment (written) | GCSE Bitesize Design & Technology Edexcel <u>https://www.bbc.c</u> <u>o.uk/bitesize/exam</u> <u>specs/zb6h92p</u> |
| Spring 1 (Jan-Feb) | Vase, vase, vase This project builds on students' understanding of working with CAD/CAM, polymers, timber and metals from previous projects. Students will generate ideas by making models of a flat-pack stand that can be used to support a test tube, so that it can be used as a vase. They will produce a CAD drawing of their design and manufacture it from polymer using a CAM method. They will manufacture it from a timber- based material and metal using manual processes. During this project, students will also consider the roles of the design context and brief, the use of templates and evaluation against a brief. | FORMATIVE: *Response to questions during knowledge section *Observation during making activities *Review of finished models SUMMATIVE: * End of unit assessment of completed product * End of unit assessment (written) | |

| Spring 2 | Sustainable bags | FORMATIVE: | |

FOOD

| Half term | Topics covered | Format of assessment | Resources, useful websites & extra- curricular opportunities |
|-------------------------|---|---|---|
| Autumn 1 (Sept –Oct) | Year 9 Food preparation & nutrition Preparing for practical work Where does bacteria come from? Appling the Eatwell guide Practical lesson- minestrone soup Micronutrients- nutrients in food, their sources and functions. How flour is made Practical lesson – shortcrust pastry for a tomato and basil tart Celebrating black history month: pupils research suitable dishes and produce a product of their choice. Nutritional needs of different groups of people Practical lesson – bread for a target group Sensory evaluation and star profiles Carrying out taste tests Creating star profiles Written half term assessment on the topics above. | Quizzes Teacher assessment of practical outcome: Execution of skills Finish & presentation Time management & food safety Organisation & preparation Independent working Homework assignments | Students must remember their kit: Hair tie (something suitable to tie up their hair) Food safe container (for taking their food product away/ home). High risk ingredients (e.g. cooked meat and poultry, dairy products) must be taken to the food room before registration and stored in the fridge. Please ensure your daughter has their name and form group labelled clearly on their ingredients/ bags. Free school meals (FSM) students will have ingredients provided. |
| Autumn 2 (Oct-Dec) | Food science: fermentation and caramelisation Practical lesson- Chelsea buns Cereals – turning flour into pasta Equipment – the pasta machine Practical lesson – making pasta Skills focus – flaky pastry, choux pastry and setting mixtures Gelatinisation and gelation Demonstration – chocolate blancmange Practical lesson- profiteroles British & international cuisine project Pupils research a cuisine of their choice, and choose a dish from the region to make. | *Observation during practical activities Quizzes Teacher assessment of practical outcome: Execution of skills Finish & presentation Time management & food safety Organisation & preparation Independent working Homework assignments | https://senecalearning.co m/en-GB/ Exam board: AQA Online textbook: https://www.illuminate.dig ital/aqafood/ |

| Spring 1 (Jan-Feb) | Dietary needs at different life stages: planning a light meal for a teenager Energy needs: 'Mexican madness'. Practical lesson- pupils will plan a healthy Mexican dish that contains protein, carbohydrate and at least 2–3 portions of your 5 a day. Nutritional analysis: 'Magic with mince'. To use nutrition information and allergy advice panels on food labels to help make informed food choices. Practical lesson: traditional Bolognese | Quizzes Teacher assessment of practical outcome: Execution of skills Finish & presentation Time management & food safety Organisation & preparation Independent working Homework assignments |
|--------------------------|---|---|
| Spring 2 | • Special diets: 'Respect the Risotto' | Quizzes |
| (Feb – March) | Adapting meals for special dietary needs Practical lesson- adapted risotto recipe for a dietary need. 'Best of British': learn key ingredients come from and how they are grown, reared or caught. Practical lesson- traditionally British hot meal that will appeal to school children Multicultural cuisine: a taste of Asia Practical lesson- pupils select a region to research and making a dish of choice. 'Sauces made simple': food science gelatinisation. Practical lesson- making a savoury dish that provides sources of vitamins and minerals. | Teacher assessment of practical outcome: Execution of skills Finish & presentation Time management & food safety Organisation & preparation Independent working Homework assignments |
| Summer 1 (April-May) | Trendy tray bakes- the technical challenge. Practical lesson- pupils will create a tray bake using their food science knowledge on aeration. Festival project: a mini NEA project exploring cultural food that could be served at a music/ sports festival. Internal summer exam: a practical task based on their festival project, and a written exam based on topics learnt throughout the year 9 course. Food science investigation- A mini NEA exploring cake making. | SUMMATIVE: * NEA assessment of completed product and evaluation using exam board criteria. |
| Summer 2 (June –July) | End of year project: Afternoon tea Pupils will learn the British traditions, explore functional & chemical properties of food and learn to make a variety of pastries, cakes and savoury treats. | Quizzes Teacher assessment of practical outcome: • Execution of skills • Finish & presentation • Time management & food safety • Organisation & preparation • Independent working Homework assignments |

HEALTH & SOCIAL CARE

| Half term | Topics covered | Format of assessment | Resources, useful websites & extra- curricular opportunities |
|------------------------------|---|---|---|
| Autumn 1 (Sept –Oct) | Component 1: Human Lifespan Development | Knowledge and vocabulary checks every lesson. | Resources on Google Classroom |
| | Learning outcome A: Growth and development across the life stages Main life stages Areas of growth and development Physical development Intellectual development Emotional development Social development | Ongoing self/peer assessment. Mini-written coursework report – C1 Task 1 (1 hour). | Class textbooks |
| Autumn 2 (Oct-Dec) | Learning outcome A: Factors affecting growth and development across the life stages Physical ill health and disabilities Lifestyle Emotional and social factors Cultural factors Environmental factors Economic factors | Knowledge and vocabulary checks every lesson. Ongoing self/peer assessment. Mini-written coursework report – C1 Task 2 (1 hour). | Resources on Google Classroom Class textbooks |
| Spring 1 (Jan-Feb) | Learning Outcome B: Life events Expected and unexpected life events Physical and mental illness Relationship changes Life circumstances | Knowledge and vocabulary checks every lesson. Ongoing self/peer assessment. Mini-written coursework report – C1 Task 3a (1 hour). | Resources on Google Classroom Class textbooks |
| Spring 2 (Feb – March) | Learning Outcome B: How individuals deal with life events Coping with change Adapting to change Informal sources of support Voluntary sources of support Professional sources of support Types of support | Knowledge and vocabulary checks every lesson. Ongoing self/peer assessment. Mini-written coursework report – C1 Task 3b (1 hour). | Resources on Google Classroom Class textbooks |

MEDIA

Due to potential teaching splits, the order of topics covered may vary by cohort. The student will always be informed of what topics they are covering with each teacher.

| Half term | Topics covered | Format of assessment | Resources, useful websites & extra- curricular opportunities |
|------------------------------|--|---|---|
| Autumn 1 (Sept –Oct) | An introduction to the subject is covered over a period of weeks, teaching key skills and vocabulary in order for all students to be able to access the course materials. This culminates in a practical project of the creation of a media product, practicing photography and editing skills. | Exam style question of the media language covered in a short film clip or trailer. Verbal feedback on the practical production project. | Eduqas set product factsheets Mrs Fisher on YouTube All resources posted on Google Classroom Film and Television ECA |
| Autumn 2 (Oct-Dec) | Students then beginning covering the set texts of the GCSE course, starting with print advertisements . The study the contexts, media language, and representation of the texts. These are currently a <i>Quality Street</i> and <i>This Girl</i> <i>Can</i> advert. | Media language and representation exam style questions | Eduqas set product factsheets Mrs Fisher on YouTube All resources posted on Google Classroom Film and Television ECA |
| Spring 1 (Jan-Feb) | Career's Week focus – Students work on a group project of creating a magazine company and producing an example of a front cover and social media posts, which prepares them for when they start doing coursework in Year 10. The set GCSE magazines are then started to be studied in terms of contexts, media language, and representation. We start by looking at the GQ set cover. | Whole class, verbal feedback after presenting their magazine company and productions. Media language and representation exam style questions | Eduqas set product factsheets Mrs Fisher on YouTube All resources posted on Google Classroom Film and Television ECA |
| Spring 2 (Feb – March) | We wrap up the set GCSE magazines by looking at the <i>Vogue</i> cover. The set GCSE film marketing is studied. <i>The Man With The Golden Gun</i> poster is covered for contexts, media language and representation. <i>No Time</i> <i>To Die</i> is covered for the same, but is also an introduction to Part B style questions focusing on industry and audiences. | An exam style representation and/or media language question Media language or representation is assessed with an exam style question | Eduqas set product factsheets Mrs Fisher on YouTube All resources posted on Google Classroom Film and Television ECA |

| Summer 1 (April-May) | <i>No Time To Die</i> is covered for the same topics at <i>The Man With The Golden</i> <i>Gun</i> , but is also an introduction to Part B style questions focusing on industry and audiences. | Then, a part B style assessment is covered for both Industry and Audience. | Eduqas set product factsheets Mrs Fisher on YouTube All resources posted on Google |
|--------------------------|--|--|---|
| | The year 9 internal exam will consist of a Section A assessment on media language and representation. 4 of the 6 studied texts will appear, but students will not be told which four. | Internal exam – media language and representation exam style questions | ClassroomFilm and Television ECA |
| Summer 2 (June –July) | The Video Game set text is introduced and covered. This is currently the <i>Fortnite</i> franchise. Students only study Part B industry and audience for this section. An independent practical project is then undertaken, looking to hone photography and editing skills outside of a group setting in order to best prepare for the coursework undertaken the following academic year. | Part B style questions Individual feedback for the practical project. | Eduqas set product factsheets Mrs Fisher on YouTube All resources posted on Google Classroom Film and Television ECA |

MUSIC

| Half term | Topics covered | Format of assessment | Resources, useful websites & extra-curricular opportunities |
|------------------------------|--|--|---|
| Autumn 1 (Sept –Oct) | Music Edexcel GCSE Step Up to Music GCSE Students will study topics to bridge the gap between KS3 and GCSE Music. Topics include: reading treble/bass clef, rhythms and time signatures, musical keywords, tones/semitones, major/minor scales, key signatures, modes/scales, intervals, chords and cadences. | Ongoing self/peer assessment. Assessment via mini tests. Ternary composition assessment. Solo performance assessment. | Check out the Performing Arts Extra Curricular programme. We'd love to see you there! Auditions for school production. ECAS perform in Winter Showcase. |
| Autumn 2 (Oct-Dec) | Ternary Composition Students to use keyboards, instrument of their choice to compose a piece in ternary form. Students will learn what makes a "good" melody. Students will notate ideas as notes or on manuscript. Students will learn how to compose a melody and add chords. Solo Performance Performance skills. Students will select, | Jingle bells remix assessment. | Instrumental lessons. Access to Focus on Sound <u>https://portal.focusonsoun</u> <u>d.com/</u> (Google Classroom logins) Resources on google classroom Purple Class Books |
| | rehearse, practise, evaluate and perform a piece of their own choice. Students will learn how to perform a piece accurately and fluently with confidence. Some will add expression and interpretation. To perform at a suitable tempo. Jingle Bells Remix Students will understand how to use Sibelius software to notate a composition. Students will understand how to add chords, harmony and develop a melody. | | |
| Spring 1 (Jan-Feb) | Music for Stage and Screen AOS3 Defying GravityStudents to explore set works by using knowledge and understanding of musical elements, musical contexts and musical language to make critical judgements about the music.Film Music Composition Students will compose a piece of music to suit a film brief. They will enter ideas into Sibelius. | Ongoing self/peer assessment. Defying Gravity listening assessment. Solo performance assessment. Film composition assessment. | Check out the Performing Arts Extra Curricular programme. We'd love to see you there! School Production performance. Instrumental lessons Access to Focus on Sound <u>https://portal.focusonsoun</u> <u>d.com/</u> |

| Spring 2 (Feb – March) | Solo Performance Performance skills. Students will select, rehearse, practise, evaluate and perform a piece of their own choice. Students will learn how to perform a piece accurately and fluently with confidence. Some will add expression and interpretation. To perform at a suitable tempo. | | (Google Classroom logins) Resources on google classroom Purple Class Books |
|---|---|---|---|
| Summer 1 (April-May) Summer 2 (June –July) | Music for Stage and Screen AOS3 Star WarsStudents to explore set works by using knowledge and understanding of musical elements, musical contexts and musical language to make critical judgements about the music.Image Composition Students will compose a piece in Sibelius to a brief of an image.Ensemble Performance Performance skills. Students will select, rehearse, practise, evaluate and perform a piece of their own choice either individually (solo) or in a group (ensemble). Assessment of solo or ensemble performance. Students will learn how to perform a piece accurately and fluently with confidence. Some will add expression and interpretation. | Ongoing self/peer assessment. Star Wars listening assessment. Y9 listening exam. Y9 solo performance exam. Image composition assessment. | Check out the Performing Arts Extra Curricular programme. We'd love to see you there! ECAS perform in Summer Festival. Y9 Ensemble performance in Summer Festival. PSYCHOLOGY

| Half term | Topics covered | Format of assessment | Resources, useful websites & extra- curricular opportunities |
|------------------------------|---|--|---|
| Autumn 1 (Sept –Oct) | Research methods Types of variables Formulation of testable hypotheses. Including null and alternative. Extraneous variables, randomisation, and standardisation. Sampling methods Qualitative and quantitative methods and types of experiments. Experimental design Ethical considerations Correlations, Questionnaires, Observation studies Case studies. Reliability and validity. | Knowledge and vocabulary check every lesson. Mid-term knowledge test – short answer questions (25 marks) | Lesson resources will be available on Google Classroom for consolidation and revision. https://www.illuminate.digi tal/ Digital textbook: Username: SSSFG6 Password: STUDENT6 Seneca |
| Autumn 2 (Oct-Dec) | <u>Research methods</u> Mean, median, mode and range. Recognise and use expressions in decimal and standard form: use ratios, fractions, and percentages, estimate results, find arithmetic means and use an appropriate number of significant figures. Estimate results, find arithmetic means and use an appropriate number of significant figures. Estimate results, find arithmetic means and use an appropriate number of significant figures. Practical investigation. | Knowledge and vocabulary check every lesson. End of term module assessment on research methods. Total marks - 25 Time – 30 minutes | Lesson resources will be available on Google Classroom for consolidation and revision. https://www.illuminate.digi tal/ Digital textbook: Username: SSSFG6 Password: STUDENT6 Seneca |
| Spring 1 (Jan-Feb) | Memory Encoding, storage and retrieval. Baddeley's study on encoding. Different types of memory: episodic, semantic & procedural The multi-store model of memory: sensory, short term memory and long term. Features of each store. Key study: Murdock serial position curve study. Primacy and recency effects in recall | Knowledge and vocabulary check every lesson. Mid-term knowledge test – short essay question. | Lesson resources will be available on Google Classroom for consolidation and revision. https://www.illuminate.digi tal/ Digital textbook: Username: SSSFG6 Password: STUDENT6 Seneca |

| Spring 2 (Feb — March) | Memory The theory of reconstructive memory, including the concept of 'effort after meaning' Key study: Bartlett's war of the ghosts study. Factors affecting accuracy of memory, including: Interference, Context, False memories. Practical investigation on memory. | Knowledge and vocabulary check every lesson. End of term module assessment on memory Total marks - 25 Time – 30 minutes | Lesson resources will be available on Google Classroom for consolidation and revision. https://www.illuminate.digi tal/ Digital textbook: Username: SSSFG6 Password: STUDENT6 Seneca |
|------------------------------|--|---|---|
| Summer 1 (April-May) | Perception The difference between sensation and perception. Visual cues and constancies – monocular depth cues. Binocular depth cues: retinal disparity, convergence Visual illusions – examples and explanations. Gibson's direct theory of perception – the influence of nature. Gregory's constructive theory of perception – the influence of nurture. | Knowledge and vocabulary check every lesson. Mid-term knowledge test – short essay question. | Lesson resources will be available on Google Classroom for consolidation and revision. https://www.illuminate.digi tal/ Digital textbook: Username: SSSFG6 Password: STUDENT6 Seneca |
| Summer 2 (June –July) | Perception. Factors affecting perception Perceptual set and culture. Key study: Bruner and Minturn – perceptual set and expectation. Perceptual set and emotion. Key study: Gilchrist and Nesberg – Perceptual set and motivation. Practical investigation on perception. | Knowledge and vocabulary check every lesson. Internal exam – 1 hour Topics to be assessed – Research methods and memory. Total marks – 50 End of term module assessment on perception. Total marks - 25 Time – 30 minutes | Lesson resources will be available on Google Classroom for consolidation and revision. https://www.illuminate.digi tal/ Digital textbook: Username: SSSFG6 Password: STUDENT6 Seneca |

SOCIOLOGY

| Half term | Topics covered | Format of assessment | Resources, useful websites & extra- curricular opportunities |
|-------------------------|--|---|---|
| Autumn 1 (Sept –Oct) | Sociological concepts Introduction Debate discussion Culture, norms and values Ethnicity & identity Government elections Parties & Policies Social class Consensus & Conflict Socialisation Feral Children | Knowledge and vocabulary check every lesson.
