Hectares of
Tin Mining License

Stania is the subsidiary of **Arsari Tambang**, currently Indonesia's largest private tin mining company and tin ingot producer with annual production 8,500 tons, owns 4 tin mining concessions with total area 2,175 Ha in Bangka Island, among 1 is offshore in Kelabat.

President Prabowo Subianto has set an economic growth target of 8%, with downstreaming as the key strategy to achieve the Golden Indonesia 2045 vision.

Arsari Tambang is committed to develop tin industry downstream along with the initiative of the President of the Republic of Indonesia, Prabowo Subianto, to persist natural resources downstreaming policy.

REALIZATION OF THE TIN DOWNSTREAMING PROJECT

Expanding vertically through downstream integration, the Stania Solder Bar Plant is Arsari Tambang's proactive response to the government's downstreaming agenda.

The Stania tin solder bar plant, with a production capacity of 2,000 tons per year, is located in Kawasan Industri Tunas, Batam. The groundbreaking ceremony took place on November 5th, 2024, and was inaugurated on July 10, 2025.

TIN SOLDER PRODUCT

Type		Spesification Component
Lead Free	SAC305	Sn 96.5%, Ag 3%, Cu 0.5%
	SAC0307	Sn 99%, Ag 0.3%, Cu 0.7%
	SC07	Sn 99.3%, Cu 0.7%
Leaded	SNPB63	Sn 63%, Pb 37%
	SNPB60	Sn 60%, Pb 40%
	SNPB300	Sn 99.7%, Pb 3%

Length (max) (mm)	Width (max) (mm)	High (max) (mm)	Weight (max) (kg)
330 ± 5	20 ± 5	10 ± 5	1

Notes

- Dimension of 1 piece of tin solder bar
- Dimension based on Regulation of Minister of Trade of Indonesia No. 2 year 2023

Product Capacity

2,000 ton/year or equivalent to 167 ton/month.

Product Type

Tailor made based on order.

STANIA FUTURE DEVELOPMENT

Stania is committed to tin downstreaming to the advanced material to support the manufacture industries of electronic, EV, solar panel and other high technologies.
