

HOST & HOME
THAILAND

Salone del Mobile 2026 • D10, Hall 7

Experience the Thai Spirit through Modern Elegance

Thailand's distinctive strength lies in its diverse natural resources, unique cultural identity, and a heritage of wisdom passed down through generations. Combined with refined craftsmanship and meticulous artisanal skills, along with creativity, design, and production innovation, these elements come together to create furniture and home decor products that suit modern lifestyles. Each piece has a unique Thai charm, captivating, elegant, and truly one of a kind.

The Host & Home Project, organised by the Department of International Trade Promotion (DITP), Ministry of Commerce, Thailand, has been held since 2015 to showcase Thai entrepreneurs in the furniture and home decor sector. The project highlights products that add value through unique designs and the use of

locally sourced materials. Our featured brands demonstrate exceptional craftsmanship and flexibility, catering to diverse requirements while keeping sustainability in mind.

The project specifically targets the hospitality market with a focus on Italy and other European countries. These are markets with high potential and strong reputations in the hotel and residential industries. The initiative aims to expand trade opportunities and enhance the international competitiveness of Thai brands.

In this e-catalogue, we invite you to discover 15 leading Thai brands participating in the Host & Home Thailand Pavilion at Salone del Mobile 2026. The exhibition takes place from April 21–26, 2026, at Fiera Milano, Milan, Italy.

Qurv

The essence of QURV lies in its name, echoing the curve. For us, the curve is more than a form, it is a philosophy.

Life does not move in straight lines, but flows, adapts, and finds harmony with its surroundings. QURV translates this belief into design that balances geometric clarity with organic fluidity, creating pieces that feel structured yet natural, modern yet timeless. At QURV, every surface is crafted to awaken a sense of nature. We shape textures that recall stone, sand, water, and earth.
