OUR VALUES

HANDMADE BY ARTISANS

The World's most handmade cards, which each take more than one hour to create.

GIVING BACK

Each purchase supports the Christina Noble Children's Foundation, which protects vulnerable children in Vietnam and Mongolia from poverty and exploitation, and provides them with the childhood they deserve.

AN ETHICAL APPROACH

Made from Italian FSC certified paper that has been recycled or is from regenerated forests, in studios that guarantee excellent working conditions.

This product has been sourced from PAPER ART VIET, a WFTO Guaranteed Fair Trade Enterprise.

OUR COLLECTIONS

Origamo products celebrate paper and craft. From the complex structural pop-up designs of our Kirigami Collection to the intricate paper quilled Filigrana Collections, each card takes more than an hour to make.

PAPER TECHNIQUES: FILIGRANA QUILLING

Featuring a paper filigree technique first used by Monks to embellish manuscripts during the Italian Renaissance period, paper quilling is an intricate process of curling strips of paper into a variety of shapes, and combining them to enhance an illustration.

The process means our talented artisans have to shape and glue every section of paper on every one of our filigrana products; which makes up the majority of our new Bookmark range.

This is why they are
"The World's most handmade bookmarks!"

VAN GOGH COLLECTION

Developed in partnership with the Van Gogh Museum in Amsterdam, this unique and officially licensed collection transforms Van Gogh's masterpieces into creations to be cherished and shared across the world.

WORLD RECORD HOLDERS

With 2024 being an anniversary year for Frida Kahlo, to mark the occasion Furio Ceciliato - founder of Origamo - wanted to create "The largest pop-up greeting card in the world", as a symbolic bridge between this female icon of strength, perseverance and independence with all the girls in the world, regardless of their social context, who should have the right to be able to pursue and realise their dreams.

The truly gigantic card is almost three meters high and has an area of 9.67 square meters. The new record was achieved on Thursday 11 January 2024 at the Fieramilano exhibition centre (Rho), on the occasion of the opening of Milano Home trade show.

The giant card, depicting Frida Kahlo and developed in official collaboration with the Frida Kahlo Corporation of Miami, also has a charitable purpose: to collect donations for the Christina Noble Children's Foundation, specifically supporting their 'Sunshine Homes for Girls'.
