License includes secure access to one PC, protected by multi-factor authentication and backed by 7-day Flotek support

Flo Control: Features & Benefits

Easy Remote PC Access
Flo Control allows you to securely access your work PC from anywhere using a lightweight app and your web browser – no VPNs or complex setup required.

Multi-Factor Authentication
Every session is protected by MFA, ensuring only authorised users can connect, helping you meet Cyber Essentials and other compliance standards.

Access Multiple PCs with One Login
Easily switch between multiple authorised devices using a single secure login – ideal for users managing several endpoints.

Real-Time Session Monitoring
Track who accessed what and when. View session history and audit logs to maintain visibility and accountability.

Remote Troubleshooting
Run diagnostics, transfer files, and resolve issues without needing to be physically present at the device.

Cross-Platform Compatibility
Supports both Windows and macOS, giving your team flexibility to work from any device.

Remote Printing
Print documents from your work PC directly to your home printer, making remote work even more seamless.

Secure Data Handling
All remote sessions are encrypted end-to-end, ensuring your data stays protected during every connection.

Scalable Licensing
Add users and devices as your business grows – no need for extra infrastructure or complex provisioning.

Simple Setup & Onboarding
Quick to deploy with free setup and training included. No technical expertise required to get started.

User Role Controls
Assign access levels based on roles to ensure users only see what they need, enhancing internal security.

Flotek Technical Support
Enjoy 7-day support from our expert team, with advanced diagnostics and remote assistance included.
