About us

At J&K Lovely Creations, we exclusively use our signature Chaleur Essence perfumes to add a luxurious and personal touch to your event. Our interactive Perfume Bar Experience lets guests discover a scent that reflects their unique style. Our perfume attendants are available to assist them in exploring the different options.

Perfect for weddings, birthdays, corporate events, and baptisms, the Chaleur Essence Perfume Bar creates a warm, elegant experience with a lasting impression.

Let your event be remembered—not just by sight, but by scent.

Our Story

We began crafting our perfume in 2022 by importing various ingredients and rigorously testing them to create a high-quality fragrance. Each element was carefully chosen for its unique properties, and our team worked tirelessly to perfect the blend.

Launching it was an exhilarating experience. The response from our resellers and buyers was overwhelmingly positive.

Chaleur Essence was born from the desire to capture the warmth of life's most beautiful moments. "Chaleur", meaning warmth in French, perfectly reflects our vision—fragrances that bring comfort, elegance, and lasting memories.

As we look to the future, we're excited to bringing new and enchanting scents to our customers.

Why choose us?

J&K Lovely Creation's Perfume Bar offers high-quality, long-lasting fragrances at affordable packages. We assure that our perfumes are suitable for sensitive skin and are made from the finest ingredients. Each scent is created to bring out a distinct touch of sophistication and elegance, making it an ideal complement for any event.

Experience the artistry and passion poured into each bottle, and let CE perfumes elevate your daily routine with style and flair.

At Chaleur Essence, we believe that scent is more than just a perfume – it is a story waiting to be told.

CHALEUR ESSENCE

Perfume tips

- Apply to pulse points like wrists, neck, and behind ears for heat diffusion.
- Use sparingly to avoid overwhelming others.
- Consider spraying into the air and walking through the mist for a subtle scent.
- Apply after a shower for better absorption.
- Store in a cool, dark place to maintain quality and scent.
- Choose a fragrance that complements your natural body chemistry for a more harmonious scent.
- Avoid rubbing your wrists together after applying, as this can break down the fragrance and alter its scent.
