OPEN DAY SUCCESS

JMA OPEN DAY 2024

Our Open Day event held on the 7th and 8th of September was highly successful, bringing together a large number of our customers, with our team, our brands – JMA, Maxus & IFAM, and several of our supply partners.

Throughout the event, attendees had the unique opportunity to see live demonstrations of the latest JMA key cutting machines, Gravotech engraving machines and Souber locksmith tools. As well as meeting with, Codelocks who displayed their keyless locking products, Viro with their range of padlocks and security products, and the MLA promoting the benefits of becoming a member.

It wasn't all about products, we had a great competition to win a wide range of prizes and provided a free lunch, from a local catering company, to keep everyone fed.

Feedback from both our customers and suppliers was overwhelmingly positive. Customers appreciated the hands-on experience and the chance to discuss product features with the experts, while suppliers valued the opportunity to connect in a more personal and direct manner. The event not only strengthened existing relationships but also opened the door to new business opportunities, reinforcing JMA UK's commitment to innovation, quality, and customer support.

A big thank you to everyone who made the day a success and to our customers who came and joined us.

If you couldn't make it, but would like to see product demonstrations, you can. Please contact sales@jma-uk.co.uk and let us know.

WORKSHOP - KEYS CUT TO CODE

WORKSHOP SERVICES

In our workshop, as well as the bench locksmith services we offer, we can also cut many different keys to code using our range of JMA electronic key machines, like the JMA MULTICODE NXT E.

We can cut a wide range of keys including locker, filing cabinet, domestic and security keys like the AVOCET, CISA, and Yale Superior® and Platinum® to name a few.

In accordance to current legal dispositions related to industrial property, the brands or commercial names indicated in this catalogue are the exclusive property of the manufacturers of cylinders and locks, as well as the manufacturers of automobiles. These brands or commercial names are used as mere information in order to quickly recognise the lock to which our parts correspond.

I-COPY XS FOB CLONER

ICOPY-XS FOB CLONER

The ICopy-XS Fob Cloner is the perfect tool to provide your customers with duplicate electronic cards and fobs.

Why ICopy-XS

With its wide coverage, you will be able to copy not only low-frequency fobs but also high-frequency, high-security fobs and cards currently not cloneable by other devices on the market such as the Smart Card Deluxe.

ICopy-XS

Is also easy to use.

Place the card/fob on the ICopy-XS and with a few presses of one single button, you can read and copy them.
