ABOUT US

With a legacy spanning over three decades, Larkin Engineering stands as a one of the industry leader in the field of Street Furniture and Steel Fabrication solutions in Ireland. Our reputation for excellence is built upon a purpose-built 20,000 square ft. facility located in Tuam, Co. Galway, where our dedicated team of highly skilled craftsmen precisely craft a diverse range of street furniture.

At Larkin Engineering, we take pride in our commitment to solving the challenges our esteemed clients encounter. Our investment in cutting-edge machinery empowers us to provide comprehensive solutions that cater to a wide range of needs. An impressive portfolio of robust and precisely designed street furniture, showcasing our expertise in working with materials such as mild steel, stainless steel, aluminum, galvanized steel & Corten Steel and as well as Iroko Wood, Oak ,Timber & Recycled Plastic.

Our accolades, including the prestigious Irish Exporters Association's First Flight Exporter of the Year award in 2008, underscore our unwavering dedication to innovation and quality. We are honored to have collaborated on successful street furniture projects with distinguished organizations like Bus Eireann, Belfast City Council, Iarnrod Eireann, and the National Transport Authority.

Larkin Engineering epitomizes a synergy of durability, customization, and sustainability in street furniture solutions. Our offerings transform urban landscapes into vibrant, inviting spaces. With a customer-centric approach at our core, we have been a preferred partner for architects, construction professionals, and end-users alike. Our bespoke products, precisely designed, flawlessly and sustainably manufactured, and expertly installed, blend seamlessly into urban environments, enriching lives and enhancing surroundings.

In choosing Larkin Engineering, you choose more than street furniture – you choose a commitment to quality that resonates with architects, contractors, and all stakeholders who share a vision for excellence and sustainable urban development. Join hands with us to create sustainable, inspiring, and dynamic urban spaces that stand as testaments to our collective aspirations.

Over three decades of Expertise

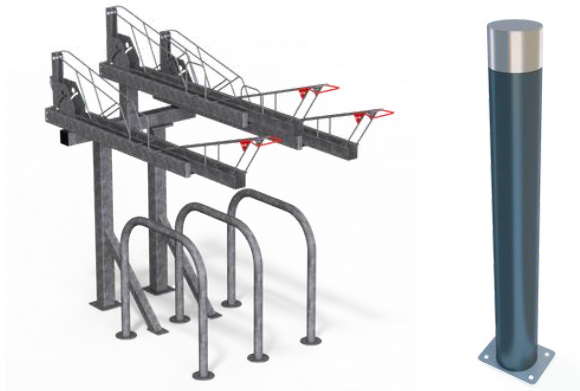

- We specialize in custom design and manufacturing.
- We have a strong in-house design team and a robust manufacturing facility.
- We are dedicated to serving urban planners and developers.
- We have a wealth of knowledge and experience working with the region's unique environmental challenges.

Design, Development and Manufacturing

Limitless Potential

Turning your project into a reality

- We help you bring your project to life by offering design consultation, concepts & estimation, production & manufacturing, and installation & maintenance services.
- We are known for our expertise in bringing projects to life, and we offer a range of services to help you every step of the way.
- We understand that every project is unique, and we tailor our services to meet your specific needs.
- We are committed to providing you with the highest quality service, and we guarantee your satisfaction.
