UNIVERSITY OF NORTHWESTERN OHIO

2025-2026

COLLEGE OF APPLIED TECHNOLOGIES

facts at a **GLANCE**

STATE-OF-THE-ART FACILITIES FOR HANDS-ON EDUCATION.

UNOH contains more than 200,000 square feet of classroom and shop space with each area dedicated to a particular major of study. You will work on training aids and technology used in the industry every day. In the College of Applied Technologies, 70% of the coursework is hands-on as students roll-up-their sleeves and practice what was taught in the classroom during the beginning of each session. You'll have the theory behind the technology to prepare you to be one of the best technicians in the business following graduation!

RANKINGS:

- NO. 1** FOR DEGREE PROGRAMS IN THE COLLEGE OF APPLIED TECHNOLOGIES

RACER LEADERS

RACER Leaders are made up of students from a variety of majors in all UNOH colleges. These student-leaders help out with Open Houses, Orientation Events, Student Activities, Graduation and more. Want to become a RACER Leader? Keep an eye out on your UNOH email or contact CampusEvents@unoh.edu.

CAMERON

Automotive, Diesel, & Agricultural Equipment
MICHIGAN

It's very important to get involved. I came down here knowing no one, so getting involved in all the different clubs, going to the Racer Station events, and just talking to people made it possible for me to have a good college experience. All the different clubs form their community of people who enjoy the same passions, be it drag or drift, and it's something that they gear their life around. I'd encourage everybody to get out of the dorm and meet people, get out, have fun, and make the most of it.

REAL RACERS

CHRIS

High Performance & Alternate Fuels ALUMNI
TEAM PENSKE

UNOH always had the newest, latest, greatest technology available, and it kept everybody on their toes because in the racing world, everything is changing. We're going to go to the racetrack next week with parts and pieces that changed from what we have here in Daytona. And UNOH was very similar to that, every class got better and better and when new technology came out, UNOH was the first place that had it.

JAMIE

High Performance Motorsports Technology, Business Administration ALUMNI
DRIVER, SPARKLE SMASH, MONSTER JAM

UNOH really set me up for success. I was a member of the UNOH Motorsports team and also joined the race club and was able to network at various ARCA events. I recommend everyone who attends UNOH to get involved and take advantage of the opportunities the University provides. That's how I was able to break into Monster Jam. **Now I'm living my dream driving Sparkle Smash at events around the country, all because UNOH helped me make those connections.**

BRANDON

Business Admin/Motorsports Marketing ALUMNI
FLAT ROCK & TOLEDO SPEEDWAY

I definitely wouldn't be where I'm at today without UNOH. There aren't many racing schools out there and I knew I wanted to work in racing but not on the technical or mechanical side. I could have gone anywhere for marketing, but **UNOH gave me the motorsports connections** that led me to my job as the General Manager of two area race tracks.

BRIANNA

Agricultural/Diesel Technology & Auto Tech Supervision ALUMNI
PENSKE

What I was most interested in was the 2+2 program, the ability to turn a technical associate's degree into a bachelor's degree. I wasn't sure if I wanted to own a business or if I wanted to move into leadership, so UNOH gave me **endless possibilities**. Taking a very industry specific bachelor's degree made it really easy for me to join the leadership team at PENSKE.

JORDAN

Automotive Technology & Automotive Technology Supervision ALUMNI
**PROJECT MANAGER, PERFORMANCE DRIVING INSTRUCTOR,
TRANSPORTATION RESEARCH CENTER**

So much of what I learned at UNOH applies to my everyday life at the Transportation Research Center. This enables me to work with our customers and clients to help them achieve the best testing possible. My Automotive Technology Supervision classes taught me how to manage projects from start to finish. **I wouldn't be where I am today at TRC if it weren't for UNOH.**

WHO HIRES UNOH GRADS?

REAL-WORLD EXPERIENCES

EDUCATION IS MORE THAN THE CLASSROOM.

At UNOH, we believe you need to learn from the best to become the best. Our students are given opportunities to work with top teams and companies in a variety of industries to make them more employable upon graduation. Students may have the opportunity to travel on weekends with a race team throughout the racing season. Many students are hired by these teams immediately following graduation. These partnerships give UNOH students another opportunity to gain real-world experience in the high performance motorsports industry.

ZACH

High Performance
MISSOURI

The **connections I've made through UNOH have been incredible.** My crew chief for the ARCA car in Daytona is Todd Parrot. He won the NASCAR Cup Championship in '99 with Dale Jarret. He has been a great help to me. I've met other crew chiefs. One of them has gone on to be the head engineer for the 34 Cup car now. So I've just met tons of people down here. Being hands-on in it all, it really helps my future by already having my foot in the door at Daytona as a student.

UNOH STUDENTS HAVE INTERNEED WITH:

ON-CAMPUS LIVING

HOUSING

The Housing Office at UNOH is committed to offering safe and affordable housing options to our students.

Students are not required to live on-campus; however, it can be very beneficial for new students to live on campus for at least the first six months so they are close to classes, recreational facilities, and all support services until they are better adjusted to the community.

MEAL PLANS

The University of Northwestern Ohio offers three types of meal plans for all enrolled students. Meal plans can be used at the UNOH Food Court, Pit Stop, Racers Café, or Lock Sixteen Steakhouse. There are one-, two-, and three-meal per day options. For snacks or extra meals, Racer Bucks can be added to any Student ID Card or Meal Plan. One Racer Buck is equivalent to \$1.00. Racer Bucks can be added with cash, check, or credit card. More information will be given at orientation about meal plans. You can also get info at www.unoh.edu.

MILITARY FRIENDLY

The UNOH Military Relations Department provides assistance to all active duty military, veterans, reservists, and National Guard members. This department assists with scheduling, financial aid, and transfer of credits. The Military Relations Department will assist you in your enrollment process and guide you through your chosen career path. The department is staffed by dedicated personnel who are educated on all educational benefits offered by the military. We accept the Joint Services Transcript and CCAF and honor credit equivalencies defined by the American Council on Education (ACE) for military course work, experience, and testing programs, such as CLEP and DANTES.

HIGH PERFORMANCE MOTORSPORTS TECHNOLOGY

Is it your dream to work on a race team? How about the chance to work in a high performance machine shop? If so, you've come to the right place. **UNOH IS RESPECTED AROUND THE INDUSTRY FOR ITS WORLD-CLASS HIGH PERFORMANCE MOTORSPORTS DEGREE PROGRAM.**

Turn your passion into a career at our 7-acre High Performance Motorsports Complex complete with cutting-edge technology and equipment. Our outdoor test facility houses an off-road course, drag strip launch pad, a skid pad, and 1/8 mile test track!

Courses include Welding, Engine Machining, Fabrication, Suspension & Steering, Drive Lines, Fuel Systems, Electronics, Ignition Systems and Custom Engine Building.

UNOH High Performance graduates are employed by companies and teams competing in: NASCAR Cup, Xfinity, Truck, and ARCA Series, Monster Jam, Indy Racing League, World of Outlaws, NHRA, Lucas Oil Late Model Dirt Series, and many more!

CALE GEORGIA

There's a lot more hands-on stuff than what you can get at a vocational tech school. **No other school lets you go in and perform alignments and rebuild shocks and all this stuff. They might teach you or show you on a board, but they don't let you do it hands-on like UNOH does.** I toured other schools with racing programs, and this one blew all the other ones out of the water. We have so many more buildings, three times the size of these other places, and it was more affordable too!

AUTOMOTIVE TECHNOLOGY

Automotive technology is at the very heart of our economy, culture, and way of life. Automotive technicians are highly trained to understand the inner workings of all types of vehicles. **UNOH IS THE #1 UNIVERSITY IN THE COUNTRY FOR AUTOMOTIVE TECHNOLOGY BECAUSE YOU'LL LEARN FROM INSTRUCTORS WHO BRING RECENT, REAL-LIFE EXPERIENCE TO THE CLASSROOM.**

Today, integrated electronic systems and complex computers run vehicles. Students are taught using the most modern equipment from Snap-On, Hunter, Sunnen, and many more. We update our curriculum to stay current with the latest trends from all the OEMs and aftermarket equipment manufacturers. Students will be hands-on utilizing one of our 90 different vehicles individually selected as training aids.

Plus, all of our students have the opportunity to take ASE tests to become ASE Certified, an industry-wide certification of excellence. As an added benefit to you, UNOH will cover the cost of up to two ASE tests for each student!

ABBY PENNSYLVANIA

I chose to enroll in the automotive program, in addition to my Robotics & Automation degree, so that I could work on a wide variety of machines, from cars to heavy equipment, and it really opens another door of job opportunities for the future. **One day, I hope to be an engineer who works on drawing up cars, so that'll help with having a background in Robotics of how to fix the stuff for cars, as well as writing logic and programming for CNC machines, and being able to work on multiple aspects of what goes into building a car.**

AGRICULTURAL EQUIPMENT TECHNOLOGY

Agriculture is a worldwide industry in need of qualified technicians. The job responsibilities of agricultural service technicians are becoming more complex as more electronic components control the operations of tractors and combines. Today's technician is required to have training in computer technology, electronically controlled hydraulics, global positioning systems, and ground navigational electronics.

The program builds a foundation for your career and each of our instructors brings real world experience into the classroom from years in the field. **OUR STUDENTS TRAIN WITH THE SAME TOOLS AND EQUIPMENT FOUND IN SERVICE CENTERS AND DEALERSHIPS ACROSS THE NATION. TRAINING AIDS INCLUDE AGCO, CASE-NEW HOLLAND, JOHN DEERE, MASSEY FERGUSON, GLEANER, AND MORE!**

A unique opportunity at UNOH is through our partnership with Crown Equipment Corporation. Through special courses, students may choose to get certified in the latest lift truck equipment technology.

AUSTIN NEW YORK

I like working with my hands, which UNOH offers very well here because it's 70% hands on. I like turning wrenches trying to diagnose what caused something to happen. The instructors are very knowledgeable. They all have past experience in the field, some from birth or some of them started 10 years ago. They all come from an agricultural equipment background.

CONSTRUCTION EQUIPMENT TECHNOLOGY

Do you like big machines and big dreams? Coming to UNOH in 2025 is an associate degree program focusing on Construction Equipment Technology! Housed amongst our Diesel programs, you'll learn all the ins and outs of diesel engines and put those skills to work on the variety of equipment used on construction sites around the world. Bulldozers, skid loaders, excavators, and more are just some of the machines you'll be trained to maintain and repair for world-class companies in need of highly skilled technicians like those from UNOH!

The Construction Equipment industry is expected to grow by 6 percent over the next decade with 21,000 job openings each year with an average salary of \$61,900 per year.

During your program, you'll receive specialized training in electronics, diesel engine diagnosis and repair, diesel performance, hydraulics, and construction equipment drivetrains with a focus on topics including power shift transmissions, differentials, electro-hydraulic control systems, flow sharing, GPS/grade control, electric and hybrid drives, ballasting, and traction motors.

DIESEL TECHNOLOGY

LIGHT DUTY

The Diesel Technology-Light Duty program at UNOH puts a specific focus on the light duty side of Diesel engines. Within these courses, students will focus on 8.0 liter diesel engines and smaller which are designed for on-the-road consumer cars and trucks.

Light Duty Diesel Technicians will learn how to diagnose light-duty engine problems, troubleshooting techniques on vehicles from onset to repair, engine electronic controls, suspension and steering, hydraulic brake systems and more!

THE JOB OUTLOOK FOR DIESEL TECHNICIANS IS PROMISING WITH A PROJECTED 7% GROWTH IN THE INDUSTRY IN THE NEXT 8 YEARS WITH 284,000 PROJECTED JOB OPENINGS DUE TO GROWTH AND REPLACEMENT THROUGH 2028.

These jobs are well-paying with the average technician holding an associates degree taking home almost \$56,000 annually. Top-earning technicians, those with specialized certifications and many years of experience, can earn more than \$82,000 a year according to the Bureau of Labor Statistics

MEDIUM-HEAVY DUTY

If you bought it, a truck brought it! **THE DIESEL INDUSTRY IS GROWING AND IS A CONSTANT FACTOR IN OUR ECONOMY.** If you are considering a career as a Diesel Technician, then the University of Northwestern Ohio is the right choice.

Classes include hands-on work in the live and dead engine rooms, diesel dyno labs, and shop space. In the Diesel Technology program, you'll work on training aids from top manufacturers in the field like Cummins, Mack, Volvo, Detroit, Caterpillar, DuraMax, and more. Students can also become certified for both Hydraulics and Pneumatics.

Diesel powered vehicles are the workhorses of industry and commerce. A UNOH education can put you at the front of the line for the thousands of job openings every year in the diesel field.

SAVANNAH INDIANA

UNOH is perfect for me because of the ability to enroll in all different kinds of programs. You can get the Medium/ Heavy diesel degree if you want to work on semis. If you want more education in the agricultural field, you can also do that. If you want both, you can get both. And then with Light Duty diesel technology, it's the same thing, it's just smaller engines. **It's nice that one place gives you everything that you want. UNOH is here with everything you'll need to succeed lying at your feet.** As long as you open the door and take those steps, you've made your future.

MACK/VOLVO DATE

THE UNIVERSITY OF NORTHWESTERN OHIO IS ONE OF ONLY THREE SCHOOLS IN THE NATION TO OFFER THE DIESEL ADVANCED TECHNOLOGY EDUCATION (DATE) PROGRAM TO FILL AN ONGOING SHORTAGE OF SKILLED VEHICLE SERVICE TECHNICIANS IN THE DIESEL INDUSTRY.

Students in this program will receive specialized training for Mack Trucks and Volvo Trucks including engines, electrical and electronics, emissions, power train, and chassis components. Hands-on work is done just as much as in-class instruction, preparing students to work in a fast-paced shop environment.

Upon completion of the program students will not only have a well-rounded general diesel technology education, but will be awarded Professional Level Mack and Volvo Technician Certifications. Students are then qualified for immediate employment at any of the hundreds of Mack and Volvo truck dealerships or any company that utilizes Mack & Volvo trucks across the country.

Employment opportunities are endless for the students who complete the Diesel Technology-Mack/Volvo DATE program. UNOH Career Services team will assist graduates in securing jobs with Mack or Volvo dealerships or other automotive industry employers across North America.

HYBRID ELECTRIC VEHICLE TECHNOLOGY

The automotive and diesel industry is beginning to transition away from solely gas-powered cars and trucks towards a more diverse set of fuel options for consumers and businesses alike. More models of hybrid and electric vehicles are hitting the industry every year. Hybrid, plug-in hybrid, and all-electric vehicles can help improve fuel economy, lower fuel costs, and reduce emissions. Hybrids offer dual technologies of gas and electric power for consumers. Electric vehicles, also referred to as battery electric vehicles, use a battery pack to store the electrical energy that powers the motor. **LEARNING TO MAINTAIN AND REPAIR THESE VEHICLES PAVES THE WAY FOR A SUCCESSFUL FUTURE FOR ANY UNOH STUDENT.**

UNOH, the leader in the high performance motorsports, automotive, and diesel technology education, is now offering a 2-year associate degree with a focus on Hybrid Electric Vehicle Technology. With a 70% hands-on approach to education, students will learn about the design, controls, and operating characteristics of Hybrid and All-Electric powered vehicles in addition to receiving an education on gas-powered vehicle repair technology. This dual approach gives students experience to work on the vehicles of today as well as the vehicles hitting the market years from now in all sectors of the transportation industry.

ALTERNATE FUELS VEHICLE TECHNOLOGY

ALTERNATE FUELS ARE THE FUELS OF TODAY AND IT'S ONE OF THE FASTEST GROWING SECTORS OF THE AUTOMOTIVE INDUSTRY. Consumers worldwide are steadily turning to hybrid and alternate fuel powered vehicles. That translates into job security for the alternate fuels vehicle technician.

At UNOH you have the opportunity to complete one of the most advanced programs in the country. You'll learn about alternate fuels such as natural gas, ethanol, hybrid electric, propane, bio-diesel, and hydrogen through UNOH's large fleet of training aids. This fleet exposes the students to a broad spectrum of vehicles.

Upon satisfactory completion of the program the students will become certified by the Alternate Fuels Training Consortium in: BioDiesel, Battery, Electric & Hybrid Vehicles, Propane Autogas Vehicle Technician Training, Compressed Natural Gas Vehicle Fuel System Inspector, and Light Duty Natural Gas Vehicle Inspection & Service.

I've been fascinated by robotics since I was a kid—playing with remote-controlled cars and fixing things with my dad sparked that interest. Before coming to UNOH, I worked with robotics, pneumatics, and hydraulic systems in Colombia, so this program felt like the perfect fit. **I've learned so much here, especially with hands-on experience using FANUC, ABB, and Yaskawa training aids. The opportunity to become FANUC certified is a huge advantage.** My goal is to build a career in the U.S. and put everything I've learned into practice.

HVAC/R TECHNOLOGY

Want a hot career with a cool payoff? The heating, ventilation, air conditioning, and refrigeration technology degree at UNOH is for you. **ACCORDING TO THE U.S. BUREAU OF LABOR STATISTICS, THERE WILL BE 42,000 JOBS OPENINGS EACH YEAR IN THE HVAC FIELD THROUGH 2028. THAT'S NEARLY A 13% JOB GROWTH RATE!**

The University's program has been awarded the HVAC Excellence Accreditation. Students can also gain certifications and take the industry competency exams, which gives graduates a certification the employers are looking for in all of their new hires.

Our Associate and Diploma programs in HVAC/R Technology will provide the foundation for your career. Most of your training will be hands-on utilizing HVAC/R training aids, Novar digital controls, Simutech computer-generated simulation programs, and the latest technology in furnaces, air conditioners, and commercial refrigeration units.

I really like the HVAC instructors because although the work can be stressful at times, they push us to be the best we can be. There are so many opportunities in this field no matter where you want to live. You can work on small appliances like refrigerators or specialize in working on large items like chillers in grocery stores, warehouses, or hospitals, things that will cool or heat entire buildings. The opportunities are everywhere.

AUTOMOTIVE TECHNOLOGY SUPERVISION

IF YOU WANT TO BE A LEADER IN THE AUTOMOTIVE WORLD, AN AUTOMOTIVE TECHNOLOGY SUPERVISION BACHELOR'S DEGREE IS THE SMARTEST PLACE TO START! This course of study goes beyond the technical education provided at the associate degree level, adding advanced industry and business management classes.

Earn a 4-year degree that prepares you to start your career in the automotive industry as a supervisor. First complete an Associates Degree in:

- Automotive Technology
- Diesel Technology
- High Performance Motorsports Technology
- Agricultural Equipment Technology
- Hybrid/Electric Vehicle Technology
- Automotive Management
- Construction Equipment Technology

Then complete your Bachelor's Degree in Automotive Technology Supervision for your junior and senior years at UNOH! This degree can also be completed 100% online so you can start working in the industry while preparing yourself for a promotion into management.

OUR SPEED IS UNMATCHABLE

RACE CLUB

Race Club students participate in a variety of programs within the world of motorsports. A relationship was formed with the ARCA Series and since then, Race Club members are able to travel around the country volunteering to be weekend technicians on various ARCA Series race teams.

The educational experience the students gain from working on these race teams is invaluable. In the interest of providing students with a well-rounded education, UNOH Race Club is looking to expand its presence in the ARCA race series and into other areas of motorsports. Other areas entered include NHRA and Rolex.

The Race Club helps students gain more experience by participating on race teams. Any University of Northwestern Ohio student may join regardless of major.

MOTORSPORTS TEAM

Students don't just build cars in our shops, they compete nationally at Limaland, Eldora, and Waynesfield, Ohio; and Volusia Speedway Park in Florida. Our students build, drive, and crew the cars they race in. The team is made up of two modified crews and four stock car crews. Tryouts are held each winter for a new team and roster of drivers.

UNOH also fields a drag racing team. The drag team has three competition vehicles: Chevrolet V-8 powered S-15, Ford-powered Mercury Cougar, and Super Comp dragster. During the season the team competes in bracket racing events at various NHRA and IHRA sanctioned tracks throughout Michigan, Indiana, and Ohio.

The benefits of students joining one of the Motorsports Teams is immeasurable. Graduates who were on the teams are being hired in all levels of professional motorsports from Monster Jam and all levels of NASCAR, to NHRA and IMSA, to the World of Outlaws, and All-Star Circuit of Champions.

LIMALAND MOTORSPORTS PARK

Limaland is a 1/4-mile high-banked clay oval owned and operated by the University of Northwestern Ohio.

All UNOH students have the opportunity to get involved at Limaland. Current students are granted admission into the spectator side grandstand area FREE of charge for specified race events.

MORE OPPORTUNITIES

CDL OPTION

UNOH started CDL classes to give students an advantage when seeking job opportunities after graduation. No matter what major you choose, obtaining your commercial driver's license puts you a step ahead of the rest. Many graduates have credited the CDL courses with getting their foot in the door allowing them to advance at a company from within. The CDL courses add just two additional sessions to your current program at UNOH. On average, CDL technicians can earn between \$45,920 and more than \$76,000 annually according to the US Bureau of Labor Statistics.

CAREER SERVICES

One of the distinct advantages of attending the University of Northwestern Ohio is the Career Services Department. Our dedicated staff assists our students in finding part-time jobs while on campus and full-time jobs after graduation. Career Services offers our students assistance in several areas such as resume assistance, career seminars, our Racer Careers database, and much more. You may also participate in career fairs. Many employers, seeking UNOH students, attend career fairs held frequently throughout the year which provide networking opportunities for our students. This allows students to get the job they want when they graduate. Last, but not least, when you graduate, you can count on our Career Services Department to provide you with lifetime job assistance as you enjoy your career.

more than just a **TECHNICAL SCHOOL**

At the University of Northwestern Ohio you can get a degree in nearly 40 different programs of study. In our Colleges of Business, Health Professions, and Occupational Professions, students are taught by professors who've worked in their respective fields for many years.

LOANS

FEDERAL DIRECT STUDENT LOAN

Subsidized – No interest charges while student is attending college.

Unsubsidized – Interest charges will accrue while student is attending college.

- Interest rate 6.39% adjusted annually not to exceed 8.25%

DEPENDENT UNDERGRADUATE LOANS

		Additional Unsubsidized	TOTAL
\$3,500	Freshman	\$2,000	\$5,500
\$4,500	Sophomore	\$2,000	\$6,500
\$5,500	Junior or Senior	\$2,000	\$7,500

INDEPENDENT UNDERGRADUATE LOANS

		Additional Unsubsidized	TOTAL
\$3,500	Freshman	\$6,000	\$9,500
\$4,500	Sophomore	\$6,000	\$10,500
\$5,500	Junior or Senior	\$7,000	\$12,500

FEDERAL DIRECT PARENT PLUS LOAN

- Interest rate is fixed at 8.94% adjusted annually not to exceed 10.5%
- The parent may borrow any amount of money needed to meet the cost of attendance less any financial aid the student may have received.
- Family income is not a criterion but a good credit history is needed.
- Payments can be delayed until after student's last day of attending or graduation.
- Parents who are unable to obtain this loan should contact the Financial Aid Office for additional options.

PRIVATE EDUCATION LOANS

- Borrowers can be students with a credit-worthy cosigner, parent, grandparent, aunt, uncle, or guardian.
- Private source of funds to pay for college education.
- Loans based on credit worthiness.
- Interest rates determined by credit history.
- In many cases, principal payments can be delayed until after student's last date of attendance or graduation.

X **\$2,100 PER SESSION**
8 SESSIONS PER YEAR

\$16,800 PER YEAR
WITHOUT FEES

*Tuition rates, grant funding levels, and loan interest rates are based on the most recent data available at the time of printing and are subject to annual changes. For up-to-date information visit www.unoh.edu/financialaid.
