Henderson Design Group

Our Story

Established by Eric Henderson in 2002, Henderson Design Group has built a reputation for refinement and style, and for respecting the values of clients and enhancing the aesthetics of the homes on which we work.

Over the past 15 years furnishing homes on the islands of Hawaii, Henderson has grown into a team of established, reliable, and experienced designers with offices in Hawaii and San Francisco. We design and furnish homes for a lifestyle and state of mind that is based on comfort, elegance, and warmth.

Henderson Design Group Hale Collection & Furniture Packages

A new furniture offering by Henderson Design Group that redefines the “barefoot luxury” design ethos by making the process of furnishing a home easy, fun, and affordable.

The Hale Collection reflects our approach of furnishing island homes with care and sophistication. Inspired by timeless tropical aesthetic, Eric Henderson and his design team have taken a contemporary approach to the newest collection. Included are unique furniture pieces inspired by architectural elements found at Victoria Place.

Materials reflecting the natural environment enhance each home’s interiors. Teak, stone, glass, rattan, and smart upholstery designed for an everyday living add character to spaces, while curated elements such as lamps and area rugs help define rooms with elevated comfort.

Unit #00
