WE MILK COWS JUST LIKE YOU. We milk 200 cows every day here at home. So when we pick or purchase bulls for our Blondin Sires program, we are picking the kind of bulls we like to use in our own farm's breeding program. While we love to show, we also love to work with modern and profitable cows that can be functional every day whatever the environment they live in. We look to breed cows made for longevity so that they can last for multiple lactations in the herd. Just like when we are picking bulls to use on the farm, we do a lot of research, checking all the genomics, the pedigree, the breeding patterns. Looking at everything to make sure they check the boxes before we purchase the bull. This ensures that when you pick a Blondin Sires bull to use in your program, you know we have looked him over for everything and are confidently using him in our own herd.

So from one dairy producer to another...THANK YOU for your support in what we are doing with Blondin Sires!
