Q 7
"Therein lies the secret," said Suzie.
"For you see, there is a seven-
letter word in the English language
that contains eight words without
rearranging any of its letters." What
is the word?

Q 14
There are seven coins which look
identical. One of the seven coins
weighs slightly less than the other
six. Using a balance scale, how could
you determine which is the light
coin in just two weighings?

Q 12
Sid Shady was working for a large
construction company that was very
concerned about employee security.
Someone tipped company security
that Shady was the man to watch.
Each night, he passed through
security with a wheelbarrow full of
scrap lumber, discarded electrical
wires, and chunks of concrete.
The security guards checked the
contents daily, but could find
nothing of value. What was Shady
stealing?
